Elf (200 CP): A numerically inferior race to the others, but with a great mastery of magic, it is common for their race to have a magician of at least the third circle. They also have an affinity for spiritual magic. Their life expectancy is 2000 years.

Beast People (100 CP): The second most predominant race after the human race. Despite not being strong in magic, their physical abilities are superior to those of the other races. Their life expectancy is 100 years.

Another effect of this mark is that the person who performs the ritual (be it with them or other people) are unable to feel pleasure with another person other than their master.

Adventurer

You are someone who makes a living by hunting monsters, exploring dungeons and doing other jobs. That doesn't mean your options are limited, so you can exploit your talents in other areas if you want. You can choose between the class of wizard, swordsman, warrior, cleric or thief.

Civilian

You are a person who prefers to have a monotonous but safe job. Risking your life every day is not your thing but you have the ability to earn a living without having to do dangerous things.

Perks

All origins receive their 100 CP Perk for free. The rest of the perks of an origin are discounted.

General Perks

New World (Free)

This world has a well-defined universal absolute, which is that women are beautiful if they are slender and have small breasts. Women with large breasts are considered ugly, being very unpopular even in brothels. In each jump you start, even this one, you can alter the beauty standards of the world or place you are in, implementing at will certain physical characteristics in particular that are considered attractive as well as those that are considered unattractive. Keep in mind that it is only the standard of beauty, so do not think that you can alter people's common sense.

A Fictional Medieval World - NSFW Version (100 CP)

Normally any series that takes place in the medieval era would not be the best choice to live. Anime and manga make them look neat, and the people who live there have the manga or anime filter, being beautiful compared to how they should look, uneven and dirty.

With this option, the world where you are will be a very clean and neat place, free of bad smell and any dirt. Another effect is that the inhabitants of the place where you are, including you, will be very beautiful, not requiring any type of makeup to make them look beautiful. This includes the aging of people, like good wine, when embellished they will not lose their attractiveness, but will give them a more mature appearance in a good way, even the oldest people will have a very attractive appearance.

People will be well endowed, women will have huge breasts (the limit is your desire), the same being the case with men with their penises. People's clothing will be more lascivious, it will not be rare to see women with the famous bikini armor or guys fighting monsters with only boxers, the protection of these being equal to that of traditional armor (porn logic).

Laid-back world (200 CP)

This world is very peaceful, there are no wars or conflicts, the only concern of our protagonist is to have fun and get money.

Every jump or place you visit, regardless of its situation or if there is a veil conflict in the area, will never affect you as such. Unless you seek to actively get involved, your life in the place will be quite peaceful, even the places where you are will be free of conflict and will not suffer the consequences of them such as overpricing or a general concern in the population. If you are in the Warhammer 40K universe, I assure you that you will not even notice that you are there due to the peaceful life, free of the grimdark tone that the franchise offers, that you will have during your stay.

Making money is very easy (400 CP)

Money is what makes the world go round and you have a talent or luck to generate it. You have an innate talent to determine what kind of business or what kind of mission, if you are adventurous, will give you more profits.

You also have lady luck on your side, it is very common that you find several opportunities to generate a lot of wealth. That dungeon that you conquered by chance was considered a new dungeon, so you were given a reward of 100 red gold coins. Or that product originating from your world or created by you that you start to market, is a popular trend that will make you amass a fortune during the first weeks of sale.

With this Perk, I assure you that the lack of money will not be a problem for you, the problem will be how you are going to manage such a fortune.

Blue Blood (600 CP)

You are not a simple nobody, you are someone who belongs to royalty or a renowned noble family if you want something less flashy. In each world you are in, you can choose the country you want and become part of the royalty of the same, you will not be the crown prince or someone of great importance, but that does not mean that you cannot achieve it with your own means.

Another effect is that if the royal or noble family to which you belong has some special ability or something else that makes them stand out from the rest, you will have those same abilities or talents. That includes the species they have.

In the case that your origin is "Summoned", this will be a reincarnation Isekai, so it will transmigrate to the body of someone who belongs to royalty or a noble family.

Summoned

They don't know how to appreciate their beauty (100 CP)

The sense of beauty is in each one, so for you a person may seem attractive, for another may seem ugly. When you are interested in a person, this will be perceived by others as unattractive or they will not feel any kind of attraction towards them, reaching the point that if this person is married or has children, they are in the process of divorce with their partner. Clarify that this is perspective, so it is not that your sense of beauty will be altered or you will alter the common sense of people, you will only make those people who are attractive to you and you want to have a relationship with not be considered attractive or of sexual or romantic interest by other people.

Basic Kit Isekai MC (200 CP)

The basic package for most Isekai MCs. You will gain the following abilities:

Language Comprehension, allows the user to comprehend and understand any language or form of communication in existence (as long as they are at a mundane level, no ancient language or anything else broken).

