

# SAVED BY THE BELL

**Spaghetti Sauce Recipe** (100cp)

You have the recipe for a truly delicious spaghetti sauce, as well as an unlimited supply of the sauce itself, along with any other ingredients needed to make a dish with this sauce. Just don't try to sell the sauce, someone else owns the recipe.

### **Automobile (200cp)**

You have a nice car, your choice of make and model. It is self-cleaning and self-maintaining, never needs to be refueled, produces no pollution, and will self-repair in 24 hours. This vehicle will never suffer an accident unless it is being specifically targeted to cause one.

### **The Max (300cp)**

You own a small diner that mostly caters to a teenage crowd. It runs itself, making you a decent income, and the manager is actually a decent amateur magician who likes to amuse the customers with a trick or two.

### **Troublemaker**

#### **Cellphone (100cp, Free for Troublemaker)**

You have an 80's style brick cellphone. It will always have service and never needs to be recharged. You have a nice home to live in, with all utilities, taxes and other costs paid and all required supplies fully stocked. This home is always warm and inviting, being, on an emotional level, the perfect place to live. It is also safe from any widespread damages or disasters. Any other homes you might possess also gain these qualities.

## **Rich Kid**

### **Club Membership** (100cp, Free for Rich Kid)

You will automatically be awarded a membership in any form of social club, country club, or similar organization that you wish to be a member of.

### **Credit Card** (200cp, Discounted for Rich Kid)

Once per year, you can use this exclusive credit card to make any single purchase, no matter how much it costs. This works even if the seller would not normally take a credit card.

## **Overachiever**

### **Study Area** (100cp, Free for Overachiever)

You have an office or other area perfectly set up for your academic studies. It has access to a computer and to any needed reference materials that you could reasonably access in some other way. Any studying done there is at least five times as effective as it otherwise would be.

### **Perfect Resume** (200cp, Discounted for Overachiever)

Whether applying for a job, for college, or trying out for a music video, you have the most perfectly prepared resume that ever existed. Even if you were blatantly unqualified for what you were trying to get, you would be seriously considered because of how good this is.

## **COMPANIONS**

You can create or import as many Companions as you are willing to pay for. You are free to decide the personality, history and appearance of created Companions and these Companions are as loyal as you want them to be. They can even be loyal enough to forgive you for using Jumpchain fiat to ensure their loyalty. Companions can take Drawbacks that directly affect them, not those that alter the world itself, and you can transfer cp from yourself to a Companion, at a 1:1 ratio.

### **Create/Import** (50cp for 1, 200cp for 8)

You can create new Companions or import existing Companions. They get an Origin, with all freebies and discounts, along with +600cp to spend, but cannot acquire Companions.

### **Canon Companion** (50cp)

You can have one member of the cast join you on your Jumpchain. They get all of the perks and items from the Origin that matches them most closely. If none of the Origins fit that character, then they are out of luck.

### **DRAWBACKS**

You can take as many Drawbacks as you want, without limit on cp gained. If you can handle the Drawbacks, you can have the reward.

### **College Years** (+100cp)

Instead of ending when you graduate High School, you will now be stuck here until you graduate college, and you will be stuck attending California University, your first year at least will be in the same dorm as the regular cast.

### **Teaching Miss Bliss (+100cp)**

Instead of starting in High School, you start in seventh grade, adding two years to your time here. You also start in Indiana, but everyone and everything will somehow shift to California before you start High School.

### **How Many Senior Years Did They Have? (+100cp)**

While the number of years spent here will not be any longer, that time will be a bit more flexible, allowing multiples of certain important events to occur, such as Homecomings or Senior Proms. This will get annoying and make it hard to keep track of the time.

### **Lesson Learned (+100cp)**

Events are going to conspire to teach you some sort of moral lesson. How effective this will be depends on you, but it is probably going to get annoying.

### **Greedy (+100cp)**

You are rather greedy, and probably a manipulative jerk because of it. While you wouldn't deliberately hurt your friends for money, you are going to be a lot less careful about accidental harm. No matter how many times you learn a lesson about this, you always turn back into a greedy jerk.

### **Jerks For Friends (+100cp)**

Your friends aren't really all that nice. They may insult you, make you join in their various schemes, they may even dress you up as a girl and send you into the girl's locker room to record your female friends. You will feel true friendship for these people regardless of this treatment.

### **New Kid (+100cp)**

You are the new kid in town, even if you have been there a while. What this means is that you will never really find a place in any social groups or make any really good friends.

### **Money Problems (+100cp)**

Your family doesn't have the financial resources that your friends possess and take for granted. If you take the **Allowance** or the **Credit Card** items, you do not get them until this jump ends. I suggest getting a job.

### **Real Money Problems (+100cp, Requires Money Problems)**

Any form of income from previous jumps is now cut off as well.

### **Bullies (+100cp)**

You are going to have to deal with bullies of some sort in your time here, on a fairly regular basis. But luckily, this is a kid's show, so you aren't getting anything too bad.

### **Struck Oil (+100cp)**

Every now and then, you are going to drift off into an elaborate daydream about some recent event. While this won't happen in such a way as to harm you, it might worry your friends and family, and real events will never turn out to be anywhere near as good as you imagined they were going to be. Also, your daydreams seem to be somewhat racist.

### **Now You See Them, Now You Don't (+200cp)**

Throughout your time here, you will meet interesting people, people you might actually be related to. You will spend a few days with these people, have some fun, become friends, and then they will disappear, never to be seen or heard from again. The worst part of this is that only you will notice this or remember your lost friends at all.

### **Overstressed (+200cp)**

You have a bad habit of taking on more activities than you can actually handle. This is going to be a perpetual problem here, and is going to result in you being stressed out much of the time. Remember, you have to pass your classes to Graduate and finish this Jump.

**You're So Excited (+200cp, Requires **Overstressed**)**

You have developed the habit of dealing with your overly full schedule by using drugs to keep you going. And while the show claimed it was caffeine pills, let's be honest, it was meth. And now you have an addiction to the same, which you will have to deal with.

**Zack Hates You (+300cp)**

And, since this universe revolves around him, everyone else hates you as well. Not only will you not have any friends and be disliked by the teachers, but now Zack and his friends go from basically good kids to the nastiest version of the “popular elite crowd” to ever walk the halls of an American High School. Expect pranks, bullying, rumors, academic sabotage, and who knows what else. And no one is going to believe that they are doing anything wrong, not without absolute rock-solid evidence.

## **FINAL CHOICES**

You passed your classes, maybe made some friends and had some fun, and now Graduation Day has come. There is just one more choice to make, and it is not about your choice of college.

Time to decide whether to **Stay**, **Go Home**, or **Move On**.

## **NOTES**

### **Nostalgia**

Yeah, I watched this as a kid. I know it isn't that great a show, but it has fond memories for me.

### **Automobile**

If you want a car that didn't exist when the show was being made, then you get a more appropriate model during this jump and it turns into your chosen model when the jump ends.

## **CHANGE LOG**
