

Out of Context: DBZ Android Supplement

V1.06 By DeverosSphere

This document can be used as a supplement in any Jump that would not otherwise have DBZ style Androids within its continuity.

By taking this Supplement you have chosen to be an artificial human using the designs of Dr Gero and you will enter into that continuity as a Drop-In awakening in an Damaged Android Pod wired into a moss covered and badly Damaged Time Machine with only Red Ribbon Clothing, luckily you are free of his programmed influence.

As an Android you are visibly similar to a Human, unless you choose not to be.

+1000 CP

If this Supplement is instead taken as an Isolated Jump you may select a setting of your choice even if it doesn't have a Jump Document and use this document as a ten year long Jump.

Origin:

The various modes of androids were designed by Dr Gero.
With that being the case, what type of Android are you?

Mechanical Android

It seems that you no longer have any organic tissue and are instead a purely Mechanical Hominid constructed by Dr Gero with bulletproof artificial skin.

Augmented Human

You were an ordinary human who has been augmented by Dr Gero causing you to have cybernetic components integrated into your body at the cellular level.

Synthetic Organism

Rather than being constructed or augmented you were grown in a lab by Dr Gero from some of the generic tissue he has been experimenting with.

Perks:**Artificial Sensitivity - Free**

Although your artificial body retains organic senses, this information is broken down into data that your artificial components can, this may take time to get used to but it will allow you to analyze your sensations more thoroughly.

Hikou - Free

Rather than using organic Ki your body contains an artificial energy that can move through both organs and machines this energy allows you to replicate Ki techniques and fly with no practical difference.

Energy Cannon - Free

Your body contains built-in energy cannons which are hidden in your body, these cannons can charge up energy in order to release a powerful beam of energy.

Waterproof - Free

Your body and internal components are completely waterproof, being able to filter any water inside your body into productive means.

Eye Beams - Free

You are able to Emit light from your eyes which can be amped up to the level of the solar flare technique, by charging this your eyes can emit a laser strong enough to match a focused Ki blast.

Android Origin - Free (Cannot be taken with “Surgery”)

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as if you were a DBZ style Android using this Supplement.

Dynamic Entry - Free (Requires 3 “Out of Context Origin Perks” from other Supplements)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

Undetectable Ki -100 CP (Free Mechanical Android, Free Augmented Human)

Your body does not emit a Ki-signature making you immune to being directly detected by Ki Sense or Scouters.

Bizarre Ki -100 CP (Free Synthetic Organism)

The Ki your body emits gives off a strange signal which mimics the Ki of any DNA samples you were created from.

Data Input Scan -200 CP

You have an integrated module that allows for the advanced scanning that gives you a detailed model with information about their strengths, health and various energy reserves.

Big Gete Star -400 CP

Your body now contains a loyal version of the Big Gete Star computer chip which functions as a data management system that allows you to interface with any machine through touch alone. The Chip can store everything you experience and records it perfectly, being able to store a near infinite amount of data as it already contains the Data from thousands of species and civilisations which it can analyze and use to run simulations to make deductions.

Spy Robots -600 CP

You are able to produce Miniature Tracing Robots that function as an extension of your body. These robots are approximately the size of insects and can utilize your perks, able to gather data which can be re-integrated into your body in order to gain data or samples they have acquired.

Big Gete Star Booster: Big Gete Spy

At the start of each Jump you will gain an integrated database containing fully analyzed recordings and reports of all named in universe characters containing information on their techniques, strengths and weaknesses.

The Big Gete Star data management system allows you to utilize an opponent's pre-scanned information into your data banks in order to predict their attacks and actions.

Mechanical Android Perk Tree:

Power Radar -100 CP (Free for Mechanical Android)

You have an integrated scouter-like device which grows with you, these sensors can detect any type of energy that either you can use or your database has records on.

Unlike the regular scouters this component does not explode upon encountering too high a power level but instead identifies the value as "MAXIMUM", it also increases its maximum limit in proportion to your own.

