# JUMPCHAIN SUPPLEMENT: COSMIC WAREHOUSE

Over the course of your adventures you're probably going to collect a metric ton of stuff. Weapons, armor, technology, cars, big evil laser beams, everything but the kitchen sink. You're going to have trouble storing it all. However, I might be able to help you with that.

Introducing: the COSMIC WAREHOUSE!  
20,000 Square Feet of empty space.  
And as of now, all of it is yours to use.

The COSMIC WAREHOUSE is contained within its own pocket dimension that you will always be able to access no matter what universe you're in. This provides not only a safe place to keep your stuff, but also a good method of keeping things between adventures.

The COSMIC WAREHOUSE can be accessed via a special key. When inserted into any door with a lock, the door will open a gateway into the COSMIC WAREHOUSE. You are the only person who can take the key out of the lock, the gateway remains so long as the key is in the lock, and if ever lost, you will find the key in your pocket a few minutes later.

A few rules do exist surrounding the COSMIC WAREHOUSE, however:

1. As long as you are inside the COSMIC WAREHOUSE, the doorway can't be closed.
2. Living people can't be stored in the COSMIC WAREHOUSE.
3. Other people can enter the COSMIC WAREHOUSE with you, but they leave when you do.
4. When the door to the COSMIC WAREHOUSE closes, time stops inside it.
5. Only one door to the COSMIC WAREHOUSE can be open at a time.
6. The gateway to the COSMIC WAREHOUSE is only as big as the door that created it.

It isn't very inviting, with nothing but fluorescent lights and a concrete floor, but maybe you can change that a little. Here's a budget so you can redecorate.
