

COMMAND & CONQUER™

# RED ALERT™ 3

JUMPCHAIN COMPLIANT

PRESENTED BY: stupid\_dog  
and friends!

Potentially facing defeat at the hands of the Allied nations, Soviet General Nikolai Krukov and Colonel Anatoly Cherdenko have used a top-secret machine beneath the Kremlin to travel back in time to the year 1927 where at International Physics Conference they eliminated Albert Einstein and changed history.

Upon returning to the present, Cherdenko is the Premier of the Soviet Union and learns that the Soviets are on the brink of conquering Europe. In this alternate timeline a new faction, the Empire of the Rising Sun, has risen in Japan who declare war on the Soviets and Allies desiring complete world domination as part of their Divine Destiny. With a lack of nuclear weapons the Soviets face a conventional war on two fronts. The world is then plunged into a three-way war between the Soviet Union, the Allies and the Empire.

## The Union of Soviet Socialist Republics

The Russia-led superpower of the world, the USSR wishes to liberate the other nations from their oppressive doctrines and spread the glory of the communist revolution. They utilize strength in numbers.

## The Allied Nations

This group consists of the more diverse and diplomatic societies of the world. Their main objective is to eradicate the scourge of communism from the planet, and also to promote capitalist ideals.

## The Empire of the Rising Sun

The imperial regime of Japan is led by the Emperor and the Shogunate. They seek to unite the world one rule and eradicate the culture of their barbaric opponents. They believe their victory is destined.

There is no foreseeable end to the quarrels between the groups vying for world supremacy. An exceptionally skilled individual is required to conquer and unite the globe under one banner.

This is where you come in.

Before anything else, you need to choose where to place your allegiance in this war.

Choosing a faction does not necessarily place you in any position of authority. You may merely be a civilian within that faction's borders. Sadly, there are no neutral zones left on Earth. From metropolis to village, no place is truly free from this conflict. It's up to you if you want to work towards a peaceful future or paint this Earth in the blood of your foes.

Comrade! Roll 1d8 for Mother Russia!

- 1 or 2 Moscow, USSR
- 3 or 4 Havana, Cuba
- 5 or 6 Cairo, Egypt
- 7 Roll again, on Allied Table
- 8 Any location within the Union or spend 100 CP to begin anywhere

Roll 1d8 to determine starting location.

- 1 or 2 London, United Kingdom
- 3 or 4 New York, USA
- 5 or 6 Sydney, Australia
- 7 Roll again, on Rising Sun Table
- 8 Your choice within any Allied zone or spend 100 CP to begin anywhere

It is your honour to serve at this location:

- 1 or 2 Tokyo, Japan
- 3 or 4 Beijing, China
- 5 or 6 Pearl Harbour, Hawaii
- 7 Roll again, but on Soviet Table
- 8 Your choice of location within Empire or spend 100 CP to begin anywhere

In addition to faction, you must choose an identity to help define your role in the war.

Roll 2d8 + 18 to determine your age. You may spend 100 CP to change gender.
