In order to get the Perk **Something Unique**, you need to take both the **Almost Unique** Perk that it follows and the **Something Rare** Perk that is commented before the boosted Perk.

## General Perks:

### Darksign - Free

For the duration of this Jump you have been marked by the Darksign normally this would signify that you have become an accursed Undead but for you things are slightly different. When you die the Darksign will activate, returning you to the last bonfire you rested at, but at the cost of all the humanity and souls you hold. Without any humanity you will become a hollow, a form of undead that appears to be a partially buried decayed corpse. Should you Reverse the Hollowing through the use of Humanity at a bonfire you will be in a Semi-Hollow state and can switch between this and a living state at will.

### Fire Keeper Booster: Darksign Keeper

Post-Jump this will work as a pseudo 1-UP requiring you to be in a non-hollow state for the perk to activate. When you die in a non-hollowed state you will return to the last bonfire you rested at in a hollowed undead state.

### To Have Humanity - Free

What is it to be human or to lose humanity? In your case humanity is more than a concept, it is a power that keeps you from becoming hollow. You are now able to absorb the black sprite known as humanity in order to restore a person from a hollowed state.

### Chosen Undead Booster: Chosen Humanity

Post-Jump you gain humanity by defeating enemies who are revered or worshiped by a large number of sentient beings.

### Hollow Origin - Free (Cannot be taken with "Not Drop In")

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as an undead awakening beside a bonfire.

### Dynamic Entry - Free (Requires 3 "Out of Context Origin Perks" from other Supplements)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

### **Deprived Stats - Free (Exclusive Deprived)**

Your stats are the following:

Level: 6

Vitality:	11	Attunement:	11	Endurance:	11	Strength:	11
Dexterity:	11	Resistance:	11	Intelligence:	11	Faith:	11

### **Gathering Souls -100 CP**

When you kill someone or they die around you, you are able to collect their soul and are able to perceive the soul's worth of soul energy units. Any soul you collect can be consumed in order to give you that quantifiable amount of soul energy units. Soul energy units can be used in order to reinforce your own soul giving it an extra encompassing layer. Leveling you up with each additional layer requires more soul energy to be created. Each time you level up you will be able to invest points gained from your new layer into one of eight stats: Vitality, Attunement, Endurance, Strength, Dexterity, Resistance, Intelligence and Faith. This can cause a variety of effects, including increasing total health, stamina, damage dealt and the number of spells that can be attuned. Any unused soul energy units are dropped upon death, but can be retrieved from the location of your death which will be marked with a bloodstain.

### **Focused Smith -200 CP**

You have learned the art of the forge with you having the capabilities of a master of bladesmithing. You gain the knowledge and experience required for making, maintaining and repairing knives, swords, daggers, nails, plows, pots, hinges, latches and many other tools. This allows the user to create blades, maintain them, repair them, or make them stronger. You also have the finite control over metalsmithing required for fashioning intricate items such as kitchenware, jewelry and ornaments out of metals as hard as steel or as soft as gold.

### **Gathering Souls Booster: Soul Smith**

You are now able to imbue your smithing with the flames of souls allowing you to upgrade/ascend weapons, enhance armor, and repair equipment.

You are also able to use Boss Soul in the creation of Unique Boss Weapons either through the ascension of a regular weapon or the forging of something new.

You also have gained the knowledge of how to use the ember's in order to craft weapons with their elemental qualities..

### **Fire Keeper -400 CP**

You are now a Fire Keeper, you are able to create and upgrade bonfires and Estus Flasks. You have learned the secret rites and rituals to keep the embers burning including the right of embers and the deeper secret of humanity. As a Fire Keeper your soul acts as a draw for humanity allowing you to passively gather 5 units of liquid Humanity per day.

### **Chosen Undead -600 CP**

You are one connected to fate and destiny, the continuation of existence and the only one who can fend off the darkness, preventing entropy. From this there are two things of importance: First no fate's, prophecies or destinies can hold you back, though you can choose to follow them you may also choose to defy them, taking away their power and proving them wrong. Secondly you are able to sacrifice souls, humanity and many other esoteric energies and aspects in order to prevent entropy in relation to what you have sacrificed.

### **Fire Keeper Booster: The Dark Soul**

You have a Lord Soul one that can be fueled by emotions and willpower, increasing your usable power in order to channel the power of Dark. From this dark you can create a special shield with an 80% damage reduction from all types of damage and create, shape and manipulate humanity. The humanity you control allows you to animate life and imbue mortal creatures with sentience and self awareness that you can also drain from others making them hollow. Your control over the dark also allows you to grant others increased longevity that could let mortals live for thousands of years with reduced aging, though it does not truly render mortal bearers immune to age and death. You can even use your blood and power of Dark to create "pigment", a material that can be used to paint a world on a canvas that becomes an isolated land behind the painting that you can travel into.

