

Nakimushi to Kokoa no Yuri ver 0.1

By saiman010

Introduction:

Welcome, Jumper, to a world not so different from our own.

Here, you'll follow the lives of two girls: the sensitive and emotional third-year student, Yuki Shiharase, and the tall, confident first-year, Kokoa Akamine. Their story begins with a bold and unexpected moment—upon seeing her adorable senior crying, Kokoa couldn't help herself and stole a kiss. Surprising? Yes. Unwelcome? Not entirely. Yuki didn't seem to hate it, and that's where everything began.

This is a simple yuri tale. Sweet, awkward, and tender—a story of stolen kisses, blushing cheeks, and the quiet bloom of affection between two girls figuring out their feelings.

You have 1,000 CP to shape your journey in this world. Choose your perks, build your role, and become part of this delicate romance in your own way.

You will start in any city in Japan, either an actual existing city in the real world or a fictional location, during modern times. Whether it's a bustling city, a quiet countryside, a coastal town, or a mountainous region, the choice is yours.

Origins:

You may change your gender to female for free. However, changing to male will cost 100 CP also any origin can be set a drop in if you wish. Your age is 14+1d4 in age.

Weak Cry Baby [Free]

You're, regrettably—or maybe fortunately—the cute one of the group. The moment your eyes start to tear up or you trip over your own feet, something strange happens. It's like blood in the water, but instead of sharks, it's girls. Lots of girls. For whatever reason, your clumsy sobbing antics awaken a protective and sometimes slightly predatory instinct in those around you. Expect to be cuddled, teased, or smothered with affection.

Cool Wolf [Free]

Even as a girl, you radiate coolness without even trying. You're taller than most, with a naturally handsome face that turns heads wherever you go. You've probably been told you'd make a great ikemen girl in a drama more than once. Athletic, poised, and a little too smooth for your own good, you give off serious heartthrob energy. Assertive, confident, and maybe just a bit shameless when you see something or someone you want.

Perks:

Perks of the same origin are discounted and 100Cp discounted perks are free.

General

Beauty of Manga [Free]

Your appearance now matches the aesthetic standards of most manga and anime protagonists. Regardless of your original looks, you are now considered highly attractive by local standards—roughly an 8 out of 10 at minimum.

The Fated One [Free]

Once per year, you will encounter someone who aligns closely with your personal ideals of a romantic partner. This person will be naturally drawn to you, and there will be a strong potential for a meaningful relationship. This effect only activates when you do not currently have an active romantic partner.

Male Repellent [Free / 100 CP]

While in this world, you will not draw romantic or unwanted attention from men. This is provided for free here due to the nature of the setting. In future worlds, this perk costs 100 CP to retain and is fully optional. It can be toggled on or off at the beginning of each new jump.

Mastery of Class [300 CP]

You now possess complete mastery of all general academic knowledge typically taught in school—from elementary through high school and up to a standard bachelor's degree level. This includes math, science, literature, history, and other core subjects. As a result, even if you skip classes, you'll never fall behind academically. However, this does not apply to physical education or any physically practical classes—you'll still need to show up and participate in those.

Weak Cry Baby

Cute!! [100 CP]

Whenever you make a mistake—trip, stutter, drop something—you somehow come off as overwhelmingly adorable instead of embarrassing. People around you often freeze for a second, caught off guard by how endearing it is.

This has the side effect of making others more likely to forgive you quickly and even tease you gently rather than get annoyed.

Secluded Spot [100 CP]

You have a knack for finding quiet, hidden, or out-of-the-way areas wherever you go—empty rooftops, unused clubrooms, that perfect bench behind the school.

These places are usually peaceful and rarely disturbed.

Whether you need a break, a private moment, or just a quiet spot to cry or cuddle, you'll always stumble upon a perfect little corner of solitude.

Enhanced Nose [200 CP]

Your sense of smell has become keenly attuned to people, allowing you to pick up on their natural scent signatures with ease. With just a whiff, you can identify individuals even from a distance or behind closed doors.

