

# **Out of Context: Frieza Force Soldier Supplement**

V1 By **DeverosSphere**

This document can be used as a supplement in any Jump that would not otherwise have the Frieza Force within its continuity.

By taking this Supplement you have chosen to be a low ranking Soldier within the Frieza Force also known as the PTO, the Planetary Trade Organisation. You will enter into the continuity as a Drop-In awakening in a Battle Pod which was launched through a one-way rift in space.

**+1000 CP**

If this Supplement is instead taken as an Isolated Jump you may select a setting of your choice even if it doesn't have a Jump Document and use this document as a ten year long Jump.

## **Origin:**

As a soldier within the Planetary Trade Organisation you will need your own combat style. Which of the following will you choose?

### **Strategist**

You tend to outmaneuver opponents with planning and tactical awareness, studying your opponents, anticipating their moves, and exploiting their weaknesses.

### **Brute**

Your style tends to focus on overwhelming your opponents with strength and power, relying on heavy blows, powerful throws, or brute strength to dominate your foes.

### **Technician**

You prioritise your precision and skill, executing precise techniques and maneuvers. You tend to excel at specific techniques, like striking, grappling, or throws, and use them to their advantage.

### **Speedster**

You tend to utilize agility and quick movements in order to outmaneuvering your opponents. You are fast on their feet, quick with your hands, and are able to react quickly to your opponents.

## **Power Level:**

In this section you must purchase 1 power level, you may only purchase 1 power level option and your initial power level for this jump will be either reduced or increased to that power level. During the jump you will be able to potentially raise your power level through training and practice however unless you take the **Supreme Power Level** option the “Powerless” drawback will be mandatory.

Post-Jump any restrictions on your Power Level will be realised returning your Power Level you had previously plus whatever you gained during the Jump.

If your purchase increased your Power Level you will retain the increased Power Level Post-Jump.

### **Pathetic Power Level +400 CP**

When starting this Jump your power level will be set to 4 PL below that of even the average human farmer. While this weak you will be of little to no use for the Frieza Force.

### **Disappointing Power Level - Free**

When starting this Jump your power level will be set to 70 PL on par with a human martial artist who has no access to Ki. While pathetic for a member of the Frieza Force it should be enough to deal with most humans.

### **Mundane Power Level -400 CP**

When starting this Jump your power level will be set to 300 PL a super human level of power that is mundane at best on the galactic scale of the Frieza Force.

### **Average Power Level -800 CP**

When starting this Jump your power level will be set to 1,500 PL the average Power Level of the members of the Frieza Force, mostly used as fodder.

### **Notable Power Level -1200 CP**

When starting this Jump your power level will be set to 9,000 PL an impressive Power Level above most of the grunts of the Frieza Force.

### **Elite Power Level -1600 CP**

When starting this Jump your power level will be set to 60,000 PL, a Power Level higher than all the members other than the Captain himself of the illustrious Ginyu Force!

### **Emperor's Power Level -2000 CP**

When starting this Jump your power level will be set to 530,000 PL the same as Lord Frieza's most restrained Form.

### **Supreme Power Level -2400 CP**

When starting this Jump your power level will be increased to 500,000,000 PL superior to even Lord Coolers Power Level when he is in his 5th form. If your Power Level already exceeds that your Power Level will not be affected.

## Perks:

### Note:

To get a **Booster**: Perk you will need to purchase the complimentary Perks as an example:

### Almost Unique -??? CP

#### *Something Rare Booster: Something Unique*

To get the Perk **Something Unique**, you need to take both the **Almost Unique** Perk that it follows and the **Something Rare** Perk that is commented before the boosted Perk.

## General Perks:

Discounted Perks are half price with **-100 CP** perks being discounted to **-50 CP** unless stated to be Free.

### Ki Power - Free

Your body is now capable of producing Ki, a biological energy source that can be utilised for combat. You are able to sense and somewhat manipulate the Ki in your body however the amount of Ki you possess at the start of this Jump will be relative to your **Power Level**.

