The Story Thus Far

Lucy Heartfilia, Celestial Spirit Mage and member of the mages guild Fairy Tail, was kidnapped and raped! When was this? I have no idea! Sadly the original material wasn't very in depth on the timeline. All I can really tell you is that the story *ends* sometime in the year x792 or maybe x793, given the evidence of certain character interaction. But of course, the jump doesn't end quite at the same time...

Regardless, after the *Incident*, apparently she found a minor liking to the deed, because it doesn't stop just there. See, she actually went back for more. But now is not the time for us to talk about that, now is the time for you to go and experience it for yourself! And by that, I mean go fuck Lucy. Or join her in getting fucked, makes no difference to me.

To help you make this incredibly easy yet painful decision, I give you these. Now go forth and fuck!

Ah, so you've decided to taste that sweet flesh for yourself? A wise choice. I'm afraid that for the time being you are an utterly ordinary man, not even guaranteed to have the capacity for magic. That said, there will be an option to fix that. And to help you get laid at the same time, of course.

You gender may be freely set to male, your age is $2d8+30$, and your location is somewhere on the continent of Fiore, likely near a mages guild.

Fairy

Well, maybe not. Strictly speaking the name refers to a member of the mages guild Fairy Tail, though given the gangbang habits of Yukino Agria, you don't actually need to be one. Any guild will do. That said, Fairy Tail is one of the best, and it's members the most famous. That may or may not be a boon.

Your gender may be freely set to female, your age is $2d8+10$, and your location is Magnolia Town - or wherever your chosen guild is based.

Perks

Rapist

100 cp - You Know You Want To

If you don't like being molested, they why are you so wet? If you don't like being raped, then why did you just cum? I'm sure you can see where I'm going with this. Your words are now... tempting. Just enough logic and accusation to shame the fight out of someone. To convince them for a moment that they really do enjoy this, that they really are a slut. Of course, words are nothing without the proper mood... and a thorough bitch breaking to drive the point in deeper.

100 cp - Big Fucking D

And to assist you in that breaking, I present you with this. The 21st digit, your ace in their hole, the cervix crusader, your buster cannon. I could go on, but I think you get the idea. You have a big dick. However, it's not just any ordinary dick. See, at any given time, you can make your dick swell up to the point where the lucky lady can no longer hold more than half of it inside of her. Could be an issue getting it in at that point. On the other hand, if you were already inside?

200 cp - All A Part Of The Procedure

Screwing with their head to screw with them once things have gotten going is all well and good, but you need a way to actually get there. Other than force. With that in mind, you are now... exceptionally talented at bluffing. Read that as 'pulling bullshit out of your ass'. This makes you rather good at taking advantage of the innocent young maidens who cross your path. Yes my dear, I AM certain that a blowjob is a valid medical procedure.

200 cp - Slow And Sensual

Of course, if you go too fast then she might get the wrong - well, right - idea about your intentions. With that in mind, why don't we start slow. This isn't really a porn shoot, it's just a modeling gig. You've done those before, right? Similarly, you are excellent at both backtracking if your attempts at leading them into lewdness backfire and disguising those attempts. Give us a twirl and a wink, lean forwards and pout, maybe flash your tits... One thing leads to another, and before they know it they're sucking your cock.

400 cp - I Came To Save You!

So, funny story. When Lucy Heartfilia got kidnapped and accidentally outlasted her captors, she did actually get rescued. By Erza Scarlet, who proceeded to rip off her shirt and reveal that she wasn't wearing a bra. Presumably she wanted to join in. Sadly, they weren't up for it, nor were able to get it up. Regardless, when it comes to nosy friends of your victim barging in wondering what's going on... They have a tendency to join in instead. Maybe they're secretly sluts as well, maybe they're offended that you think she's more beautiful. No matter which way you slice it, the rescuer will probably need rescuing as well.

400 cp - Kinklestial Spirit Mage

You know, it's a bit interesting that both Lucy and Yukino are massive sluts. Lucy at least does it for money - Yukino just likes getting gangbanged. Bless that woman. But nevermind that. What really matters is that once is a coincidence and twice is a pattern. No, don't correct the phrase, I meant it that way. See, right now, two is actually just under half the female celestial spirit mages. It stands to reason then, that the others are massive whores as well. In other words, you can basically infect a demographic with lewdness via fucking it's members.

600 cp - Making A Lasting Impression

I mentioned before that your words were convincing. Well, now they're a little bit more than that. See, you are now physically capable of literally beating a new fetish into some. With your meat stick. Not actual trauma. Anyways, through the oh so simple act of having sex with someone, you can 'convince' them that their favorite fetish is whatever kind of sex you just had. Go out of your way to creampie her a few (dozen) times, and the next session that'll be how she asks you to end it. Or maybe she just can't get into the mood anymore without you raping her throat? Well, it's up to you - quite literally.

