

# Generic GURPS Jump

v1.2 (2024-05-08). By DataPacRat

Standard JumpChain Rules: 1,000 Jumpchain-CP (as opposed to GURPS-CP), 10 years, then choose Continue/Stay/Go Home. Unless the setting includes resurrection as part of the PCs' baseline template (eg, IOU, Riverworld), any death without a CP-backed Extra Life or other 1up fails the jump. This document can be reused to go to different settings, or used as a supplement; for the latter, all CP remain separate.

Roll 3d6, consider the bell curve. Roll 1d128 for the specific setting, or pay 23 J-CP to choose one or more:

1. Action	45. Espionage	87. The Prisoner
2. After the End	46. Faerie	88. Psionics
3. Age of Gold	47. Fnord	89. Reign of Steel
4. Age of Napoleon	48. Furrries	90. Renaissance Florence & Venice

42. Dungeons	86. Prime Directive	128. Crossover: Roll twice more and combine
43. Dungeon Fantasy		
44. Egypt		

- **Discounts:** Purchases which last for just one jump, and then go away, are 80% off: one-fifth cost. Could be handy for Status, Rank, Reputation, Patrons, and other in-setting social stuff...
- **Perks & Companions:** For a standard setting, pay 10 J-CP for every 1 G-CP of Advantages, Powers, Templates, Skills, Allies, etc. (Special: If the GURPS setting book insists on more than 100 starting CP, multiply the G-CP you gain by that factor - eg, 400 starting CP gives you 4 G-CP instead of 1 per 10 J-CP.) Setting-specific freebies last just for the jump, unless paid for. Appropriate purchases can be improved via study, at the usual rates.
- **Items:** To give an object standard Jumpchain fiat-backing, buy it as a power with Gadget modifiers, as Signature Gear, or for something like a good-sized spaceship, as a Patron.
- **Drawbacks:** Gain 10 J-CP per 1 G-CP of Disadvantages taken. And for +23 J-CP, your Warehouse is labeled "23" for the jump's duration. Maximum of +623 J-CP.
- **Toggles:** For +0 J-CP, you can add 5 years to your stay; can be taken multiple times.