### **Gathering Souls Booster: Souls-Like (Requires 3 Covenant Perks)**

Souls are the flame of life though some may wane into pitiful sparks others will grow into infernos. Now your soul has become a new flame akin to what Witch of Izalith attempted to create a flame of life that can create new souls and imbue into functional mass in order to give them life. You can passively create a simple soul worth 1 soul energy unit as easily as breathing whereas creating more complex souls like the Soul of a Lost Undead worth 200 soul energy units would take effort equivalent to a mundane person running 100 meters and even attempting to make a soul like the Soul of Gwyn, Lord of Cinder would be similar to a mundane person who has never ran a half-marathon before having to do so in one uninterrupted run, realistically it would take days if not weeks of effort and practice

### **Poise -400 CP (Discounted for Knight)**

You gain a mental purple poise bar which represents your sense of balance and while it is not empty you can not be staggered, accidentally tripped, interrupt your attack attempt or block your spell casting. The poise bar empties whenever you are struck by an attack and even when it is emptied it doesn't guarantee you will fall over, only that you are no longer protected from falling. Your poise can be increased by wearing heavy equipment and other features.

### **Fire Keeper Boost: Grace and Bearing**

You can now control your external weight at will, this will allow you to make yourself as light as a feather or as heavy as if you were made completely out of iron. When you change your external weight you will not feel any changes in your body but you will be able to notice changes in your movements. While light you will be able to jump higher but will be more affected by external forces whereas the heavier you become the higher your poise bar becomes and the quicker your drop from heights.

#### **Soft Humanity -200 CP (Discounted for Wanderer)**

Normally your humanity is used to keep you sentient but now you know of more uses for this precious resource. The more liquid humanity you have on you the higher your Physical and Elemental Defenses become, the luckier you become and the more powerful the damage weapons with the Chaos ascension become.

### **Item Discovery -400 CP (Discounted for Wanderer)**

You have a special talent for finding treasures and valuables even when they shouldn't exist. Whenever you defeat an opponent there is a chance that they will drop a glowing white flame like light that no one else can see. This light contains a perfect replica of an item relevant to the person you defeated and by touching the light you can store it within your core soul or manifest it as an object at will.

### **Fire Keeper Boost: From the Ashes**

It is not only those who you have defeated who now drop items but also places of importance and loss. Now in each jump many white glowing flame like lights that only you can see will be distributed across the setting, each light containing a perfect replica of something that was once important to that place.

### **Blade of the Dark Moon -600 CP (Discounted for Wanderer)**

### **Chosen Undead Booster: Dark Sun**

You are now able to create complex illusions that can incorporate the sins of the targets and even give off false sensations. This can be used in order to deceive a target into believing that they are moving while standing still on one spot and even show alternative timelines that could have spun off from their life if things had been different.

### **Physical Defense Booster: Dark Light**

You are now able to create a solid illusion with them gaining a level of durability in proportion to your control over illusions. You are also able to create illusion entities dynamically based off of those sins of a target, this illusion entity will then seek out the creature it came from and attempt to gain revenge in proportion to the sin that created them.

**Dexterity -200 CP (Discounted for Thief)**

You are now able to better control your movements and muscles with more precision allowing you to move with great precision that a mundane person with this could climb a brick wall using only the mortar joints then drop from 19ft being able to instantly regain their balance and bounce back to their feet without ever tripping or wobbling. This would also aid a mundane person in combat by allowing them to throw a projectile and strike at seemingly impossible angles with great precision.

**Backstab -400 CP (Discounted for Thief)**

When you have managed to sneak up on a target without them noticing you are able to sense the weakest part of the target's back and understand the movements that will deal the most damage to that spot. This allows you to strike the target from behind and deal a huge amount of damage.

**Fire Keeper Boost: Critical Sight**

This is no longer as restricted and you can now use it at all times allowing you to sense the weakness of almost anything, including people and objects, then deal much higher damage based on how effective the strike is.

**Darkwraith -600 CP (Discounted for Thief)**

This **Covenant Perk** allows you to wreath your body in darkness as if it were a cloak allowing you to bend its presence to your will, hiding you from the eyes of others as if you were a shadow and allowing the darkness to repair your body at a similar rate to the Replenishment spell.

**Chosen Undead Booster: Abyss Caller**

Thanks to your connection to darkness you can tap into the power of the abyss allowing you to connect to other times and places or empower yourself with abyssal energy. You are able to use this to create abyssal rifts that allow you to move through time and space or even parallel realities but you will find it easier to snatch others through time and space, to your location. As such you will not lose blood from a wound unless it is on something that entered your body such as a blade.

### **Strength -200 CP (Discounted for Bandit)**

Your physical output of strength is now enhanced so that a mundane human with this would be capable of lifting a single decker bus above their head and perform extremely powerful attacks which could cause collateral damage equivalent to a moderately sized explosive.

### **Brute Force -400 CP (Discounted for Bandit)**

You are able to convert any type of energy into physical force allowing you to convert any type of magic, radiation or even fire into physical might. This will not allow you to absorb any energy attacks but would allow you to dissipate any lingering effects while enhancing yourself.

You are able to create Fog Doors and make them into single direction barriers by connecting their existence to an object or entity on the opposite side of the entrance. So long as this object is in an active state or entity lives the barrier will continue to exist allowing entrance through the barrier in one direction but it will be impossible to use the other direction as an exit.
