

The title 'INVADEER' is written in a stylized, blocky font with a pink-to-purple gradient and a green outline. The letter 'I' is replaced by a simple robot character with a pink head and a purple body. The word 'ZIM' is written below it in a similar style, with a pink-to-purple gradient and a green outline. The background features a faint, circular pattern of a globe.

The Irken Empire is an expansionist militant force controlled by the war-like Irken race. They are bent on galactic conquest and, with the aid of their massive armada, are likely to achieve this goal as part of the upcoming Operation Impending Doom 2. The co-ruling emperors, Almighty Tallest Red and Almighty Tallest Purple will soon be hosting a ceremony where they reveal the invaders chosen to analyze specific planet weaknesses and pave the way for the invasion. Once a world is sufficiently handicapped by an invader, the armada arrives to begin the Organic Sweep. Through pure chance, one of these targets is Earth. Thankfully, the 'invader' assigned to conquer the human world is relatively inept compared to his peers.

Budget

These points can be used to customize yourself, purchase abilities, buy equipment, or even gain new companions.

1000cp
(Choice Points)

Origins

Choosing an origin will define the history you have in this world. This choice can grant you basic knowledge of the world, and additional experiences too. These new memories can effect your personality and reactions to events, but you ultimately still retain control of all your decisions.

Each of the five origin options offers discounts on abilities and equipment that pertain to it. It may be beneficial to plan ahead and see which origin best suits the gear you want.

Irken Elite

Loyal to the Almighty Tallest and a valuable member of the empire. Other species in the galaxy may consider you bloodthirsty and oppressive, but you're on the fast-track to playing a major role in Operation Impending Doom 2. **200cp**

Extradimensional Invader

You are not part of this universe. You retain your personality and memory, but gain no new knowledge of this world. Until you are of age, you will be cared for as though you were an orphan. **0cp**

Swollen Eyeballs Operative

Though young, you've been inducted into a secret order dedicated to the study of supernatural phenomenon. Hopefully this is just a temporary phase you will grow out of, and will someday return the path of real science. **50cp**

Junior Scientist

The pursuit of science has become more illustrious over the past decades as humans continue to grow stupider each year. Without logical, sensible people like you the entire world would surely fall into chaos. **50cp**

Irken Defective

You retain your own mind due to faulty programming in your PAK. Irken like you are typically forced into menial labour, but some are so defective that the Control Brains can't process them properly and may deem them exceptional. **200cp**

Race

Your species is determined by origin choice. Extradimensional Invaders are human by default, but may 'upgrade' to an Irken body for 150 choice points.

Gender

Gender roles are irrelevant in both the human and irken societies in this universe. You retain your current gender, but may choose to switch for 50 choice points.

Age

Age is determined by origin. You may spend 50cp begin at any age within the rollable range. Extradimensional Invaders may choose to retain their current age.

Human

Swollen Eyeballs & Junior Scientist

A bipedal species from the planet Earth. Earth is home to a variety of cultures, all vastly inferior to the Irken Empire, as well as various environments that have made humans very adaptable.

Irken

Irken Elite & Irken Defective

Short, green-skinned humanoids from the planet Irk. Their skin cannot tolerate contact with earth meat or pollutants. They have a set of sensitive antenna useful for picking up vibrations.

Human

Roll 1d8 + 10 to determine starting age.

PAK

[Free: Irken]

The PAK is an integral part of an Irken's life. Attached to your spinal column at birth it functions as a auxiliary brain and is semi-sentient on its own. It can sprout four mechanical spider-like legs for quick transportation. It also contains a laser-cutter, shield generator, communicator, and portable containers. It allows the wearer to breathe in any atmosphere (but not in a vacuum).

Irken

Roll 2d8 x 10 to determine starting age.

Starting Location

Roll 1d8

This roll will determine which planet you begin on in the universe, but you are free to travel elsewhere so long as you have the means to do so.

Meekrob

This rocky world is home to the Meekrob, beings of pure energy. They are the sworn enemies of the Irken Empire and will undoubtedly work against Irken interests.

Conventia

The Irken's "Convention Hall Planet". There is a giant teleportation ring around the planet for quick travel to the world's surface. Very easy to get lost here.

Earth

A very polluted planet populated by humans, a tall yet stupid race that is nonetheless quite technologically advanced considering the lack of intelligence.

Irk

Homeworld of the Irken race. Smeets are grown here deep underground until they are old enough to come to the surface. Non-Irken are not permitted on the world.

Mars

A red planet near Earth that has been converted into a massive interstellar ship by an ancient alien race. They died out after the construction, but left a manual.

Free Choice!

Lucky roll! You may begin on any planet at a location of your choice! You can look forward to visiting Dirt, Foodcourtia, Hobo-13, or even the Conveyor Belt Planet!

Vort

Home of the universe's most comfortable couch. Tensions are mounting between the Vortians and the Irkens after a disaster caused by a rogue Irken. To be invaded.

Blorch

Home of the Slaughtering Rat People and generally a very unpleasant place to visit. The primitive world is scheduled to be invaded and cleansed in the near future.

In lieu of rolling 1d8 to determine your starting planet, you can spend 100 choice points to begin at any place in the known universe you would like.

Humans receive a 50% discount from the 100cp price if they choose to begin on Earth.

Irkens beginning on Conventia may attend the Great Assinging and receive enough complimentary snacks to last a single Irken an entire month.
