Age and Gender

Ages are 20+1d8 or 30 2d8 and gender is whatever you want it to be.

Origins

Any origin can be a Drop In.

Indie Magnum (100): You're may be a leader with a strong sense of moral standards and a love of leather and whips, or you may be a free-spirited, genial hotshot who is sometimes immature and forgets to think before he acts. Either way you are a ladies man or a man's lady.

Inventor (100): Want to work on a vehicle, or create new tech? Well this sounds like you.

World Traveler (100): You spent your time traveling the world and have gained a wide range of experiences doing so. Whether you stay and help out the Rescue Rangers or continue traveling for the next decade is up to you.

Crime Boss (100): Do you like the finer things in life? Do you consider an honest day's work to be for chumps? Well do I have the Origin for you.

Race

Human (0): You want to be a human? Why would you want to be a human?

Chipmunk (100): You want to be a cool guy, well now you can. (Bushy tail optional for males)

Mouse (100): You love cheese? You want to get close to Gadget? Have fun being a mouse.

Cat (100): How about being large and in charge? Being able to look down on the heroes as you hold them in the paw? Well then being one of the superior feline species is for you.

Other (200): Have another animal you want to be? You can choose anything from a dog to a bat, as long as you can make it fit in the world.

Perks

Origins get their 100cp item for free and the rest are discounted to 50%.

Indie Magnum

Whip Work (100): You are an expert in wielding the whip to the point it seems almost supernatural. Need to grab a beer and open it but don't want to get out of your chair? Then grab that can and launch it towards you, then rip open the tab mid air with the tip of your whip as it sails perfectly into your hand. Also comes with the knowledge of how to hand craft custom whips.

Animal Magnetism (200): You exude an aura that practically draws others to you. This is a mild charisma booster and will make it easier to attract the attention of those of your chosen preference.

Here the Plan (400): You have the annoying ability to formulate and execute the most absurd escape plans. Explode a tank of pudding and ride it safely out of a burning warehouse is as easy as can be for someone like you.

Inventor

Just the Basics (100): You have a basic grounding in a few disciplines including mechanics, electronics, and explosives. Nothing close to formal mastery but you have picked up working knowledge from years of self study, have fun building.

Mastery (200): You gain mastery of one creative or scientific discipline. This far outstrips what you would get with "Just the Basics, where there you might be able to repair a slightly damaged car, here you would have the knowledge and ability needed to completely build and improve a vehicle design from the ground up. **Can be bought more than once for different disciplines.**

This isn't Junk it's a Rocket (400): Where others see a pile of scrap balloons and bottle rockets, you see a rocket blimp waiting to be assembled. You have an increased ability to recover, refit, and convert seemingly useless items together into functioning technology. You want to make a gun using nothing more than an old gas cylinder and some copper piping and a thumbtack? Well now you can. This ability also confers the knack of reusing and recovering components and materials from seemingly trashed and overlooked equipment and scrap.

World Traveler

A Bug (100): You have a small non-speaking sapient side-kick. It can be any tiny bug like a fly, ladybug, or a grasshopper. Whatever you want as long as it's around the size of Zippy.

Omnivehicular (200): Thanks to your extensive travels you have a basic ability with controlling vehicles on land, air, and sea. With but a few moments you can familiarize yourself with the operation of any form of vehicle enough to operate it as long as it is physically possible. This may entail stilts and a second navigator to actually see where you're going but you can manage.

Worldwide Connections (400): You are able to find people wherever you go that can help you in your missions. Whether they are someone from your previous travels or a new friend you stumble upon, this perk makes it easier to find those who will help you.

Crime Boss

Intimidate (100): You have the ability to exude an intimidating aura on command. Does not work on those sufficiently more powerful than you if they know you are weaker than them.

Mooks Everywhere (200): No matter where you go you always need disposable mooks to either throw at your enemies or to simply do the drudgery that is beneath you. You have a talent in find the stupid and pathetic to work for you no matter where you go.

Just a Pussy Cat (400): What crime boss? I'm just a harmless pussy cat. Unless you are blatantly obvious about your illegal activities or are caught in the act with no scapegoat it will be harder for others to be convinced of your guilt.
