## Race

You may purchase one race before starting any Mini-Jump or Scenario as well as purchasing one at the beginning of each trilogy or at the start of a Scenario.

Once a race has been purchased, it will be **Free** to use for all further race purchases.

Each time you take a race option, you will gain a slightly customisable **Alt-Form** (age, gender, skin tone) of that race.

You gain a one-time **+100 CP** bonus to spend in this section.

### **Hobbit -100 CP**

Hobbits, also known as Halflings, are known for their innocent nature, quiet lives, and resilience to corruption, rather than possessing magical or extraordinary powers. They are skilled listeners, nimble, and adept at throwing stones.

### **Human -100 CP**

Men, also known as the Atani or Humans, are not inherently magical but possess unique strengths like adaptability, resourcefulness, and the ability to learn and adapt.

### **Dwarf -200 CP**

Dwarves are the oldest of the Free Peoples of the World, known for their exceptional skill in craftsmanship, particularly metalworking and stonework, and their great physical strength and endurance, with a notable resistance to heat and cold.

### **Ainur -400 CP (Discounted with “Limited Scope”)**

The Ainur, also known as Wizards or the Holy Ones, are beings encompassing both the Valar and the Maiar. They were the first and mightiest beings created by Eru Ilúvatar long before the beginning of the World.

If you have taken “**Limited Scope**”, the Ainur are instead a native magical race but with the appearance of humans.

### **Elf -400 CP**

The Elves are immune to illness and not subject to age after reaching their prime. They could be killed only in violence or by extreme despair. Elves possess enhanced senses and a connection to nature, along with abilities like telepathy and a limited capacity to see into the future, making them a powerful and graceful race.

Through taking the title of a wizard of colour, you may gain power and a strength of purpose within magic.

You may purchase this multiple times, selecting a different colour each time to become a wizard of many separate colours, but doing so will look foolish and susceptible to corruption. You may also choose multiple colours in a single purchase to combine them into 1 of 26 equal-part composite colours such as Brown, Green, Grey, Orange, Navy, or Pink. Each colour combined will be diluted, giving only a proportional benefit of their colour components so that the composite colour does not exceed the original but will deepen the magic's connection towards the natural world.

- **White**

As a White Wizard, you have a deeper connection to purity and authority. Your purpose is deeply tied to aiding the innocent, the vulnerable and to insure the continuation of order.

- **Black**

As a Black Wizard, you have a deeper connection to ambition and freedom. Your purpose is focused on survival, growth, and the advancement of progression.

**Adaptability and Resourcefulness -100 CP (Free with “Human”)**

You have the ability to adapt to different environments, allowing you to reduce the discomfort you feel from the area you are in. This also increases your resourcefulness, making it easier for you to find solutions to your problems.

**Durable Feet -100 CP (Free with “Hobbit”)**

You have superior vision and hearing, allowing you to see and hear things at four times the distances and with eight times the clarity.

Your movements are now exceedingly quiet as you possess the ability to move quickly, stealthily, and with great agility.

**Resting the Mind -100 CP (Free with “Elf”)**

**Simple Crafts -100 CP (Free with “Elf”, “Hobbit”, and “Dwarf”)**

You understand the simple pleasures of crafting, giving you the knowledge and skills required to perform the basics of most types of crafting, including cooking, farming, faceting, smithing, woodworking, weaving, dyeing, and leatherworking. This wide variety of knowledge helps you to craft objects with the barest minimum of materials to make what you're after.

**Subtle Magic -100 CP (Free with “Ainur”)**

This Perk boosts your capacity for learning and mastering various skills, having them grow at an accelerated rate. This learning booster applies to combat, craftsmanship, and leadership.

**Mortal Blade -100 CP (Discounted with “Human”)**

You are skilled with swords, daggers, and spears as though you had spent five years of training and practice with each blade type as well as having learned how to use variations of these weapons.

**Mortality -100 CP (Discounted with “Human”)**

While Elves and Dwarves have long lifespans, humans are mortal, meaning they age and die, but this also grants them the gift of experiencing a full life, allowing you to continue to grow and learn regardless of how powerful or intelligent you become.

**Skilled Listeners -100 CP (Discounted with “Hobbit”)**

You have a discerning ear for important details, as you are able to listen carefully at a distance to what others are talking about and pick up on only the details that are important to you.

**Númenóreans -100 CP (Exclusive to “Human”)**

Your body is now physically stronger with great endurance, allowing you to carry heavy burdens longer distances without tiring. This also makes your skin and hair resistant to fire, becoming incredibly difficult to burn.