### Healthy Beginnings - Free

Once every 10 years and at the start of each jump, you and all your companions will have your bodies and all of your **Alt-forms** be set to their peak condition. This will alter their physical age, fully repair any damage and remove any conditions considered defects. You and your companions can choose to toggle what things are altered such as preventing the removal of a distinctive scar.

### Member Race - Free (Cannot be taken with “Rift-Touched”)

You must choose a race that has been employed as soldiers of the Frieza Force before Age 764 and will gain an **Alt-Form** of that Species. No matter what race you choose it will not affect your starting Power Level and you can choose to be Brench-seijin, Kettlean, Litt, Mixxileean, Rejinean, Slug-Jin, Toasterean, Zoon-seijin or any other unnamed race shown to work for the Frieza Force. You can not however choose to be a member of Frieza’s Race as they are the owners of the organisation and not employed soldiers.

### Gateway to Another Realm - Free (Cannot be taken with “Rift-Touched”)

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as if you came out of a one way dimensional rift. This Perk can also be used to keep the rift at the location of your arrival however, it will only be a plot item with the rift being permanently inert regardless of how it is interacted with.

### Dynamic Entry - Free (Requires 3 “Out of Context Origin Perks” from other Supplements)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

### **Perk Control -100 CP**

You have a deeper control over your perks allowing you to toggle and scale the level of your perks even letting you set conditional timers. This allows you to disable a perk or make it function at any percentage of its capabilities between 0% with it being vertically deactivated up to 100% with it being fully active. You can set timers to disable your perks for a period of time or set them to be activated in specific ways when predetermined conditions are met.

### **Technological Specialist -100 CP**

You are an engineer in the Frieza Force being able to build and modify any technology in your **Frieza Force Data Reference**. Your capabilities with this technology would allow you to make it your full time job if you were important enough.

### **Beneath Notice -200 CP**

You are able to **Toggle** yourself so that you seem unimportant to others. This makes it so that anyone who sees you at a location would not find you any more interesting than anyone else at that location. Thanks to this you could walk a crowded street even as another species with no one noticing so long as your attire is not particularly attention grabbing and you are generally the same size and shape as the species expected to be there. This will not help you in restricted locations unless it is common for people to be there and you are dressed appropriately.

### **Retained Advantage -400 CP**

Your body is always able to heal correctly for it to be in an optimal state. Though this does not accelerate your healing capabilities it will prevent the development of scar tissue while letting you regrow bones and muscle correctly in order to regrow limbs. Any harm your body does to itself such as cancer, ingrowing hairs or hernias will realign themselves to be in a correct position. Any degradation such as atrophy of your muscles from under use or starvation will heal over time with a healthy diet. Should any parts of your body grow too large such as gaining fat or your muscle's overgrowing they will compress without hindering your use of them.

### ***Beneath Notice Booster: Positively Noticed***

Whenever others see or think of you the first thoughts they will have will be about the aspects they like about you. For potentially romantic partners this could be a physical feature they find attractive despite you having multiple unattractive features, for employers or business contacts they will think of times you have been efficient and effective before any times you have not, for enemies they will think of times you have been beneficial to them before thinking of when you have been inconvenient. Be aware that this may have negative side effects on the mentally unstable such as someone may think about how beautiful your blood is or how pleasing your screams of pain are before anything else if they so mentally inclined.

### **Ginyu's Acknowledgment -600 CP**

You now have a small amount of training in Spirit Control while it doesn't allow for the multitude of potent abilities that the Yاردratians teach it does allow you to manipulate your spirit. This gives you some protection from external forms of spirit and soul manipulation such as possession and body swapping. Spirit Control allows you greater utilisation of your energy including the use of Ki and Mana giving you greater efficiency with any techniques or spells.