This can help you locate friends, sense emotional states, or even notice when someone's nearby before they speak.

Easily Targeted [200 CP]

For whatever reason, you tend to attract a lot of attention—particularly the kind you secretly want. People with a strong interest in you, whether romantic, playful, or teasing, just seem to find you and act on it.

This attention is never malicious, but it can be intense and flustering. Think of it as the kind of trouble that popular characters in romcoms or yuri manga somehow always get dragged into.

Counter Reaction [400 CP]

You have an intuitive understanding of the kinds of actions, gestures, and responses that will spark just the right kind of reaction in a romantic or intimate partner. A certain look, a soft gasp, or a specific kind of movement— With this knowledge, you're able to draw out a more passionate response from them almost effortlessly.

Light as a Feather [400 CP]

To the person you love—or even someone you have a crush on—you are now effortlessly light. No matter your actual size or weight, when they go to carry you, you'll feel like you weigh next to nothing.

This perk makes all those swoon-worthy bridal carries, lap lifts, and dramatic rescues feel natural and easy for your partner. Expect to be picked up. A lot.

To Be Protected [600 CP]

Once per jump—or once every ten years—you are shielded from failure by the power of love. If a situation would normally cause you to fail a jump death, disqualification, critical loss, it will instead be negated.

This miracle activates only if you have a romantic partner or someone with genuine feelings for you.

Cool Wolf

Wild Side [100 CP]

Your appearance and mannerisms now carry an untamed, slightly wild charm. Whether it's the glint in your eyes, the way you move, or how you smirk, there's a bold energy behind your presence.

Increased Stamina [100 CP]

Your physical stamina and strength are now well above average for your species and age. Running, lifting, carrying, or... certain other vigorous activities can be sustained much longer than before. Very convenient when you need to take the lead—or hold someone down.

For the Attack [200 CP]

You've developed a natural sense for when your flirtations or advances will be well received by your crush. That little instinct in your heart now whispers “yes” or “not yet.” This dramatically lowers the chances of rejection and helps you pick the perfect timing for a hug, a whisper, a teasing glance, or even a bold move—turning awkward moments into successful ones.

Recharged [200 CP]

Physical affection now gives your body a minor but noticeable energy boost. Light skinship such as hugs, cuddles, or kisses restore a bit of your stamina and mental clarity. You won't suddenly be at full power, but it's enough to keep you going through long days—or long nights.

Intoxicating Scent [400 CP]

Your natural scent is now subtly addictive to anyone you're interested in, romantically or otherwise. Whether or not you wear perfume, there's just something about your scent that draws people in. This effect doesn't overwhelm or remove their agency, but it creates a lingering fascination that keeps you in their thoughts.

Hunter's Instinct [400 CP]

You now possess a sixth sense for romantic or fateful encounters. As long as you're interested in someone—or already involved with them—you'll tend to cross paths by coincidence. It feels like fate, but really, your instincts guide you subtly toward key moments. You'll always “just happen” to be where you need to be to move things forward.

Wolves Pounce [600 CP]

Your sensual touch now has a uniquely powerful effect on those you're interested in. Even a gentle caress can trigger a heightened physical response—shivers, blushing, intense focus. While you're in a relationship or even the early crush phase, anyone you've touched in this way becomes subtly averse to others' similar touches. It's not mind control—it's emotional loyalty, built on chemistry and desire.

My New Team 100

Sometimes having friends would be nice. Buying this once will allow you to add one allies you've made here as companions. You may buy this multiple times.

Drawbacks:

You are limited to +500 Cp from drawbacks.

Supplement [+0]:

Not exactly the most in-depth of places, so you can use this jump as a supplement for other jumps. The CP here can only be used in this jump, and vice versa; this includes extra CP from drawbacks.

Rule 63 [+0]:

Well then... looks like we are entering a world where instead of focusing on the Yuri but instead the Yaoi. If you want to see bishonen gay couples, be my guest.

