Introduction

Welcome, Jumper! It has been 150 years since the Negramstia Empire was founded by the legendary mercenary king, Vault. This empire, infamous across the continent of Ostia, operates under a singular and oppressive doctrine: women exist solely to satisfy the desires of men. The consequences of this policy are as grim as you might imagine, leading to a society built on subjugation, exploitation, and relentless conquest. Under this guiding principle, Negramstia has relentlessly raided neighboring countries, plundering their resources and capturing slaves to fuel its cruel ambitions. These raids have destabilized the region, inciting anger and fear among the neighboring nations.

In response to Negramstia's aggression, the surrounding nations have formed a powerful coalition known as the Holy Alliance. United by their shared desire to end Negramstia's tyranny, this alliance is led by Serafina, a charismatic successor of Celestine, a wise and determined half-elf cleric, along with the valiant knight Iris. Together, these leaders have vowed to eradicate the Negramstia Empire and bring peace to the continent of Ostia. However, this task is daunting, for the empire's current ruler, Empress Radomira, is no ordinary opponent. As a powerful succubus with both supernatural abilities and a cunning mind, she has transformed Negramstia into a militaristic powerhouse. The looming conflict between the Holy Alliance and Negramstia promises to reshape the fate of the entire continent.

You will enter this world two years before the war officially erupts between the Holy Alliance and Negramstia. This brief window of relative calm is your opportunity to prepare. Will you fortify your position, build alliances, and gather resources? Or will you delve into the empire's dark depths, seeking to understand—and perhaps challenge—the foundations of its power? You are given 1,000 CP to shape your journey, allowing you to forge your path in this tumultuous era. The choices you make will ripple across Ostia, determining whether the continent succumbs to tyranny or rises into a new era of freedom and hope.

Locations

Here you will decide where in the world so choose one location below to start your journey.

1. Negramstia Empire

Starting in the Negramstia Empire places you in the heart of tyranny and conquest. As the nation that dominates through brute force and cruel doctrines, this empire is both feared and hated by its neighbors. Ruled by Empress Radomira, a ruthless succubus with a hunger for power, the empire is a dangerous but opportunity-filled land. Its vast armies and dark magics make it a formidable foe, but navigating its politics and dangerous alliances could allow you to influence the empire from within—or dismantle it entirely.

2. Kimia Order of sorcery

The Kimia Order is a bastion of magical knowledge and arcane power, renowned for its mastery of golems and spellcraft. Aligned with the Holy Alliance, this mystical nation provides crucial support in the form of sorcerers and enchanted constructs, enhancing the alliance's ability to combat the dark forces of Negramstia. Starting here allows you to immerse yourself in the secrets of magic, potentially harnessing ancient knowledge to sway the tides of war. However, the internal politics of the order can be as treacherous as any battlefield.

3. Merchant Nation alliance of Tuzul

The merchant nation of Tuzul is a bustling hub of trade and wealth, ruled by the cunning half-king, Mel Mel. Known for its shrewd economic policies, Tuzul funds the mercenary armies of the Holy Alliance, ensuring that the war effort remains well-supplied and well-equipped. Starting in Tuzul provides opportunities to amass wealth, broker alliances, and perhaps even manipulate the war for personal gain. However, the nation's reliance on commerce makes it vulnerable to espionage and sabotage, requiring sharp wit and strategic thinking to thrive.

4. Kitsune Principality of Fuswald

Fuswald is a land of shadows and intrigue, ruled by beastmen and renowned for its elite shinobi warriors. These espionage experts specialize in sabotage, reconnaissance, and assassination, making Fuswald an invaluable ally to the Holy Alliance. Starting here immerses you in a culture of discipline, stealth, and honor, offering the chance to master the arts of subterfuge and guerrilla warfare. The principality's beastmen rulers are deeply connected to their people, and navigating their unique traditions and politics will be as important as learning their deadly skills.