### ***Retained Advantage Booster: Ginyu's Advantage***

It seems your audition for the Ginyu Force has turned up some advantages as you have learned the style and Grace of the Ginyu Force Fighting Poses! Additionally your Spirit Control has synchronised with your **Alt-Forms** allowing you to internalise any improvements and reset any undesirable changes. This means that whenever you grow stronger it no longer changes your appearance unless you wish it to and while you continue to age you can choose to return your body to an age of your choice.

### ***Perk Control Booster: Ginyu Force's Acknowledgment (Requires "Jeice's Acknowledgment", "Recoome's Acknowledgment", "Guldo's Acknowledgment" and "Burter's Acknowledgment")***

Your Spirit Control has started to tap into your Perks allowing you to combine similar but different perks to make a hybrid perk slightly more powerful than the two were individually. The hybrid perk will have the ability of both perks individually but will also enhance the overlapping capabilities of the perks and utilise the beneficial differences that both perks possess.

### ***Retained Advantage Booster: Honnerary Ginyu Force Member (Requires "Perk Control", "Jeice's Assessment", "Recoome's Strike", "Guldo's Talent" and "Burter's Perception")***

With this your Spirit Control has evolved into a true **Meta-Perk** as any stolen or lost perks, powers or abilities will be restored. While this Perk is active any attempts to restrain, steal or copy any of your perks, memories, knowledge, abilities or powers without your consent will fail. This will even prevent your Jump-chan from forcefully disabling your Perks, Powers or Abilities. If you willingly choose to take a Restricting Drawback or go on a Gauntlet this Perk will be scaled down to the required level for the agreed upon period of time, however even while disabled it cannot be removed. Additionally you gain an extra copy of all items purchased with the extra set having the Ginyu Force Logo engraved in them. You may choose for either the regular or Ginyu Force set of items to be stored in your warehouse at the start of the Jump even if the Warehouse is blocked for the duration of the Jump. You also gain 4 Dark Blue Pol's, the highest form of the currency the Frieza Force uses.

### ***Pathetic Power Level Booster: Ginyu Force's Technician (Requires "Perk Control", "Technological Specialist", "Aesthetic Assessment", "Test Strike", "Magical Talent" and "Effort Perception")***

You now have the intricate knowledge and capabilities to study and craft perks. By default you are only able to create blank perks without any capabilities but with time and understanding of your own perks you can learn how to not only create copies of your perk but how to combine parts of perks you possess to create something new.

## **Strategist Perk Tree:**

### **Aesthetic Assessment -100 CP (Free for Strategist)**

You now instinctively understand any cultural or social visual details such as accessories or markings that indicate power or authority. This gives you an understanding of what rank, occupation and power their appearance would suggest to a well informed group as well as allowing you to detect when these details are counterfeit.

### **Ki Energy Assessment -100 CP (Discounted for Strategist)**

You understand the importance of ranged combat and now know how to form, compress and project your Ki in order to fire simple Ki Blasts. With training and practice you can use this to develop your own Ki attacks such as charged energy blasts or shaped Ki projectiles.

### ***Magical Talent Booster: Mana Energy Assessment***

You understand the importance of ranged combat and now know how to form, compress and project your Mana in order to fire simple Arcane Blasts. With training and practice you can use this to develop your own magical attacks similar to elemental cantrips or explosive mana balls.

### ***Spirit Talent Booster: Spirit Energy Assessment***

You understand the importance of ranged combat and now know how to form, compress and project your Spirit in order to fire simple Energy Blasts. With training and practice you can use this to imbue your spiritual attacks with effects such as causing specific emotions or tiredness.

### **Team Assessment -200 CP (Discounted for Strategist)**

While working with others you are able to assess their fighting styles and coordination skills allowing you to assess which individuals would be able to become the optimal team if put into a group. While working with others this also allows you to function within the team without disrupting any individual's capabilities or interfering with any pre-existing teamwork.

### **Precise Assessment -400 CP (Discounted for Strategist)**

You have an active awareness of your surroundings as you are able to gain an accurate 3D mental map of an area using any information you have perceived. This allows you to work out where you are in relation to other locations you have seen, lets you notice any changes to an area, plot out routes using areas you've seen before and create mental simulations using the areas you've mentally mapped.

