

Asdfmovie gauntlet

By u/overquartz

Welcome to the wacky world of Asdfmovie. Logic doesn't apply here most of the time so have fun. The standard pay for perks plus items and get points for drawbacks still apply. Oh, and you don't get the standard starting 1000 points either. We'll take those for you. We'll also hold on to those other perks too.

-1000 Cp

Times and Places

Flip a coin

Heads: anywhere on earth

Tails: the moon

Perks

50% discount on 4 perks

But it's opposite day (+1000CP): With this phrase you can cause the opposite to happen. The catch is that it needs to be stated. Other than that you can make someone beat themselves up or turn someone who has a murderous rage against you into a lovestruck fan. Grounds the unlimited with this.

Tree powers activate!! (+100 CP): You can turn into a tree. Yep that's it. Can turn back in 24 hours.

Pie flavour *guitar screech* (+100CP): You can bake food into the same type of food. When you mention the flavour the other food will burst forth with a radical guitar screech.

They said I couldn't teach a llama to drive!! (+200 CP): You can teach any animal how to drive. Doesn't guarantee that they can drive well. No llama noo!!

Who wants a muffin (+200 CP): When you're cooking you can optionally give the food sentience. Muffins have a disturbing tendency to become suicidal though.

Everybody do the flop (+400CP): You have a talent for viral trends. They border on memetic hazards with how popular they become. **Everybody do the stay in place (-200 CP):** Well now they are memetic hazards. Any trend you make will guarantee death in 40% of those who find out about it. It will be a herculean task to stop the trend when it is started.

It says gullible on the ceiling (+400 CP): Anyone gullible enough to fall for that will find that it does in fact say gullible on the ceiling. But it also allows you to steal something from them without their knowledge like lungs for example. This only works on physical objects by itself but you could also steal concepts and other nonmaterial things if you had a way of doing so.

Here hold this (+400): You can get anyone to hold blatantly dangerous things. However, you must resist the compulsion to return to get those things.

Why wait? (+600 CP): When someone expresses a desire to go someplace you can utter this phrase. You then gain the ability to kick them to their destination.

I like trains (+600 CP): With this mighty phrase you can summon a train. At first it will hit you but in time you can control it to hit other people. For an extra 50 points this can become a dragon shout that lets you vomit trains.

Items

Items may be imported into similar items weapons to weapons, clothes to clothes and such. You get 50% off 2 items. All of these can be purchased multiple times. You get a 300 CP stipend for the Items section.

Pointless button (Free): It's a button that does nothing. It compels peeps to touch it but it's compulsion gets less effective after the first time they press it.

Perspective ball (+100 CP): A ball that grows in size relative to the perspective of the person who you're throwing it to. You can easily crush people to death depending on how high you throw it.

Mine turtle (+200 CP): Hello~!! You gain a breeding population of mine turtles. They are for the most part normal turtles but can say hello and be mines. They have a tendency to get into situations that cause them to detonate.

Llama driver (+200 CP): A llama that has a drivers licence. Yes it's real and no I have no idea how it can drive either. It barely passed so I don't recommend it being a chauffeur.

Muffin time!! (+200 CP): You get a copy of Muffin time. However, this version of the game has new cards based on whacky moments in your chain past, present and eventually future.

The science show!! Piano!!~ (+400 CP): On any TV or equivalent you own you can switch to a channel playing this show. It will always have an expy of a recognizable character in the current setting. After they say piano they will be crushed by a piano and the show will abruptly end.

A Youtube channel (+600 CP): If you don't have a youtube channel from other jumps you gain one with the same amount as tomska's channel circa 2021 (approx 6.9 million). If you do these subscribers are added to your existing subs.

Companions

Import (free): As many of your companions that you want to put through this nonsensical world.

Desmond the moon bear (+100 free with moon location): How did we get here?

But I wanna die!! (+100CP): You get a suicidal sentient muffin. It really wants to be eaten.

Drawbacks

Are you an angel? (-100 CP): Because you're allergic to feathers. Enough to cause vomiting.

Baby voice (-200 CP): Yep you sound like a baby.

Marmite (-200 CP): A sentient jar of Marmite want's you to suffer. It won't harm you directly.

Hey look over here (-400 CP): Haha now you're blind. The sun will try to blind you.

Child murderer (-400): 1/4 children will be murderers.

It's a lovely day to walk down the road (-600 CP): If you ever stop singing you will explode.

Allergic to adorableness (-600CP): Deathly allergic at that. Just touching a kitten will cause anaphylactic shock.

But, But (-600 CP): Whenever you say but there will be a 1/60 chance that a giant butt will appear and fart so hard you'll instantly die. Post gauntlet you can inflict this on one person. This curse will not be able to be applied to another until it activates on the initial target.

Notes

Yeah unlike the generic webnovel jump this is 100% a joke jump.

You can ignore the opposite day perk and play it as a normal gauntlet if you desire.