5. Aurelia Kingdom

The Kingdom of St. Aurelia stands as the heart and central headquarters of the Holy Alliance, a beacon of hope and righteousness for all who oppose Negramstia. This land of faith and chivalry is where paladins are trained to embody both divine justice and martial excellence. Led by the noble Princess Iris, a paragon of leadership and virtue, St. Aurelia inspires its allies with its unwavering commitment to the cause. Starting here immerses you in a disciplined and devout society, where the forces of light prepare to take on the darkness. However, the pressure of leading the alliance from the frontlines weighs heavily on the kingdom, making loyalty and strength essential traits for those who call it home.

6. Kingdom of Eldonia

The Kingdom of Eldonia is a neutral nation with no stake in the conflict between Negramstia and the Holy Alliance. Situated in the vast deserts at the heart of the continent, Eldonia acts as a buffer zone, surrounded by warring factions on all sides. Its people, known for their resourcefulness and resilience, have adapted to the harsh environment and thrive as traders, mediators, and desert navigators. Eldonia's leaders, pragmatic and focused on survival, have chosen neutrality to avoid the devastation of war, offering refuge and trade to all who respect their boundaries. However, as the battlefield inches closer, maintaining this neutrality becomes a perilous balancing act. Starting here immerses you in a land of scorching sands, vibrant markets, and delicate diplomacy, where every decision could tip the scales of war or peace.

Alignment

Here you will decide in which faction you will be part of when the conflict starts:

The Cuntry

Aligning with the Cuntry means embracing the dark ambitions of the Negramstia Empire. Under the rule of Empress Radomira, this faction thrives on conquest, domination, and the enforcement of its oppressive policies. As a member, you will have access to the empire's vast armies, dark magics, and ruthless strategies. However, loyalty to such a regime comes at a cost, and dissent is rarely tolerated.

The Holy Alliance

Joining the Holy Alliance means standing against tyranny and fighting for freedom and justice. Composed of united nations with diverse strengths, the alliance is led by noble leaders like Princess Iris and the skilled half-elf Serafina. As a member, you will work to dismantle the Negramstia Empire and protect the oppressed, forging bonds with other nations to secure a brighter future.

Gender

Here you will have the freedom to decide what race and gender you want to be.

For your gender, a unique consideration applies due to the harsh realities of this world. Choosing to be female comes with an additional +200 CP as compensation for the significant dangers and challenges you will face. In this world, being a woman is fraught with peril, and survival will demand both caution and resilience. However, this bonus 200 CP will be void if, at any point, you decide to retain the ability to change genders.

Race

Here are the races that you can become. Choose one:

Human [Free]

The most adaptable and versatile of all races, humans thrive in any environment. They excel in a wide range of professions and have a strong presence in nearly every faction. While humans lack innate abilities compared to other races, their determination and ingenuity often make up for it.

Goblin [100 CP]

Goblins are small, cunning creatures often found in the darker corners of the world. Despite their diminutive size, they are incredibly resourceful and can craft powerful tools and weapons, often making them ideal as engineers or scouts. While goblins may lack physical prowess compared to other races, their sharp minds and ability to adapt to almost any situation make them valuable allies or dangerous foes when underestimated.

Halfling[100 CP/Female only]

A race that resembles children in appearance but possesses physical power vastly exceeding that of fully grown humans. Celebrated for their unparalleled strength and expertise in forging weapons, they are both admired and feared across the land. However, their dependence on external races for procreation makes them a mysterious and often solitary people.

Beastman [200 CP]

Beastmen are humanoid creatures with animal-like features such as tails, fur, or claws, known for their exceptional strength, speed, and agility. These fierce warriors often hail from the Kitsune Principality of Fuswald and specialize in espionage, guerilla warfare, and survival. With a deep connection to nature and their primal instincts, beastmen are formidable fighters and hunters, often using their heightened senses to track or overpower enemies.

Orc [200 CP/Male only]

Orcs are brutish, powerful creatures known for their immense physical strength and combat prowess. As a male-only race, orcs are primarily found as warriors or mercenaries, often hired for their sheer might in battle. While their intelligence is often underestimated, orcs possess a strong sense of honor and camaraderie. Their brutal nature makes them both feared and respected across the continent, but they are also known for their tribal societies and fierce loyalty to their kin.