Stripped A lot [+100CP]:

It seems like you'll find yourself getting stripped quite often, either due to your antics or perhaps because the universe has a peculiar sense of humor. To make matters more interesting (or embarrassing), you'll now exclusively wear the most flamboyant and outrageous underwear available. This ensures that whenever you do get stripped, your fashion choices—or lack thereof—are on full display for everyone to see.

Bad Sense of Direction [+100 CP]:

You have a legendarily terrible sense of direction—like, "how did you end up on the roof when you were trying to find the gym?" level bad. You constantly get lost, take wrong turns, and show up fashionably (or frustratingly) late to classes, dates, and even club meetings.

Power Dynamic [+100]:

During this jump, you will not feel satisfied with any relationship where you are the top or bottom partner. You will expect your partner to maintain positions of power both over you. And it will be hard on her to do it.

Does I Look Fat? [+100]:

You think you're fat... or rather, you're convinced your fat... and it bothers you. Enough that you're constantly asking others for their opinion, then doubting their words or questioning their motives.

Airhead [+200 CP]

You're a natural daydreamer, often spacing out during conversations or missing obvious social cues. While you're usually sweet and harmless, people may underestimate you or assume you're not taking things seriously. This makes relationships a bit trickier, as you may not always notice someone's feelings—or even realize you've hurt them unintentionally.

Annoying Tsundere [+200 CP]

Your emotions are a mess. Whenever you try to express affection, it comes out twisted with sarcasm, shouting, or accidental cruelty. Even when you want to be honest and loving, your pride or flustered nature gets in the way. This causes tension and misunderstandings with others, especially those closest to you.

You've lost access to all stable sources of income. Family money? Gone. Perks that provide wealth or profitable skills? Sealed. The only way you can support yourself now is through a job you find degrading—whether emotionally, morally, or physically. Maybe it's late-night janitorial work at a place where no one respects you, or a shady part-time gig that makes you question your dignity. You can't sell anything of value you own either; everything you'd normally part with for cash now holds intense sentimental value.

Relationship Dependent [+300 CP]

Being alone isn't just unpleasant—it's unbearable. Without someone to love and be loved by, your thoughts spiral, your mood tanks, and your sense of self begins to fray. You may still function in your day-to-day life, but your spark fades. You'll crave emotional closeness constantly, and the longer you go without it, the worse you feel. Casual connections won't be enough; you need the intimacy, stability, and reassurance of an actual romantic partner... or you risk falling into a quiet despair.

Stupidity [+300 CP]

You're not dumb in the "comic relief" way. You're just... limited. Complex ideas confuse you. Long-term strategies escape you. Abstract thinking? Nope. When people explain things, you might nod and smile but completely miss the point. It's not that you don't care, but nuance and technicality just don't stick in your brain. This affects schoolwork, social dynamics, and even your ability to understand your partner's deeper feelings unless they spell them out for you. I

Nervous Habit [+300 CP]

You suffer from a severe eating disorder—either Anorexia or Bulimia. It's not just a background trait, it actively affects your life, health, and relationships. You hide it, deny it, and convince yourself that you're fine even as your body weakens and your mental state deteriorates. Perks and supernatural healing won't help unless they're explicitly mundane treatments like therapy or support groups, and even those will be hard to reach due to your shame and fear of vulnerability. This condition is dangerous, isolating, and could eventually kill you if left untreated.

Unrequited Forever [+400 CP]

You've found the one—the girl of your dreams. She's perfect in every way, and your heart aches just looking at her. But here's the twist: she will never, ever love you back. Not out of cruelty, but because fate just... isn't on your side. Maybe she's already taken. Maybe she sees you only as a best friend, a sister, or worse—barely at all. No matter how hard you try, no matter how sincere your love, she just can't return it being reasonable and you're being irresponsible, but from your perspective it will be all but impossible to realize that. This obsession has made you into a Yandere a danger to society.