Storage: Allows the user to store an infinite amount of items in a pocket dimension, where they are left in a state of stasis or with time stopped. You cannot store living beings or

objects attached to the ground. If you want to take something out, just imagine it and you will get it out of your pocket dimension.

Appraisal: You can see the level, class, and stats of people, as well as information such as age and gender. As for objects, you can know the information about them, such as if they are fake or original.

Cleaning: You can remove any dirt or stains attached to people or objects, that includes bad smells.

Average Isekai MC Luck (400 CP)

You have a lot of luck, jumper, or rather Plot Armor. Your luck will make your stay anywhere a paradise at best or decent at worst. If you go adventuring, you will find rare treasures very easily, as well as rare objects of great value. If you open a business, it will have a large number of loyal and paying clientele, selling out your stock in a day. If you seek a harem, people you find attractive will be people you meet frequently, and they will be interested in you as a good partner, even allowing themselves to share you with others. In a battle with an opponent who greatly overpower you, you will be able to come out alive in one piece with no permanent damage.

Do not confuse this with miracles, so if you go alone to face an enemy army, you will very likely die.

Potion Master (600 CP)

It's common in any Isekai for the MC to have one or more broken skills or skills that are too convenient for their stay in their new life. Like them, you have a cheat skill to make potions. Your ability to make potions is at a level that surpasses common sense. You can make potions that cure deadly diseases in a matter of seconds, that remove high-level curses in an instant or elixirs that heal any wound, even regrow limbs in the blink of an eye. The best thing is that you can create potions that permanently increase your stats, although you will have to consume several to take them to the maximum. Your repertoire of potions is vast, so you will always have something in mind for most situations.

The creation of these potions is magical, so you just have to imagine what effect you want that potion to have and how powerful that effect will be, appearing in a bottle that you will customize to your desire. Although the cost of creating them is the use of mana, so D-Rank potions will have a lower cost, while S-Rank potions will have to use a large amount of mana.

Adventurer

Total Babe (100 CP)

You are not just a skilled person, you are a total beauty.

You are a beauty that only the most beautiful princess could compete with. You have a perfect body and a beautiful face. If you study a little etiquette you could be mistaken for a princess, and rest assured that members of royalty will be tempted to ask you to marry them.

Wisdom and experience (200 CP)

Dungeons are not a safe place, and so the job of an adventurer is not just about physical strength. You have a great deal of knowledge when it comes to exploring dungeons, being

very competent at identifying traps, locating enemies, and knowing if a dungeon is worth invading.

You are knowledgeable about various types of monsters, their ecosystems, attack patterns, and weaknesses. You also know where you can collect or acquire certain items, and if there are multiple places to obtain them, you will know which is the safest or least dangerous place to get them.

Skilled (400 CP)

Depending on the class you choose, be it mage, swordsman, etc. You are very talented at what you do, being your ability and power that of an A-Rank adventurer. You can attack a beginner dungeon by yourself and do record time without a scratch.

As an extra you can choose a special ability within your class that makes you stand out from the rest, not one that is broken but rare and convenient like the power to tame monsters, control of spatial magic, great speed, etc.

Great Sage (600 CP)

You are not a regular wizard, you are a legendary wizard who has reached the pinnacle of magic. You have in your arsenal a wide variety of offensive, defensive, barrier, healing, teleportation, etc. spells. You are an expert in handling basic spells to advanced spells, having a mastery in the control of them.

Your magical power is worthy of your title, having an amount of mana one hundred times greater than that of an average wizard. You can cast spells without holding back and you will not feel that your mana is depleted since it regenerates faster than the average.

If you choose another class, you can have this one as a secondary class, benefiting from both.

Civilian

Multifunction (100 CP)

Life is difficult, if you don't have some talent or knowledge in something, it will be difficult for you to earn a living. Luckily, you have general knowledge in several areas, such as commerce, law, mathematics, administration, manufacturing, etc. Your knowledge will be basic, but by having knowledge in several areas, you will have no problems finding a job, a simple but stable one.

I know someone (200 CP)

One of the disadvantages of a non-adventurer is that they depend on others to get items or other things for their business or other personal things. Luckily, whenever you need a specific material, a meeting with a person, a specific place to go, or a certain job to be done, you will find a person who can help you with that. They will be very fair when it comes to negotiating and will not try to rip you off, and will fulfill the order you give them to perfection. Keep in mind that this has limits, do not expect that in a mundane world without magic you will find someone who will sell you the Philosopher's Stone.

The Right Person (400 CP)

No matter what business you're in, it's good to have someone competent as a subordinate or coworker. You're lucky that when you're looking for someone to hire in your business or when you walk into a place as an employee, the people who work for you or with you are very competent at the job they do.