Ogre [300 CP/Male only]

Ogres are massive, hulking creatures that tower over most other races, with strength that matches their size. Male ogres are rare and highly sought after as warriors or mercenaries due to their near-invincible durability and overwhelming power. Despite their intimidating appearance, ogres are often misunderstood, with a deep sense of pride in their heritage and combat skills. As a race, they are often solitary, but their strength makes them indispensable in any conflict.

High Elf [300 CP]

High Elves are descended from the legendary female giants who once ruled the continent. They live for hundreds of years, retaining their youth and vigor for much longer than any other race. Known for their elegance, intelligence, and mastery of magic, High Elves are among the most powerful and respected beings in the world. Their long lifespan gives them a unique perspective on history, and they are often sought after as advisors, mages, or diplomats. As a High Elf, you share a deep connection to both the mystical and the ancient, making you a formidable force in any battle.

Dark Elf [300 CP/Female only]

Dark Elves are a race of all women, originating from a powerful but secretive lineage hidden deep in ancient temples in the far north. Pure Dark Elves are incredibly rare. Known for their exceptional magical abilities, agility, and stealth, Dark Elves are fierce, independent, and highly protective of their unique heritage. They often operate in the shadows, working as spies, assassins, or mages for those who can afford their services.

Succubus [600 CP/Female only]

Succubi are a demonic race that evolved from the original Tieflings into one of the most powerful and feared monsters in the world. With their seductive abilities and mastery of manipulation, succubi can bend the wills of others to their desires. Their dark magic and allure make them both dangerous and alluring, capable of draining the life force of others through intimate connections. Succubi possess extraordinary strength, charm, and the ability to manipulate both the physical and magical realms. Their evolution into a dominant force has made them a crucial part of Negramstia's power structure.

Half-Races [Total Cost + 100 CP]

Due to the world's tumultuous history and the intermingling of various races, pure races are becoming increasingly rare. As a result, half-breeds have emerged, combining traits from two different races. This allows you to create a hybrid of your choosing, blending the strengths, abilities, and weaknesses of both parent races. Choosing this option gives you more versatility and adaptability, but the cost comes with the challenge of reconciling the traits of both bloodlines, which may lead to cultural clashes or internal conflict.

Perks

You receive discounts based on your origin with 100 CP discounted ones being free.

General

Hentai Body [Free]

Just like many characters in this world, you have an appearance that turns heads. You start with a minimum attractiveness of 8/10 and have the freedom to choose any body shape you prefer. Given the hentai game influences of this setting, you can select a body type ranging from a loli-like figure, to a more voluptuous form with large, head-sized breasts. Additionally, as a bonus, your body will remain attractive at all times—sweat will enhance your appeal, and any dirt or filth will be easily washed away. Also your body can also survive any rough sex that this world may throw at you. Also this perk can be given for free to any companion or allies in future worlds.

Hentai Armour [Free/100CP]

In this world, skimpy armor is not only fashionable but also practical and fully functional. Regardless of the exposure, your armor provides complete protection depending on its type. Plate armor offers maximum defense against physical damage, while wizard armor provides significant elemental resistance. This perk comes free of charge during your stay in this world. Should you wish to bring this unique fashion sense to future worlds, it will cost you 100 CP. This ensures that wherever your adventures take you next, you can continue to enjoy the stylish and protective benefits of “armor”.

Hentai Beauty [Free/100CP]

In this world, beauty is an almost universal trait among its inhabitants, particularly the women. Nearly every girl you encounter possesses a striking allure, with their appearance effortlessly reaching a minimum of 7 out of 10 in terms of attractiveness. Their features are perfectly balanced, radiating charm and elegance, while their physiques are sculpted to embody the pinnacle of sensuality and appeal. This extraordinary level of beauty is a natural standard here, requiring no additional cost. However, should you desire to carry this exceptional allure with you into future worlds, it would require an investment of 100 CP to maintain such captivating looks and proportions beyond this realm.

