

# Date EVERYTHING!

Date Everything!  
v1.0

by Hibisquits

You find yourself standing alone in an empty void, just outside the timespace continuum. Floating directly in front of you are a pair of sunglasses. For lack of anything else to do, you reach out and put them on. Suddenly, you find you aren't as alone as you thought you were.

You're not quite sure how it happened, but there's a smiling, pink-haired stranger standing just a few feet away from you.

Hey there, Jumper! Your world is about to change.

Being a Jumper, you are no stranger to mysterious beings materializing out of nowhere. Still, you're quite surprised at this woman's sudden appearance.

My name is Skylar Specs; I'm that pair of Dateviators you're wearing! (And you're looking pretty spiffy if I do say so myself!)

The Dateviators allow you to D.A.T.E. — Directly Acknowledge a Thing's Existence. The science is a little complicated, but basically when you put me on, you will be able to communicate with objects and concepts. It's almost like speaking to another human, though Datable Objects really exist on a different wavelength.

You can use the Dateviators to form relationships with Datables— like **Love**, or **Friendship...** or even **Hate**, if you're into that kind of thing. With a strong enough relationship, I can even help you **Realize a Datable Object** and give them a human(ish) form!

Skylar flips her hair over her shoulder, looking contemplative.

That's under normal circumstances, of course. I'm told that you have the option to become a **Datable Object** yourself? I had no idea that was possible! Either way, I've just gotta root for **Love!** I love **Love**.

Take these **1000 Choice Points** to get started. I hope we meet again!

## Age and Gender

You need to roll your age using **1d8 + 23**.  
By default your gender is whatever you were previously.  
It is **50 CP** each to freely choose your own age or gender.

## Origins

### Drop-In [Free]

You are dropped in this new universe with no background, memories, or documentation.

Your starting location is just outside of the corporate headquarters of Valdivian, a megacorp that has rapidly risen to prominence over the last ten years. Valdivian has its fingers in every pie; there are rumors that they've scored a lucrative contract with the **Department of Overseas Violence** due to some astounding new technology they've developed.

You have arrived just a few months before a certain disgruntled employee makes off with Valdivian's most valuable project. Maybe you can find some way to get involved?

### Homeowner [100 CP]

You are the proud owner of a two-story home in a quiet suburb, and your degree in customer service has landed you a remote position at Valdivian! Today is your first day; surely nothing will go awry.

You are dropped in as the player character in **EVERYTHING!** This option isn't all too different from a Drop-in, given your small social circle, but you have memories of a life here. Your friend Sam is waiting for you to long on to your work portal; expect a pair of deluxe sunglasses to crash through your window at any moment.

### Datable [200 CP]

Bafflingly, you are no longer a person. Sort of. You are a **Datable**. You are a single object that sits in a house, you are an amalgamation of every instance of that object that exists, you are an anima, a spirit that exists on a different plane than that which humans occupy. You're also, like, really hot.

You drop in as an object or concept that exists in the **Homeowner's** house. You have a job, maybe friends and family, maybe even a pet **Inanimal** that you care for. However, something about your life just doesn't feel quite right. Word around the house is that the **Human** has found some method of speaking to **Datables**; maybe they can help you?

Note: If you pick an existing object/concept from the game, you will replace that character. Unless, of course, you decide to be a coat hanger. Welcome to the fam, Hank #6! Hope you're ready for some EPIC stunts with your new homies.

## Race

Unless you choose the **Datable** origin, you are a human by default.

## Perks

*Origins get their 100cp perks for free and the rest are discounted to 50%.*

## Drop-In

### **Most-ly Lucky [100 CP | Discounted for Drop-In]**

Not unlike **David Most**, illustrious CEO of Valdivian, you have a talent for being in the right place, meeting the right people, and saying the right thing to give yourself a leg up in the business world. That isn't to say it won't all come crashing down one day; lucky doesn't mean competent.

### **Valdivianite! [200 CP | Discounted for Drop-In]**

You somehow got your hands on a platinum Valdivian membership at no cost! Enjoy your lightning-fast delivery of Valdivian products, full access to the Valdiviflix catalogue, and complementary membership to CEO **David Most**'s personal newsletter.

### **The Lieste of their Concern [400 CP | Discounted for Drop-In]**

Not unlike our intrepid friend **tinfoilhat**, you have the power to stay under the radar. You can sneak into and out of a corporate HQ without raising an eyebrow, easily encrypt vital communications, and stay one step ahead of any taskforce (or former partner) that sets out to find your clandestine location. Unless your neighbor notices you've been stealing his Wi-Fi.

### **The Seventh Founder [600 CP | Discounted for Drop-In]**

You have the type of rags-to-riches story that makes tech-bros swoon. Once, you were a sweaty college student sitting on a cardboard box in your friend Dave's dorm room. Now, you're one of the seven people who founded the largest corporation in the world. You don't work there anymore, of course, but you've got a huge leg up in the business and technology world. You might even have the power to take Valdivian down a peg...

