

Little Witch Academia Jumpchain

by Faucheusestar

Little Witch Academia takes place at Luna Nova Magical Academy, a prestigious school for young girls training to become witches. Having been inspired by a witch named Shiny Chariot, a girl named Atsuko "Akko" Kagari enrolls at Luna Nova Magical Academy to become a witch, but struggles due to her non-magical background. This all changes when she discovers the Shiny Rod, a powerful magic relic left behind by Chariot.

You have just started your school year as a student of the Luna Nova magic academy.

Perks

Origins get their 100cp perks for free and the rest are discounted to 50%.

General

School is important for your future. [Free]

It's hard enough learning all these strange spells and crazy recipes, only to have everything stop working on your next adventure. Luckily for you, all the spells and skills that classic witches do, like potions (ingredient also), are now fiat backed.

Drop in

Not so lost after all! [100 CP | Free for Drop in]

Do you feel like you're lost? Don't worry, you have a strange luck that always helps you find people heading in the direction you want to go. All you have to do is follow them!

It wasn't a pie... It's a tart! [200 CP | Discounted for Drop in]

Your exuberance should annoy a lot of people, yet people are strangely patient with you. They will give you another chance to prove yourself, at least you won't be fired right away!

Constanze's knowledge [200 CP | Discounted for Drop in]

Like Constanze, you are an expert in magitech. You can customize any magical item by adding technology to it, combine several of them, and all your techno-magical inventions are guaranteed to work (fiat backed) and will be more effective than their purely magical versions.

Unlikely competence [400 CP | Discounted for Drop in]

You automatically master any skill needed to operate your creations, whether you made them yourself or helped others make them. You start at an average level, but the more you create and the longer/more impressive your creations are, the faster you will progress. This includes knowing how to pilot a mech if you created one for example.

My magic is believing in it! [600 CP | Discounted for Drop in]

You have an almost unshakeable determination as long as you continue to believe in your dreams you could spend entire seasons waving your wand, constantly failing to cast a spell, without it demoralizing you in the slightest. What's more, if you keep trying without giving up in a situation that would normally be a lost cause, you will find that you have just enough time instead of running out of time, and that the situation will work in your favor a little more.

Teacher

Diploma in magic [300 CP | Free for Teacher]

You already know the theory and spells taught at Luna Nova, such as talking to fish/ravens... However, this does not equate to mastering magic like Dina.

It's definitely not Shiny... [200 CP | Discounted for Teacher]

But no, come on, it's not Shiny Chariot, she has blue hair, not red! Just change your hair color, profession, or some other particularly noticeable detail, and no one will suspect you of being you or question your lack of a degree... However, this does not give you any skills for your fake profession.

Chosen One [200 CP | Discounted for Teacher]

Just like Shiny, if there is an artifact that must choose a person, or a magic that only the chosen one can obtain, you are eligible... So believe in your magic and believe in the artifacts that believe in you!

Best teacher [400 CP | Discounted for Teacher]

Students sometimes need a little help, but even in seemingly hopeless cases, you can help them! Whether it's finding useful clues in old archives or creating a practical lesson that launches them into a daily adventure that will ensure they understand the day's lesson through adventure rather than long hours of intensive training.

Modern witch [600 CP | Discounted for Teacher]

You are a pioneer of magic who can transform any magic, no matter how ancient, into a version that can be industrialized and used with modern means. Whether it's drones, networks, or smartphones, you can easily manufacture them, and the magic becomes more effective. Just be careful to keep everything under control!

Student

Language expert [100 CP | Free for Student]

You are a true language expert who can perfectly decipher even ancient dragon runes, as well as speak fish, raven, and any other strange, magical, and/or extinct language.

Specialty [200 CP | Discounted for Student]

You are particularly skilled at a type of magic or something like mushrooms, just like Suci, or something else like spirits, for example. This perk would also act as an amplifier for items, knowledge, perks and power related to the chosen theme.

Reckless witch [200 CP | Discounted for Student]

You excel in the most athletic and risky aspects of magic. You know how to fly on a broomstick and perform impressive tricks, or even fight with a sword.