It's an Hentai series after all... [Free/100CP]

You are in a Hentai and you will be stripped naked a lot. That's just how it is, because for some reason, any damage you take will be 100% absorbed by your clothes, eventually breaking them as if to reflect your status in a visually sexy manner. Because of this, as long as you are here being naked or partially naked in public won't bother you as much, and the taboo of being naked has been lifted from society's norms. You will get some perverted (or judging) stares from people but nothing more. If you want to bring this perk to future worlds a payment of 100CP will be needed.

Perfect Memory [100 CP]

You now possess the remarkable ability to create mental "screenshots" and "videos" of events you deem significant, capturing every detail with perfect clarity. These recordings can be replayed in your mind at will, allowing you to relive the sights, sounds, and emotions of those moments as vividly as when they first occurred. This capability ensures that no important detail is ever lost, whether it's a crucial conversation, a breathtaking view, or a critical piece of information. With Perfect Memory, your mind becomes an infallible archive, providing you with unparalleled recall whenever you need it.

Hey, She's Cute [100 CP]

Consider yourself fortunate! You now possess the uncanny ability to encounter individuals who perfectly match your ideal preferences and "strike zone." Not only that, but these individuals are naturally inclined to be receptive to your advances, making interactions with them smoother and more favorable. This doesn't guarantee instant relationships or unconditional love, but it does mean that the usual barriers of awkwardness or rejection are significantly minimized.

Matriarchy [200 CP]

Due to the unique origins of this world, you now have the option to shape future worlds you journey through into ones where leadership and organizational power are predominantly held by women. With this feature enabled, 90% of leaders and members within major organizations, governments, and groups will be female, reflecting a society where women dominate both the societal and hierarchical structures. You can toggle this feature on or off at the start of each jump, allowing you full control over how gender roles are represented in your ongoing adventures.

Hentai Craftsmen [400 CP]

You are now able to create your own armor based on the hentai logic of this world and weapons with various effects, depending on the materials you have on hand. The rarer the material, the stronger the armor or weapon you create. But that's not all—you also have the ability to upgrade or change its appearance to any armor and weapons you possess to a hentai equivalent here. This upgrading process will require both materials and lots of gold. So, if you have armor or a weapon that holds sentimental value, you can continuously upgrade it, enhancing its power and utility over time. This skill ensures that your equipment can evolve with you, always staying relevant and effective in your adventures.

The Cuntry

Evil Smile [100 CP]

Your smile exudes a chilling, malevolent aura that sends shivers down the spines of anyone who sees it. It's a clear, unmistakable signal to others that you are not to be trifled with. This unsettling grin can strike fear into your enemies, cowing them into submission or making them think twice before opposing you. Whether you use it to intimidate, assert dominance, or simply for dramatic flair, your sinister smile is a powerful psychological weapon.

To Loot Is Mine [100 CP]

Anything you acquire through conquest—be it gold, equipment, or other spoils—is undeniably yours. These items are marked in a way that others instinctively recognize, deterring any attempts to steal, tamper with, or dispute your claim. Your right to your loot is absolute, and those around you will respect this fact, ensuring that the spoils of your victories remain securely in your hands.

Sex Savant [100 CP]

You possess an unparalleled, instinctive understanding of the intimate arts, making you a prodigy in matters of passion and pleasure. Your skill and finesse in these areas go beyond what is humanly possible, ensuring that you leave an unforgettable impression on anyone lucky enough to experience your talents. This expertise transcends mere physicality, allowing you to connect with others on a profoundly deep and intimate level.

Charm Magic [200 CP / Free for Succubus]

You possess the ability to wield powerful charm magic, enabling you to manipulate the emotions, thoughts, and actions of others. Whether through subtle persuasion or outright domination, you can sway minds and bend wills to suit your desires. This magic is particularly effective for seduction, diplomacy, or disarming hostilities, making it a versatile tool for achieving your goals. For Succubi, this potent skill is innate and comes at no cost, reflecting their natural affinity for enchantment and allure.

