Perks:

Note:

To get a **Booster**: Perk you will need to purchase the complimentary Perks as an example:

Almost Unique -??? CP

Something Rare Booster: Something Unique

In order to get the Perk **Something Unique**, you need to take both the **Almost Unique** Perk that it follows and the **Something Rare** Perk that is commented before the boosted Perk.

General Perks:

Dungeon Management System - Free

Your dungeon can be manipulated and controlled using a **Dungeon Menu** which utilizes a form of currency exclusive to this perk called **Dungeon Points** or **DP** in the **Dungeon Shop** to make new rooms, set traps, set monster spawners, summon individual monsters or in the **Personal Shop** to buy or sell physical items from the setting that you are in.

The **Dungeon Menu** is displayed on a semi-transparent touch screen which can only be viewed or interacted with by those who have been given access.

Through the **Dungeon Management** section of the **Dungeon Menu** map overview you can control the self-repairing functions of the dungeon and its layout rearranging rooms and blocking areas off so long as there is a traversable path from the dungeon entrance to your **Dungeon Core Room**.

You can use the **Monster Management** section within the **Dungeon Management** section to **Name** specific **Dungeon Monsters**, send them messages and use the **Resurrection** Option to bring back **Named Dungeon Monsters** in exchange for a varying amount of **DP**.

There are ways to gain **DP** other than selling items, the easiest way is to passively absorb energy such as Mana, Miasma or Sunlight from the space your dungeon occupies and the areas surrounding it with the amount gained this way growing as your dungeon does. The other ways to gain **DP** require interacting with the dungeon's visitors, while they are inside the dungeon you will passively absorb energy from them gaining **DP** at a varying rate depending on the strength of the visitor. If a visitor dies in your dungeon you will gain a sum total of **DP** at a varying rate depending on the strength of the visitor and can then sell their corpse to gain more.

Post-Jump you may use the Dungeon Menu even when not in the dungeon but will not be able to gain additional **DP** until you return to the dungeon and gain any that has been generated since your last visit.

Core Aspects - Free (Cannot be taken with “DM”)

For the duration of this Jump you are locked into the **Alt-Form** of a **Dungeon Core**, a crystalline Pearl like stone that cannot leave the **Dungeon Core Room**. You can project a hard light physical projection anywhere within the boundaries of your dungeon that by default will be visibly similar to a Human but you can choose to instead become any of your **Alt-Forms**. You will have direct control over any of these projections as if they were your true body. **Post-Jump** this becomes an independent body that you can control from any distance and you can create one new **Dungeon Core** and **Dungeon Core Room** at the start of each jump.

Core Origin - Free (Cannot be taken with “DM”)

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as if you were using this Supplement.

Dynamic Entry - Free (Requires 3 “Out of Context Origin Perks” from other Supplements)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

Pocket Environment -100 CP

Your Dungeon is no longer limited by physical space and you can now store it in a Subspace allowing its internal volume to be far larger than its external space. The Subspace can grow through spending **DP** to create more Room’s and Floor’s in your Subspace Dungeon with each floor and room added allowing you to purchase slightly better traps and monsters.

By default the entrance to your **Dungeon Core Room** is in the very bottom of your Dungeon

Out of Context Guise -200 CP

Through this Perk you can alter the visual appearance of anything using your **Dungeon Menu** allowing you to alter items and monsters to look like items and monsters from previous jumps however this will only slightly increase their strength.

Long Distance -400 CP