### ***Retained Advantage Booster: Precise Advantage***

You are able to effectively convert your intended plans into actions. This allows you to estimate the actions of others and plan out your own actions using your mental maps and mental avatars to plan out your actions in advance and then set your body into a semi-auto pilot to perfectly replicate your mental plans.

### **Jeice's Audition -600 CP (Discounted for Strategist)**

You have a finer control over your energy usage meaning that when charging your energy such as Ki or Mana into an attack you can control with exact precision how much energy you put in. From this you could focus all the energy you have into a single point or suppress your energy to intentionally weaken yourself and hide from external detection.

### ***Ginyu's Acknowledgment Booster: Jeice's Acknowledgment***

Your Spirit Control has connected with the energies within you allowing you to resist your energy being manipulated by others. This allows you to protect your internal energy and external use of energy from different forms of energy manipulations including energy draining and suppression. While using this you Ki, Mana and other forms of energy will function within your body as normal however you will need to focus on any external use of it to prevent it being affected.

### ***Team Assessment Booster: Jeice's Assessment***

You are now able to combine your energy with the energy of others in order to perform combined energy attacks that are far more powerful. Not only does this cause any combo energy attack to become stronger than if the same energy attack had been fired by each person alone, but also allows multiple people to combine multiple different types of energy attacks to produce a combination with the advantages of each attack.

### **Brute Perk Tree:**

#### **Test Strike -100 CP (Free for Brute)**

When hitting an enemy you can determine all of the defences abilities and resistances they currently have regardless of how powerful the strike you make is. This allows you to quickly determine which attacks of yours will harm or kill them. This will not however allow you to estimate the defenses of any transformation's or power-ups that they don't currently have active.

**Ki Empowered Strike -100 CP (Discounted for Brute)**

Sometimes it doesn't matter if you can hit someone if you can't hit them hard enough and now you know how to enhance your physical capabilities through your Ki allowing you to empower your physical strikes, speed and durability. With training and practice you can use this to develop close range Ki techniques such as creating Ki Weapons or Ki Armour.

***Magical Talent Booster: Mana Empowered Strike***

Sometimes it doesn't matter if you can hit someone if you can't hit them hard enough and now you know how to enhance your physical capabilities through your Mana allowing you to empower your physical strikes, speed and durability. With training and practice you can use this to develop close range Magical techniques such as primitive healing magic or cloaking yourself in defensive arcane elements.

***Spirit Talent Booster: Spirit Empowered Strike***

Sometimes it doesn't matter if you can hit someone if you can't hit them hard enough and now you know how to enhance your capabilities through your Spirit allowing you to empower your melee strikes, speed and durability. With training and practice you can use this to develop close range Spirit techniques such as creating spiritual limbs or the capacity to strike incorporeal, spectral, or ethereal beings such as ghosts.

**Harmful Strike -200 CP (Discounted for Brute)**

When looking at someone or something you can quickly determine the vulnerable and load bearing parts of it. This allows you to tell what area would be the easiest to break and which areas if struck would cause the most damage.

**Painful Strike -400 CP (Discounted for Brute)**

When hitting someone you can increase the amount of pain they feel from each strike by up to 10 times. Though using this to increase pain can cause mental harm it will not have any increased physical effects. For example you can not use this to cause someone to go into shock from the pain unless your normal strike would cause them to go into shock.

***Retained Advantage Booster: Painful Advantage***

You are now able to control not only the pain of your own attacks but also the pain caused within your perception. This allows you to Manage your own pain senses and alter the pain senses of anyone you are directly looking at allowing you to decrease the pain sensation down to 2% or increase it up to 5,000%.

### **Recoome's Audition -600 CP (Discounted for Brute)**

When fighting it's not always the strongest who wins, sometimes it's those who can last the longest, even when outmatched. With this perk you are now far more efficient with your stamina and strength allowing you to punch with the exact strength you intend to use. This also increases your natural stamina regeneration so that you are able to recuperate in a tenth of the time it otherwise would.

