Origins

Drop-In [Free]

You are dropped in this new universe with no background, memories, or documentation.

Adventurer[Free]

The classic of all isekai, you are an adventurer roaming the roads around the cities in order to hunt monsters.

Inhabitant [Free]

You are one of the inhabitants of this world, perhaps you are a merchant, noble, a craftsman or others.

Race

There are many races in this world, whether it's humans, half-humans, elves, or dwarves, you are free to choose the one of your choice and benefit from their traits.

Slime [+200 CP]

You're a little bouncing friend of your choice. If you couldn't talk, it would be hard to tell you apart from a normal slime. If you want to take a bigger one like a big slime or something similar you can but you don't get the +200 CP. If you merge with other similar slime, you are the hive mind.

Perks

Origins get their 100cp perks for free and the rest are discounted to 50%.

General Perk

Magic affinity [Free/50 CP]:

There are many magical elements such as water, fire, earth, wind, light, darkness, space, healing and some that are a combination of two. You can choose two elements you have a strong affinity with. For 50 CP, you can choose one more.

Familiar Magic [Free/100 CP]:

You can use magic to tame monsters, analyze your pets, and see through their eyes. The type of pet you have the best affinity for is your choice: it can be scaly, quadruped, lupine, or others. If you want another type in addition, it will cost you 100 CP per additional type.

Huge mana pool [200 CP] Free for Drop in and Inhabitant]

Perhaps you're descended from one of the heroes summoned by the gods, or are you one of them? In any case, you have a huge amount of mana 200,000 units, to be exact though with training, the amount will increase. Moreover, this and your best ability can be passed on to all your descendants if you wish.

Resistance [200 CP| Free for Adventurer]

By venturing into dangerous places you have acquired a resistance to diseases and poisons similar to Ryoma's.

Drop in

You learn things much faster by having fun, what should take you a week takes days instead, and the more fun you have while practicing something, the greater the progress will be.

Slime magus [100 CP | Free for Drop in]

Sticks are outdated, staffs are overrated, right? The best magic amplifiers are slimes! These cute creatures are able to blend in with the spell of their element to greatly amplify them and make them more controllable (the effect is further increased thanks to this perk). Normally when they reach a synchronization of 10 by dint of doing this magic trick it would kill them but in your case it will only strengthen them!

All magic affinity [400 CP | Discounted for Drop in]

You have an affinity for each type of magic allowing you to potentially learn and use them more easily. In this world this gives you: fire, water, wind, earth, neutral, lightning, ice, poison, wood, light, dark, space, barrier, healing... In other worlds you would also gain the possibility of using all the affinities of this world, however remember that this only gives you the basics as well as a better talent and that spreading yourself too thin is not necessarily the best solution.

This is a cheat ability similar to the one given by the gods of this world to those in isekai such as:

- No limit to the number of magical beasts that can be tamed and an affinity with all magical beasts
