Polaroid Moment: You can print photographs, drawings, and paintings of any moment you've experienced or witnessed, from any perspective of your choice. It could also be video footage.

Walking The Line: You know where people's loyalties lie, and what exact lines need to be crossed before they'll betray you or lose faith.

Loyalty: You know how loyal anyone is at any moment. To anyone. You can bring up a list of grievances and contributing factors that both earn and detract from someone's loyalty.

Negativity Sense: You can sense negative emotions, and focusing on them will tell you their source and what's causing them. You can also hear any negative thoughts and peer inside of people's feelings to learn what they hate.

Helping Hands: You know who is most in need of charity and help within a 20-mile radius. From a beggar who requires coins to eat today, to a noble who wants a wheel changed on their wagon, you have intimate knowledge of people's problems and what solutions they'd prefer.

The Demographic: You can assess the desires of groups of people and individuals and present stellar arguments based on you being capable of fulfilling those needs.

Passive Renewal: You emit an energy from your body that heals things within a 15-foot radius. It nourishes and restores the things it comes into contact with, causing plants to grow and old scars to heal. There's no corruption or wound you can't restore given enough time and exposure to your power. The effects of this regeneration are especially pronounced within you.

Empathy Powers: Grants the ability to experience the emotions and sensations that other people feel, and the power to share your own feelings and sensations with them. You can heal people by taking their pain, both physical and mental, and dragging it into yourself. This transfers their issues to you, healing them.

Transparent Intentions: Other people know with certainty if you're telling the truth or not, and if you have their best interests at heart. They also know if you actually care about them or not, or if you just want something from them. And they'll know if you're trustworthy and if you plan to trick or hurt them in some way. This has massive benefits if you have good intentions.

Their Way Out: Fate arranges meetings between you and desperate people who are caught in between a rock and a hard place. You'll be placed in a position to help alleviate their troubles and solve their problems.

Said list is ordered based on compatibility and any other criteria you set, such as age, occupation, and so on. Your cupid feeds on love and grows more powerful the more of it they're exposed to, and with each match they arrange.

State Refresh: Your mind, as well as mental and emotional state, passively refresh themselves every 5 seconds. Touching someone shares this effect while you're in contact. It means you'll break out of any control effect, and it'll need to be reapplied constantly to do anything to you.

Full Immunity: Gains immunity to anything that alters your mental state or behavior. Magic, supernatural persuasion, drugs? If it tries to alter your mind or control your body, none of it touches you. You can toggle this on and off if you want to get drunk. Turning it on purges any altering effects.

Grant Free Will: Touching something either restores or grants it free will. This breaks any effects on the target that would prevent it from acting as itself. Can be used on anything.