Weakness [200 CP]

You have an uncanny insight into the vulnerabilities of others, both mental and physical. This ability allows you to identify precisely what can cause someone to betray their allies, lose their resolve, or even succumb to despair. Whether exploiting a person's fear, pride, or guilt, you know how to push the right buttons to turn even the most steadfast individuals to your side or break their spirit entirely. It's a gift that makes manipulation and sabotage your forte.

I Killed Him, So What [200 CP]

When you eliminate someone, as long as it's in service of advancing your organization's goals, you are protected from repercussions. No one will seek vengeance or justice for your actions, as the context of your deeds renders them untouchable. This ensures that you can act decisively and without fear of retaliation, provided your motivations align with your faction's mission. It's an invaluable perk for those who operate in the shadows or on the battlefield, ensuring your actions remain unchallenged.

Training of Women [400 CP]

You possess a unique and controversial method of training others by utilizing pleasure as a tool to accelerate their acquisition of skills. The skills they learn must either be ones you have mastered or ones that directly align with your preferences and desires. Even if they initially detest the process, your approach proves highly effective, allowing them to develop and refine their abilities at an extraordinary pace. This method ensures rapid growth but requires a strong understanding of what motivates or compels the individual in question.

Absorbing Mana [400 CP / Free for Succubus]

Every intimate act you engage in grants you the ability to siphon a portion of your partner's soul, further enhancing your own powers. This absorption bolsters your strength, magical capabilities, and overall potential. With repeated interactions, you can even begin to assimilate the skills and abilities of those you consume, making you progressively more formidable. For a Succubus, this power is intrinsic, reflecting their nature as apex beings in the realms of magic and allure.

To Submit [400 CP / Free for Succubus]

You possess an irresistible allure that leaves a lasting mark on those who experience your touch in moments of pleasure. Anyone you engage with in such ways will become deeply addicted to your presence, finding interactions with others wholly unsatisfying. Over time, this dependency grows, compelling them to seek only you for their desires. When they fully submit to you, a magical seal of ownership appears on their abdomen, symbolizing your absolute claim over their body and soul. For Succubi, this power is innate, underscoring their dominance and unparalleled influence over those who fall into their grasp.

Erotic Tentacle and Phallic Magic [600CP/Free for Succubus]

A unique and specialized form of magic that allows you to summon and control tentacles and phallic constructs infused with magical energy. These creations are extensions of your will, fully under your command, and can be used for a variety of purposes. Whether for binding, restraining, or indulging in acts of pleasure, they respond with precision and sensitivity to your intent. This magic is inherently versatile, capable of scaling in size, strength, and texture depending on the scenario.

The summoned constructs are infused with an enchanting aura that enhances the sensations of those they touch, amplifying pleasure or creating an intense focus on their presence. These magical creations can also be imbued with secondary effects, such as healing, calming, or even casting protective spells upon their targets. While undeniably potent for intimate scenarios, their utility extends to combat and subjugation, making this magic a formidable asset in both the battlefield and the bedroom.

Demon Creation [600 CP]

You have unlocked the ability to summon and create demons directly from the depths of hell, binding them to your will with unwavering loyalty. These infernal entities obey your every command, serving as your enforcers, soldiers, or even emissaries in your plans. At the start, you can summon an army of 1,000 weak demons, each capable of overwhelming enemies through sheer numbers and persistence. These lesser demons are perfect for reconnaissance, swarming tactics, or performing menial tasks.

As your power grows, you gain the ability to create stronger, more intelligent demons, each tailored to your needs and desires. These creations can serve as elite warriors, cunning strategists, or even trusted confidants, depending on their design. Your dominion over these fiends reflects the darkness within you, making you a formidable force capable of challenging the strongest foes and reshaping the battlefield with your unholy army.

Corruption of Men [600 CP]

You harbor a deep and insidious darkness, granting you the ability to corrupt the hearts and minds of others with your influence. Through your will, knowledge, and charisma, you can sow seeds of depravity and transform individuals, organizations, and entire societies to align with your twisted ideals. Over time, your corruption spreads like a plague, eroding morals and reshaping the very fabric of the world around you.