**Dwarven Crafts -200 CP (Free with “Dwarf”)**

You are now a master of smithing, metalworking, and masonry. You always know how to apply the exact amount of force you need in order to get the result you want, allowing you to work metals that other smiths are incapable of working and perform precise carvings on metal and stone without damaging their internals.

**Shield of the Mind -200 CP (Free with “Dwarf”)**

You are now far more resilient against outside threats against your mind. With this you can block out attempts to read or control your mind as well as attempts to possess your body.

**Corruption Resilience -200 CP (Discounted with “Hobbit”)**

You are now far less susceptible to corrupting influences such as the One Ring compared to others. This allows you to block out any personality-altering or emotion-altering effects far better, reducing active forms of corruption down to 20% of what they otherwise would be and passive effects down to 5% of what they should be.

**Elvan Archer -200 CP (Discounted with “Elf”)**

**Limited Foresight -200 CP (Discounted with “Elf”)**

You have a limited ability to see into the future, though not with perfect accuracy. You can see some of the events that will take place over the next few days, but it may take some rumination to understand what you are looking at.

**Magical Craft -200 CP (Discounted with “Dwarf”)**

You now know a variety of ways to create magical objects. These methods include combining unique materials with your will and intentions, laying enchantments onto the object as it is being forged, and engraving the object with oaths written in powerful tongues.

**True Magic -200 CP (Discounted with “Ainur”, Requires “Subtle Magic”)**

Your power is no longer limited to tricks and showmanship, as you can now wield the magic of the "Magia" and "Goeteia". Through the magic of the **Magia**, you can produce evocations of magic, such as the creation of fire or the summoning of lightning. Through the magic of the **Goeteia**, you are able to produce illusory effects, to alter the mind, or to fool the senses, be it for art or deception. These powers are not ordinarily capable of being learned but are instead an inherent ability of those races that can be considered "magical".

**Music of the Ainur -300 CP (Exclusive to “Ainur”, Requires “Subtle Magic”)**

You are now able to sing the songs of creation, allowing you to sing into existence various effects that bend the world to match your tune. With an exchange of words, you can influence the growth of life, change the weather, invigorate hearts, or raise mountains out of the earth.

**Shapeshifting -300 CP (Discounted with “Ainur”, Requires “Subtle Magic”)**

You are able to communicate with others telepathically over short distances, holding conversations simply by looking into the eyes of another, allowing you to speak mind to mind.

**Immortality -400 CP (Free with “Elf”)**

You are not subject to the decay of time; after you reach your pinnacle of life, you will stop aging, and your body will never degrade due to time, making it so that old age can not take you and you will not die a natural death. This does not prevent you from being killed or dying from diseases.

**Divine Might -600 CP (Free with “Ainur”, incompatible with “Limited Scope”)**

You now have power beyond your mere shell, as you can take on the form of your incorporeal spirit, derived directly from Eru Ilúvatar. This allows you to manipulate matter, create physical forms, and possess immense spiritual strength. This also boosts all of your perks and powers.

The Iron Crown was forged by Morgoth in the First Age, to hold the Silmarils, the three Jewels of Fëanor, and to emphasize his claim to the mantle of "King of the World".

These Drawbacks can only not be taken as part of **One does not simply walk into Mordor** or **The Lord of the Rings: Conquest** Scenarios.

### Self Insert - Free

This can be taken once per **Trilogy** or **Scenario** and can only be taken once per identity. You can choose to replace any main character in the age that the films take place, taking their body as a new **Alt-Form**, while gaining their knowledge of their life so far, and any skills they have at that point. Imported Followers and companions may take this drawback.

### Early Start - Free

This can be taken once per **Trilogy** or **Scenario** and can only be taken once per identity. You may choose to start this Jump up to 3 years before the start of a **Trilogy** or **Scenario**.

### The lord of the Dice +100 CP

This Drawback can only be purchased before starting any Mini-Jumps or Scenarios with it becoming **Mandatory** for every Mini-Jumps and Scenario afterwards. Once taken, all Mini-Jumps and Scenarios will be forced to follow the mechanics of either **DND**, **Pathfinder**, **Shadow of the Demon Lord** or another Fantasy Table Top Role Playing Game of your choice, with all characters having player levels and classes.

### From Birth +100 CP

This can be taken once per **Trilogy** or **Scenario** and can only be taken once per identity. You will no longer be capable of being a true Drop-In and will now be born into the Tolkien universe. You will be required to live from birth up until the completion of the corresponding Scenario or Mini-Jump.