Outside of this loop, you can take on a similar role at a similarly large corporation. Unavailable to the **Datable** origin.

## Homeowner

### Homebody [100 CP | Discounted for Homeowner]

You are at your most comfortable when you're at home. So long as you stay in the confines of your dwelling, expect better health, better rest, and a better mood.

### BFA in Customer Service [200 CP | Discounted for Homeowner]

You are an excellent communicator, and you have the credentials to prove it. Not only do you have the ability to quickly appease irate customers, you're also excellent at resolving conflicts, assisting others with personal issues, and understanding what makes people tick.

### S.P.E.C.S. [400 CP | Discounted for Homeowner]

Smarts, Poise, Empathy, Charisma, and Sass. You've got all of these qualities in spades! Start the Jump with 40 SPEC points in each stat. That should help you get to know some of these Datables!

Outside of this Jump, this perk gives you a real 'it' factor. People are much more likely to enjoy your company and view you favorably.

### Date Everything! [600 CP | Discounted for Homeowner]

Once per Jump, you can independently harness the power of the Dateviators.

You can D.A.T.E. an object or concept from outside of the Date Everything! Jump, and will even have the possibility of **Realization**.

That means that so long as you have a strong enough relationship with a **Datable** object or concept, whether that be **Love** or **Friendship**, you can borrow Skylar's ability to incarnate them into a near-human physical form.

## Datable

### Objectified [100 CP | Discounted for Datable]

Daaang! I know you aren't technically a 'person' and all, but you are looking *great*. You are now noticeably attractive.

### Thing Theory [200 CP | Discounted for Datable]

You know who you are, and you know your purpose. Whether that purpose is to wash dishes, make music, carry other objects on your shoulders, or format textboxes, you are a master of your craft. With this perk, you gain a level of competence that other **Datables** envy. It may even make the **Homeowner** swoon!

Outside of this Jump, you will maintain your connection to the anima of your chosen object or concept.

### Roomers [400 CP | Discounted for Datable]

You are on top of ALL of the latest gossip in the house; the Scandalabra would be jealous!

You have a good general awareness of the goings-on in your community, and insight into the troubles of those around you. You are exceptionally good at finding clues about hidden characters, too!

### Final Form [600 CP | Discounted for Datable]

Enough is enough. You have been denied your purpose, mocked and belittled. There is no turning back now; if you want the freedom to be who you are, you have to be willing to fight for it.

You now have access to a secret final boss form. In this form, you will gain immense fighting power, an awe-inspiring aura, and 100 hit points. You have the power to crush your enemies, and may whatever they pray to have mercy if you have to enter phase two.

Of course, your powers are completely tied to whatever **Datable** you have decided to become

## Items

Kind of a loaded topic in a Jump such as this, but there are a number of items you can take with you at the end of your adventure.

### Valdivian Mug [Free]

A rare mug that only the most dedicated of Valdivian employees can get their hands on; lucky you!

### Collectibles [100 CP]

Bring along any of the collectibles you received getting to know the **Datables**.

### Apps a'Plenty [200 CP]

Listen, if you are **Datable** and you don't even have a personal app, what are you even doing?

You gain permanent access to apps from the game Date Everything! – such as **Roomers**, **Thiscord**, and **Wrkspce**.

### Dateviators [600 CP]

You gain permanent access to the Dateviators in future Jumps. Regular restrictions apply, however. The glasses only have five charges a day, and if you want to keep using them you need to maintain a good relationship with Skylar and help her maintain the **Suspension of Disbelief**.