With patience and persistence, you can build a nation in your image—a mirror of "The Cuntry"—where your ideology reigns supreme. From the highest leaders to the humblest citizens, all will succumb to your influence, creating a society that reflects your desires. This power is as dangerous as it is profound, offering you the chance to reshape the destiny of a continent through manipulation and the allure of darkness.

You have an uncanny ability to locate and attract those who share your goals, values, or purpose. You are immune to the allure of decadence, hedonism, and manipulation, standing firm in your convictions. This inner strength ensures that your will is unbreakable, allowing you to stay true to yourself even in the most dire circumstances.

Right on Time [200 CP]

You possess an almost supernatural sense of timing, always finding yourself in the right place at the right moment. Whether it's to thwart an enemy raid, intercept an ambush, or uncover a traitor's plot just as it begins to unfold, you are always where you're most needed. This ability allows you to protect your faction and stay one step ahead of those who seek to undermine it.

Lie Detector [200 CP]

You have an innate ability to sense falsehoods, making you a living lie detector. When someone lies to you, subtle tells become obvious, whether in their tone, body language, or the energy they give off. This skill makes deception almost impossible to escape from under your scrutiny, allowing you to uncover hidden truths and hold people accountable for their words.

Admirers [200 CP]

Your charisma and presence naturally draw others to you, creating a devoted group of admirers wherever you go. These admirers may look up to you as a leader, seek to emulate your actions, or harbor romantic feelings for you. Their loyalty and admiration make them eager to assist you in your endeavors, offering both emotional support and practical help whenever you need it.

More Valuable Alive [400 CP]

Your life holds immense value to those around you, whether due to your skills, influence, or symbolic importance. Enemies are far less inclined to kill you, often opting to capture, negotiate, or manipulate you instead. This makes assassination attempts rare and ensures that even in hostile situations, your survival is prioritized. This unique position allows you to leverage your worth to your advantage, gaining opportunities even in the most perilous circumstances.

Will Stronger Than Stone [400 CP]

Your willpower is unshakable, surpassing even the strongest physical defenses. No amount of torture, temptation, or mental manipulation can break your resolve. You are immune to fear and despair, allowing you to remain steadfast in the face of overwhelming odds. This inner fortitude inspires those around you and makes you an indomitable force, capable of overcoming any challenge through sheer determination.

Clergyman [400 CP]

You are a respected and powerful member of the clergy, wielding divine authority and influence. Your faith grants you access to sacred rites, blessings, and miracles, which you can use to heal allies, banish darkness, use clairvoyance, or inspire hope. As a clergyman, you are a beacon of light and a symbol of righteousness, commanding respect and loyalty from those who share your beliefs. Your position also gives you significant sway in religious or political matters, making you a vital figure in both spiritual and worldly affairs.

Reincarnation of the Goddess Laurendeau [600 CP]

You are the reincarnation of the revered Goddess Laurendeau, a divine being prophesied to awaken during the most perilous times to save the people of Eos. Before your divine rebirth, your beauty was already extraordinary, drawing admiration and awe from all who laid eyes on you. However, now that you carry the spark of divinity, your beauty has been elevated to an unimaginable level—an 11/10. This enhanced beauty isn't just for show; it exudes an aura of grace and magnetism that compels others to blush and lower their defenses in your presence.

With the spark of divinity now embedded within your being, you are akin to a minor demigod, making you immune to degradation, aging, or any corrupting forces. Your body and spirit are preserved in their perfect form, untouched by time or decay. This divine transformation also enhances your charisma to celestial proportions, allowing you to effortlessly influence others and gain their trust.

In addition to your newfound allure, your powers are now intricately tied to the forces of holiness and healing. Your control over holy magic is unmatched, allowing you to heal wounds, bolster the spirit, and create holy artifacts imbued with powerful divine properties.

Ultimate Holy Figure [600 CP]

You embody the pinnacle of holiness and divine power, allowing you to heal not only physical wounds but also the most broken of minds. Your touch can soothe troubled souls, restoring clarity and peace to those who have suffered mental anguish or corruption. Your purification abilities go far beyond the ordinary; you can cleanse the deepest corruption, reversing any harmful changes or diseases in both individuals and entire environments. Whether it's a body ravaged by dark magic or a place tainted by malevolent forces, you can restore purity to it all.