### ***Ginyu's Acknowledgment Booster: Recoome's Acknowledgment***

Your Spirit Control has now seeped deeper into your body allowing you to better resist physical manipulation of your body through non-physical means, this allows you to better resist diseases, drugs, telekinesis and biokinesis. A side effect of this is that you also have a high tolerance for food and drink allowing you to consume spicy, poisonous and alcoholic beverages while only feeling 1% of its effects though this won't diminish flavor.

### ***Harmful Strike Booster: Recoome's Strike***

When striking a target with who has pre-existing damage which you're aware of you can choose to exacerbate their wounds. This makes it so that when hitting an injured enemy their injuries would slightly deepen while causing them to become slightly more exhausted. When striking an object it will cause any scratches or holes to deepen and increase in size even if you do not possess the strength to damage the object.

## **Technician Perk Tree:**

### **Magical Talent -100 CP (Free for Technician)**

You have an innate talent for magic however the amount of Mana you possess at the start of this Jump will be relative to your **Power Level**. Using Mana you could cast spells or perform magic rituals however this perk by itself does not grant any additional knowledge of magic.

### ***Ginyu's Acknowledgment Booster: Spirit Talent***

Thanks to your talent in Magic and Ki you are better able to utilise your Spirit Control in a practical sense. Spirit is the energy that your soul relies on and is stored within like a yoke in albumen, allowing you to use it even without your living body. However the amount of usable Spirit you possess at the start of this Jump will be relative to your **Power Level**. The energy is often utilized by ghosts and occasionally referred to as ecto-energy.

**Ki Flight Talent -100 CP (Discounted for Technician)**

You are able to express your Ki through an Aura allowing you to project it in any direction. **Psychic Talent -200 CP (Discounted for Technician)**

You have an innate talent for telepathy and telekinesis allowing you to interact with the world using your mind, however the amount of psychic power you possess at the start of this Jump will be relative to your **Power Level**. You're telepathically can be used to communicate with others, reading their thoughts through telepathic eavesdropping or disrupting them through telepathic distractions. You can telekinetically move objects through mental concentration and hinder others by telekinetically grappling them. Prolonged use of your psychic abilities will be mentally exhausting causing you to get headaches if used extensively without rest or sleep.

**Progressive Talent -400 CP (Discounted for Technician)**

Whenever you perform a technique or ability you will be able to slightly improve it, making them more efficient, more powerful or altering its capabilities. This makes it so that you will make approximately the equivalent of an hour's worth of practice and training with the technique for each second that you are using it.

***Retained Advantage Booster: Progressive Advantage***

Every time you perform a technique or ability it will be the most skilled you have performed it. This means that after you perform it successfully you will never make a mistake when using it, you will never perform it with less skill or ability and every time you make improvements every future use of the technique will retain that improvement going forwards.

### **Guldo's Audition -600 CP (Discounted for Technician)**

You have a mental resistance to exhaustion from over work, from prolonged inaction and as an extension physics exhaustion. Whenever you use up mental stamina you will now only use up a tenth you previously would. This could make it so that you are mentally capable of continuing activities even if your body can not go on.

### **Ginyu's Acknowledgment Booster: Guldo's Acknowledgment**

Your mind is now connected to your Spirit Control allowing you to set up mental defenses from various forms of mental attacks. This allows you to resist telepathy, mind control, personality alterations and memory manipulations while setting up a fake mind for others to target and you to see how they intended to alter you.

### **Psychic Talent Booster: Guldo's Talent**

Your psychic abilities no longer cause you any discomfort or mental exhaustion. This also grants you further flexibility with your psychic abilities allowing you to trap targets in a psychic energy, alter the memories or mind of a target, telepathically see events through the eyes of others at a distance and even halt the momentum and perception of time for a target. The more powerful the target of these effects the easier they will be able to resist these abilities.