## Companions

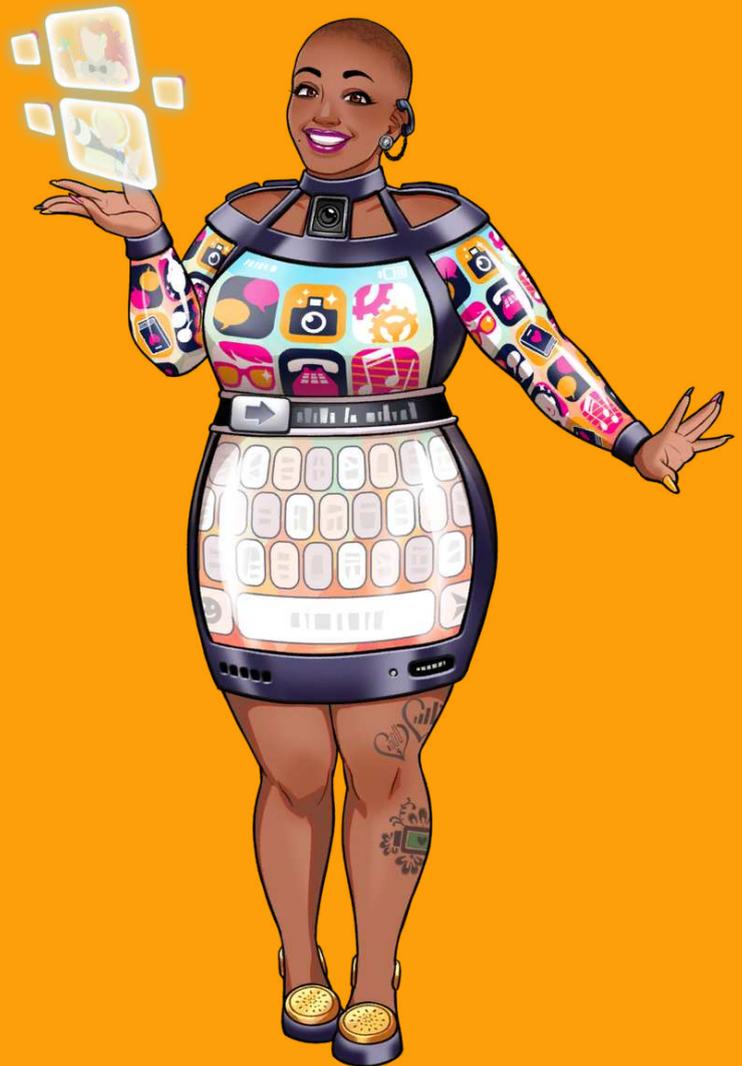

*Companions can purchase more companions.*

### Companion Import [50-200]

Import a single companion into any origin for 50cp each or eight for 200cp.

### Canon Companion [100]

For 100cp, you may bring along a companion from this Jump going forward. Human, Datable, so long as they agree to come along they're fair game.

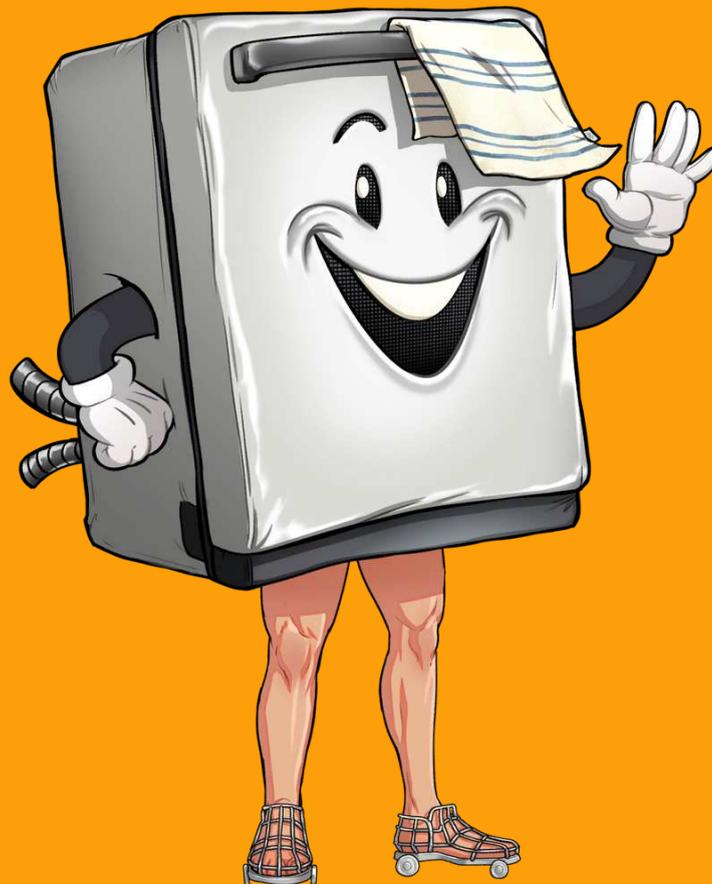

## Drawbacks

### Extended Stay [+100 CP]

For each purchase of this your time here is extended 10 years.

### Dishy [+200 CP | Datable]

Sorry, Jumper. It seems that the only position available to you is to become Dishy, the dishwasher. He's a hard worker and he's always got a smile on his face, but... well, he's Dishy.

### D.I.Y. [+400 CP | Homeowner]

You're actually the new owner of the house after the last **Homeowner** left in a hurry. The place is in disrepair. You find the **Dateviators** and put them on only to find that the original owner has already achieved a **Hate** ending with everyone in the house! You can turn things around, but it'll be a long, tough process to get these poor **Datables** to trust another human.

### Lockdown [+500]

You have no **Out Of Context** items, powers, or warehouse.

## Decisions

*You have three choices ...*

### Go to next Jump

Continue on your journey to the next Jump.

### Stay

Stay and enjoy the world of

### Go back

Return to the world you came from, with a deeper appreciation for the things around you.