### Above all else desired power +100 CP

You now have a deep hunger for power and strength, pushing you to take risky opportunities to gain power even if it would be something you would otherwise be unwilling to do.

### It betrayed Isildur... to his death +100 CP

You will not remember taking this drawback, and one of the items you purchased will have a dark sentience of its own as it plots to betray you.

### One ring to rule them all +200 CP

Anyone who wears the one ring will have the power of suggestion over you. Anything they tell you, you will be compelled to follow.

**My Precious +200 CP**

You are now drawn to an object of power and feel the deep and desperate desire to hold it and own it.

**Our Precious +200 CP**

You now have a split personality, as your second personality is far more aggressive and selfish than you are, desiring to get what it wants regardless of your opinions but unable to take control over your body.

**Tailwind +200 CP**

This can only be taken for Mini-Jumps and prevents you from spending **CP** gained in that Mini-Jump until the end of that Mini-Jump.

**The world is changed +300 CP**

This can be taken once per Mini-Jump and Scenario. At the end of that Mini-Jump or Scenario you must participate in an alternative fanfic setting of that Mini-Jump or Scenario. Sometimes these will be better, and sometimes these will be worse; regardless, they will be different.

### **Something happens that the ring did not intend +300 CP**

This Drawback can only be purchased before starting any Mini-Jumps or Scenarios with it becoming **Mandatory** for every Mini-Jumps and Scenario afterwards. Canon has completely broken as you are now within a strange hybrid of the books, movies, comics, games, and fanfictions.

### **History became legend, legend became myth +500 CP**

This drawback can only be taken once.

The next jump you take after completing **The Lord of the Rings: The Return of the King: Mini-Jump** must be set on a variant of mundane earth. This variant may have magic, but regardless of what jump it is, the events you take part in during this jump will be the Ancient history of the selected Jump's world.

### **Limited Scope +500 CP**

This Drawback can only be purchased before starting any Mini-Jumps or Scenarios with it being active for the duration of every mini-jump and scenario in this document.

The power level of this setting is more "Grounded" limiting the power of all individuals and entities within the world to the scale of power shown in the Movies.

This makes the world itself more mundane by making it so that it was always round and did not become so during the second age; it retroactively erases powerful entries normally hidden, disinterested, or absent from the war of the rings such as removing the nameless things normally consuming the pillars of the world from within the depths of Arda and vanishing Underhill along with Tom Bombadil and his wife Goldberry.

This also retroactively alters the divine cosmology so that those known as gods, such as the Valar and Morgoth, are merely powerful beings deified for their actions rather than being true Divinity, and it makes it so that the Ainur are merely powerful magical beings rather than the Angel-like creatures restricted in power and form.

While the strength and power they possess are still extraordinary, the powers that good and evil can wield within this setting will be far less impressive than that shown within the Silmarillion.

## Pre-Trilogy Scenario

You can only take this Scenario before starting any Mini-Jumps or Scenario's in this Jump-Doc. In this Scenario you will be placed within an identical copy of Middle-Earth as it was the moment the fellowship of the rings started, but this world is empty of all creatures, undead, and lifeforms, besides non-sentient plants. You gain **+500 CP** to purchase anything from any section of this Jump Doc at its flat price bypassing origin discounts in Mini-Jumps.

You must purchase a race to use for this **Scenario** which functions as a **Gauntlet**, disabling all Out-of-Jump Perks, Powers, Items and Companions other than Body Mods.

You will start this scenario in the Hobbit Hole of Bilbo Baggins with the One Ring in your hand. To complete this scenario, you must travel to Mordor and drop the one ring into the lava of Mount Doom.

If you die or can not complete this Scenario within 10 Years, it will count as a failure.

### **Rewards:**

For completing this Scenario you gain **+500 CP** to save or spend in this document and the **Ring of The Stonefoots**.

### **Ring of The Stonefoots**

This Ring is a copy of the ring of a Dwarf Lord and is disconnected from the one ring. While wearing this ring, you can envelop your feet in cushions of air. While this makes it so that your body never tires from walking and each step is soft and comfortable, its main function is to let you walk through the air as though stepping on stones.

## *The Siege of Barad-dûr*

When taking this Scenario you will awaken the night before the Siege of Barad-dûr starts at the end of the Second Age. Unlike the canonical events in this Scenario, Isildur and his father have both died before the story began. You may purchase a race or select a previously purchased race becoming a soldier of your selected race.

To complete this scenario, you must remove the One Ring from the hand of Sauron, severing his spirit in the process. Though the canonical Siege lasted seven years, you end the battle sooner or take longer; however, taking longer than 10 years will count as a Scenario Failure.