## **Speedster Perk Tree:**

### **Effort Perception -100 CP (Free for Speedster)**

When someone is fighting you will be able to tell when they are going all out and what percentage of their current power they are using. While this will tell you how much power they are holding back in their current form and how confident they are in the fight, it won't tell you if they have any transformations or how powerful those transformations could be.

### **Ki Sense Perception -100 CP (Discounted for Speedster)**

You can feel Ki and biological Life Force at a distance. The more powerful the Life Force is the more noticeable and further away you can feel them. With training and practice you can learn to use this to estimate how powerful someone is and who they are if you have sensed them before.

### **Magical Talent Booster: Mana Sense Perception**

You can feel Mana and Magic at a distance. The more powerful the Magic is the more noticeable and further away you can feel them. With training and practice you can learn to determine the attributes of the magic being used and estimate what a spell is supposed to do.

### **Spirit Talent Booster: Spirit Sense Perception**

You can feel Souls and Spirit energy at a distance. The more Spirit energy and more powerful the Soul is the more noticeable and further away you can feel them. With training and practice you can learn to estimate details about the Soul such as their age, race, species and if they are alive or undead.

**Accelerated Perception -200 CP (Discounted for Speedster)**

When moving at a heightened speed you are able to proportionally increase your thinking speed. This makes it so that if you are running 100 miles a minute your perception of your movements would be the same as if you were moving at a walking pace allowing you to better respond to high speed changes in combat.

**Altered Perception -400 CP (Discounted for Speedster)**

You are now able to create a mental space for yourself to exist in that is a replica of reality with you retaining your exact capabilities. While in this mental space you can experience anything you have perceived before allowing you to experience it again at a moment's notice. While in this space you can do mental training by imagining yourself combating against an imaginary foe allowing you to determine how an actual battle against that foe could play out. As this training is completely mental it allows you to gain combat experience and come up with new strategies without needing a location or opponent for physical training.

***Retained Advantage Booster: Altered Advantage***

While performing physical training within your mental space your body will now adapt to the mental training allowing you to physically grow as you mentally train. If you were to use the mental space for weight lifting it would have a physical reaction in the real world as though you were lifting those weights however you can only imagine weights you have experienced.

***Burter's Audition -600 CP (Discounted for Speedster)***

Wherever someone is moving within your perception at speeds higher than your normal perception of time, your perception will accelerate so that you are able to perceive them even if they have stopped time. This allows you to think about what they are doing and remember their actions, however it doesn't accelerate your body so it may be difficult for you to react.

***Ginyu's Acknowledgment Booster: Burter's Acknowledgment***

Your Spirit Control has connected to your senses allowing you to develop defences against any alterations or manipulations of your ability to perceive. This allows you to see through illusions, resist sensory overloading and bypass forms of perception blocking. While you may not be able to directly see the truth this will always allow you to tell when something is false. This also allows you to combine your senses in order to create a mental model that you can examine.

***Accelerated Perception Booster: Burter's Perception***

Whenever your mind is accelerated by this perk you are able to accelerate your movements to match it. While it will take a few seconds for your body to match your perception it will allow you to match the movement even if they accelerate or decelerate without causing your body to slow down.

**AU Continuity +1000 CP**

You are not in the canonical story but an alternative universe randomly created from all the FanFictions and Fan Theories.

**In Context Foe +1000 CP (Requires 2 or more of the following Drawback “Powerless”, “Empty Handed”, “Alone”)**

To take this drawback your jump setting must have a Jumpchain that you have not used. A new opponent will be added to this jump with their only goal being to destroy you. They will have double the total CP you gain in this Document which they can spend however they wish in the unused Jumpchain.

**Random Setting +1000 CP**

By taking this drawback you are no longer allowed to select the setting of your Jump instead you must use the following link and choose one of the six options it provides. If that setting has a Jump Document already you may use that Document for this Jump.

If none of the settings are appropriate you may change the genre option to: Animation, Fantasy, Horror, Science Fiction.