If these are your subordinates, they'll be honest, upright, and loyal. If they're your colleagues, they'll be good coworkers, there to help you or cover up for your mistakes. But keep in mind that this has its limits. If you're an exploitative boss or a bad coworker, they'll quit and report you or do everything they can to get you fired.

Trader (600 CP)

You are not just another Joe, you are a talented trader, so talented that you are able to turn a simple startup into one of the most important international companies. Your negotiation, management, administration, social and business skills are at a level superior to those of veteran traders.

As an added bonus, you have a talent for choosing skilled and loyal staff, so you won't have to worry about internal threats.

But remember that this service is only free for you, so don't try to take any kind of advantage or invite someone.

Dragon (400 CP)

A powerful dragon that has the power to easily wipe out a group of A-Rank adventurers. It has the ability to control any element you want (water, fire, earth, air, light, darkness, or lightning). It can fly and is very easy on you.

But that's not all, you can use this dragon to travel from one point to another, which is more efficient than traveling by wagon.

You can customize the dragon to your liking.

Dungeon (600 CP)

Your own dungeon. You own this peculiar fifty-floor dungeon. It is full of monsters, and their strength increases as you go down, so the first floors will be weak monsters, but in the last ten floors you will encounter powerful monsters that can eliminate S-rank adventurers. When

you defeat them, important parts of their body, which are commonly used for the creation of weapons or potions and other things, will appear as drop items.

Another advantage of this dungeon is that it will have several hidden treasures, such as elemental magic crystals, consumables that increase statistics permanently, precious metals of great value such as orichalcum and adamantite among others, etc.

As its legitimate owner, you can charge fees to adventurers who want to explore your dungeon, being able to kick out anyone who has not paid their entrance fee.

This mansion is within a 200,000 m² plot of land, having several amenities such as swimming pools, playing fields, gardens, etc. The mansion itself is 50,000 m² in size, being equipped with all the amenities that would make a king feel envious of all the luxuries you have, with kitchens, private offices, a library, etc. Of course, it has rooms to accommodate both your companions and your followers, increasing their number as you increase your members.

Regardless of how many people it houses, it will have, in appearance, a five-story mansion. Anything that defies the law of space is due to space magic.

This mansion has a powerful magic barrier that protects against any attack, making it impossible to destroy it or enter without the owner's permission. DRAWBACKS

You may take any amount of drawbacks you like.

Crossover +0

Are there any hentai manga that you are interested in and want to add to this jump?

You can add other series to this world, as long as they are medieval fantasy hentai. You can add as many series as you want. In case they have different power systems, these will adapt to the magic and class system of this world.

If you are only interested in some characters and not the plot, you can bring only those characters. As for powerful items that exist in those plots, such as magic or very broken powers, these cannot be incorporated.

Supplement +0

If you are not in the mood to spend 10 years on this jump for a Perk, Item or Power, you can use this jump as a supplement and buy whatever you want. But you will not have the benefits of discounts. If you wish, you can combine this jump with another one you are doing, being able to take Drawbacks from this jump, but without discounts.

Extended time +100 CP

If you want you can spend an additional 10 years in this jump. It can be taken multiple times.

Not my preference +100 CP

Remember the "New World" perk, this option is the opposite. Any physical feature that you don't like or that doesn't fall into the category of what you consider attractive will be the predominant one in this world. This doesn't mean that people will be ugly, but if you are a person who likes big breasts, most people will have flat chests.

Sex Addict +200 CP

You have a problem jumper, you are a guy/gal who is horny all the time. Your libido is at its maximum, so you will need at least to have sex twice a day or masturbate twice a day.

Ugly +200 CP

You are an ugly person, or rather that is how people perceive you. No matter how many beauty perks you have, people will judge you as a 2/10 in terms of appearance. It is not impossible for you to have a partner or form a harem, but you will have to put in the effort.

No Isekai Filter +400 CP

Remember those isekai where all the people in the new world are beautiful, well this place is different. All the people in this world will be ugly (by your standards), even the most beautiful will be at most a 5/10.

Impotent +400 CP

What's the point of going into a world where 99% of the population are beautiful and sexy people if you can't have fun? Unfortunately that's your case, if you're a man your friend won't work, if you're a woman you won't feel anything.

Dark Fantasy +600 CP

This series shows us a more optimistic side of an Isekai, kind people, convenient script and a harem of beautiful women. But this is not your case. This world is no longer a place where you can live carefree, the monsters and people in this world are more ruthless than you imagine.

This world is one that fits into a dark fantasy, uncontrolled monsters, war between species, most people are evil-intentioned and resources are very scarce (a simple meat stew being a luxury). Prepare to spend your stay in nightmare mode.

Cursed +600 CP

Apparently someone cursed you as soon as you entered this jump, being a very powerful spell. Lose the Perks, Powers and Items from previous jumps, and can not import any companion or access your Warehouse, at least you still have your Body Mod.