In addition to these powers, you are a walking force of purification when it comes to demons and other dark entities. You can banish demons with ease, sending them back to their infernal realms, and even weaken or restrain them with a mere wave of your hand. Your control over holy energy is so profound that you can create powerful barriers filled with divine light, protecting allies or sacred spaces from the encroachment of darkness. These barriers are impenetrable by most evil forces, and your very presence serves as a beacon of hope and safety in a world beset by shadows.

Divine Wrath [600CP']

You wield the unparalleled power of divine retribution, channeling holy energy that can decimate entire armies with a single invocation. Your strikes are infused with the purest essence of the divine, effortlessly bypassing most physical and magical defenses, and delivering overwhelming devastation to unholy or corrupted entities. This ability not only serves as a testament to your divine connection but also establishes you as a living embodiment of judgment and righteousness. Your enemies cower in fear at the sheer destructive power you command, while allies rally behind your divine presence, knowing they are guided by an unstoppable force for justice.

Holy Garments [400CP]

You receive sacred attire akin to those worn by Serafina, consisting of a minimalistic design—a simple piece of fabric covering only the bottom of your body, with no upper wear. Strangely, while wearing these garments, you are not considered naked, as they are revered as holy and traditional attire. This recognition extends even to future worlds, where the outfit is viewed with the same divine respect. The garments are imbued with the blessings of a goddess, significantly amplifying the potency of any holy abilities, spells, or rituals you perform while adorned in them.

Holy Banner [400CP]

You are bestowed with a divine banner blessed by the heavens. This banner, when raised, exudes an aura of divine energy that inspires allies and instills fear in enemies. Its presence bolsters the morale and combat effectiveness of those fighting under it, granting increased courage, strength, and resilience. Additionally, the banner emits a purifying aura that weakens unholy beings and cleanses minor curses or corruption within its vicinity. The Holy Banner is indestructible and can only be wielded by you or those you designate. In future worlds, it adapts to reflect the cultural or religious symbols of that realm while retaining its divine properties, allowing you to unite and lead others under its radiant influence.

Chastity Belts [600CP]

These extraordinary chastity belts are made with divine craftsmanship, imbued with an unyielding enchantment. When worn, the belts cannot be removed or damaged by any means unless the wearer, in a fully sane and rational state, wills their removal. This safeguard ensures complete autonomy for the wearer, providing absolute protection against forced attempts to destroy, unlock, or tamper with the belt. Furthermore, the enchantment extends to anyone attempting to remove it—each failed attempt gradually diminishes their lust for the wearer. Over time, their attraction fades entirely, leaving them completely indifferent to the wearer in a way that is permanent and exclusive to them.

Another unique feature is the belt's ability to eliminate basic physical inconveniences. While wearing it, the wearer does not need to worry about eating, drinking, or using the bathroom, as their body's needs are mystically taken care of. This makes the chastity belts not only a protective tool but also a

practical one for prolonged wear. In future worlds, the belts will adapt in appearance to suit the setting but will retain all their mystical properties, offering unparalleled security and autonomy wherever the wearer ventures.

Spirit of Light [600CP]

You now possess a fragment of the divine essence of Goddess Laurendeau, encapsulated in the form of a radiant, shimmering gem. These items, once imbued with the gem, become fabled armaments worthy of heroes from myth and legend, with the ability to cleanse evil and banish darkness effortlessly. Whether wielded in battle or carried as a symbol, these creations inspire awe and reverence among allies while striking terror into the hearts of the corrupted.

Alternatively, the Spirit of Light can serve as a potent weapon against those who draw their strength from darkness. If consumed, the gem unleashes its purifying light within the individual, weakening and neutralizing powers derived from darkness. This can strip creatures like succubi or other dark entities of their corrupted essence over time, leaving them entirely purified and unable to use such powers again. The Spirit of Light replenishes itself once every 10 years, ensuring its influence remains eternal and its power can be called upon in your continuous battle against the forces of darkness.