No Suci (souci/worries) [400 CP | Discounted for Student]

Your guinea pigs... I mean friends will probably not take kindly to you testing your experiments on them, casting spells on them, and doing all sorts of "normal" activities on them... No worries, this won't cause any more problems or damage... apart from a few humorous and harmless effects that only last a few minutes.

Sleeping Jumper [600 CP | Discounted for Student]

You can manifest a strange dream world in the real world, similar to Suci's, but representing yourself. This also allows you to transform into a powerful dragon, although in this state you are much more honest about your true feelings and lose all inhibitions!

Items

Items may be imported into similar - items, weapons to weapons, clothes to clothes, etc. In addition you obtain 300 CP only spendable on items

The Chariot cards [100 CP | Free for Drop in]

In your next jumps, you will get a new additional deck as well as a playable version for other types of card games.

Secret base [200 CP | Discounted for Drop in]

Whether it's hidden under your bed or anywhere else, you realize that you have a huge underground facility that shouldn't be able to fit in such a tiny space, fully equipped to build your inventions and even a vehicle bay.

"Blue print" [200 CP | Discounted for Drop in]

This collection of "blueprints" mainly contains drawings that look like they were made by children, with chunni names like "the ultimate weapon." Strangely enough, however, seeing them ignites your creative spirit and inspires you to create functional versions. With each jump, you get a handful of them, along with several normal plans of innovative technology, like all those created by Constanze here.

Shooting Star [400 CP | Discounted for Drop in]

The legendary magic broomstick is faster than a fighter jet and can fly freely anywhere without worrying about magic power. This one is an identical copy of the original and just as spirited, even if it likes you and will catch you in mid-flight before you crash if you fall.

This is the equivalent in local currency of a teacher's salary, as well as all the materials you need to teach your classes. It comes with a fairy laborer who will do all the boring work for you... just don't tell Akko, or she'll try to organize a workers' strike!

Sorcerer's Stone [200 CP | Discounted for Teacher]

It's a magical artifact with the capacity to absorb and store magical energy from the Ley Lines. To perform magic in this era, you need to be close to one of these stones or have a battery, although it draws its energy from ley lines, this one can operate at a lower level without them and can power about one magic academy with it.

Fafnir's contract [200 CP | Discounted for Teacher]

This acknowledgment of debt, clearly states that a faction/patron owes you a substantial amount of money, sufficient for the monthly repayment to cover the entire funds required to run a magic academy.

Maybe you already want to retire, probably because of Akko's silliness! This might help you. It's a shop selling magical items or other things. There's even a nice café inside and all the necessary staff.

Luna Nova Magical Academy [600 CP | Discounted for Teacher]

Your own basic magic academy is a copy of Luna Nova, but you can have a different equivalent one. Everything in it, from grimoires to teachers to fairy, is fiat backed and will work anywhere. People without any magical powers can also learn magic here.

Note

Claiomh Solais /Shiny Rod form:

- *"Noctu Orfei Aude Fraetor"* **Shiny Arc**: it's a bow that can summon arrows that create portals taking you wherever you want to go. If a monster eats the arrow, it explodes in a fireworks display, even if it is immune to magic.
- *"Phaedoari Afelgorr"* **Shiny Ax**: It's a large axe that can be used to launch a frontal attack and dispel illusions.
- *"Arae Aryrha"*: A powerful metamorphosis spell that can also transform the staff into an object useful for the situation, such as a grappling hook.
- *"Mayinab Dyssivyrdd"* **Shiny Sprinkler**: by using it to mix a potion, it works even with inferior quality ingredients and the ingredients were not recovered by following the method to the letter. What's more the potion affects everyone it is sprinkled on.
- *"Civilladura Lelladebura"* **Shiny Balai**: A very fast magic broom
- *"Llyonne"*: Shiny Rod manifests golden light tendrils from their respective stars that can heal most severe of wounds
- *"Fasannciel Shearila"*: Invoke the Great Triskellion, which merges with the shiny rod. You can use World Altering Magic, allowing you to resource the area, causing nature to flourish and restoring it, or giving it other effects of your choice (although without a colossal source of energy, this only affects large areas).