Energy Absorption -200 CP (Discounted for Mechanical Android)

Your hands have implanted gems that are able to drain energy from victims or attacks which can be used to increase your own reserves or it can be expelled as an attack.

Material Consumption -400 CP (Discounted for Mechanical Android)

Your body contains mechanical printing components that allow you to integrate any material and break it down in order to print off any components within your database in order to create new devices, upgrades and replacement components.

Big Gete Expansion: Facility Construction

Using the Big Gete Chip you can dynamically print, dynamic automated printing facilities allowing you to develop a self propagating facility, spaceship and simple subordinate machines.

Mechanical Integration -600 CP (Discounted for Mechanical Android)

You can absorb any purely mechanical components into yourself including other mechanical Androids, gaining their abilities and utility. If done using enough equipment or mechanical androids you can gain a super form far more powerful than that of your mechanical base form.

Energy Absorption Booster: Energy Integration

You are able to absorb energy and dynamic project cables using any part of your body. These cables can elongate and combine together in order to take on the appearance and functionality of any part of your body.

Using enough of this metal you are able to construct components that can replicate any transformations that your database contains enough information about increasing the transformations' durability and sustainability.

Augmented Human

Component Growth -100 CP (Free for Augmented Human)

Any installed mechanical components are integrated at the cellular level and are able to improve in both durability and capability as you become stronger through training.

Android Barrier -200 CP (Discounted for Augmented Human)

Your body contains stabilized energy emitters that allows you to thrust energy out from your body in the form of a barrier. This barrier can be used to both defend against oncoming projectiles and to expand and damage its surroundings.

The barrier possesses twice the defense that you normally have, allowing you to use the barrier to completely nullify attacks from people who are equal to or lesser in power to you.

Mecha Repair -400 CP (Discounted for Augmented Human)

If any part of your body is damaged or removed your internal nanobots will rebuild them with cybernetic enhancements which will exceed the limits of the components they are replacing.

Big Gete Star Booster: Mecha-Jumper

You can put your main body into hibernation mode in order to produce and control multiple purely mechanical facsimiles of your base form.

You will have complete control over these replicas and are able to replicate all of your strength skills and abilities within a body you are taking full control over.

Unless you are able to create mechanical variants you are unable to use transformations.

Infinite Energy -600 CP (Discounted for Augmented Human)

You now contain a generator that enables you to produce an infinite supply of energy, at a rate relative to your maximum passive output that grows as you do.

This energy can be converted into any technological or biological functions.

Organic Core -400 CP (Discounted for Synthetic Organism)

Your body contains a small mass of shell-like tissue which contains your mind and soul. If your body is destroyed and this tissue survives, you will be able to absorb energy from your surroundings in order to reconstruct your body over a long period of time. Due to its vulnerability if you are in this form you are unable to defend yourself or fight.

Big Gete Star Booster: Wireless Core

Your core can function independent from your body and wirelessly control not only it but any components that the Big Gete Star can interface with.

Hybrid DNA -600 CP (Discounted for Synthetic Organism)

Using this **Meta Perk** you are able to purchase as many options from a Species, Race or equivalent section as you can afford within each jump.

Biological Extract Booster: DNA Absorption

Any new DNA samples you drink can be added to your composition and potentially change your form in order to utilize the new abilities while also improving your pre-existing abilities.

Spy Robots Booster: Dynamic DNA

The database allows you to utilize a wider variety of statistical information when absorbing samples allowing you to safely change your DNA composition at will in order to modify your external appearance and internal biology.

Using this information you are also able to integrate any beneficial mutations from a sample without negative consequences and gain reactive components that allows your body to dynamically respond to imminent threats by empathizing DNA that is better able to defend against the issue.

Items:

Any lost or stolen items will return to you after a week in the same condition as when you had it. Any damaged items could potentially be repaired and have the broken condition removed if worked on by a capable engineer.