600 cp - Charm Magic

Strictly speaking this is a Holder Magic, but it seems that some rich asshole has managed to actually learn it. And now, he's passed it on to you. Maybe you inherited it after he passed away from having his soul sucked out his dick aka too much sex? No, that can't be it. Regardless, Charm is an incredibly useful magic. Simply put, it causes whoever you target to fall in love with you and to believe that everything you say is the best idea they've ever heard. Bit heavy handed, but it works. Sadly, it's also rather weak. If someone were to simply tell them it was being used on them, it would basically stop working. But until then, please enjoy your new sex slave.

Fairy

100 cp - Ethereal Beauty

There must be some sort of correlation between magical power and personal beauty. There just has to be. How else can you explain the fact that Fairy Tail has enough top class beauties to host its own beauty pageant, and not a single one of them is out of place? Well, maybe a few not to taste, but still! Much like the other members of Fairy Tail, you are a top notch beauty. The kind of girl who gets a modeling gig by asking nicely - or who gets begged to do one.

100 cp - The Immoral Loli

Mages aren't exactly paragons of justice. Hell, Fairy Tail is full of paragons of collateral damage. But, a variety of personality quirks aside, most of them are, if not nice, then kind. Cheerful and upbeat, the kind of person that them being happy makes you happy. So it should come as no surprise that when you break that facade and do something utterly lewd, that it just makes the whole thing that much better. Especially if they weren't expecting it from you.

200 cp - Go Get Em Girl!

And of course, you being lewd doesn't just have to stop with that lucky guy - you can also inspire someone else to have a happy ending. Or in other words, you're great at giving pep talks. Mostly revolving around you convincing another woman to try some new fetish - or to have sex at all. Of course, its not like it just stops there. You're just inspirational in general, you know. It is easier for pervy things though.

200 cp - Morning After Magic

Sure, you could dose yourself up to the gills on contraceptives that you buy by the truckload. But wouldn't it be so much simpler to just cast a magic spell? With that in mind, you can now do just that. Maybe you bought it from a pawnshop, maybe you found it hidden behind a shelf in the library. No matter how you got your hands on it, you've found a simple spell that only drains a little bit of energy to temporarily remove your fertility. For 24 hours after casting, the chance of conception is zero. Warning, does not work on fetus more than a week old.

400 cp - You Can Beat The D

Mages in Fiore are a tad bit more physical than any other time and place. Squishy wizard is not a thing that exists here. The strongest also know how to cast fist. With that in mind, you now have a truly ludicrous amount of stamina. You know, the kind that could let you take on a fifty man gangbang and come out on top. Doesn't translate to speed and strength terribly well, but you can go on for days and days on pretty much no rest. An ordinary man would collapse from exhaustion long before you're satisfied.

400 cp - Mrs Not Appearing In This Porn

Urg, the nerve of some people, trying to tell you not to do something, that it's immoral, that it's nasty. Blah blah blah, it's also really fun! Sorry about that, let's move on. You have what I can only describe as a unique ability to sneak away unnoticed. See, when you do so, your friends are all fine and dandy, she's just gone home early or she's out on a job. Even your roommate wouldn't raise too much of a fuss if you 'went home' and weren't there later. On the other hand, if things go sour and you need a hand? They get a sudden urge to be nosy.

600 cp - Fairy Tail Ending

But of course, why would things ever go south? It's not like you're really in any danger whatsoever, right? Right. Anyways, while the story started with Lucy kidnapped and raped, it ended with her happily married and expecting her first child. Well, also very addicted to her new husbands cock, but believe it or not he didn't drug her. Or brainwash her. This version of Lucy just really, really, REALLY, loved creampiees. Anyways, even if by all accounts the situation looks like it or ought to be dark and nasty and ugly and maybe you waste away while high on drugs, and end up in a ditch somewhere... Those things just don't happen. Fairy Tail is ultimately a story where good wins, so if 'good' feels like being a massive slut, that's fine. But if 'good' decides to just walk away, she gets that option. Make any sense?

600 cp - Everybody Loves Lucy

Well, they must. After all, they made an entire series of books about her! There is no three, Wendy never got a solo, how *dare* you. Anyways, it seems that you're a fan favorite now. Remember earlier when I said they might just beg you to model? It's pretty much a certainty now. You are the star of any show you're in. It's not exactly romantic, but people you meet and interact with just have a tendency to like you - and of course, they'll tell their friends. Now sadly, there are a few downsides to being missus popularity. Stalking fans and the media, for example. Thankfully most of those are dealt with preemptively, though something completely over the top - cough kidnapped and raped cough - might get through.

Items

Rapist

100 cp - Gravure Photos

I feel like I've mentioned modeling quite a bit. I should probably explain that. See, Sorcerer's Weekly is basically a teenage heartthrob magazine, the hottest men and sexiest women, who the most popular is... And of course, with mages basically being for hire at all times, they'll actually work on commission for the magazine so it can have decent pictures of them. It also works as a good advertising scheme for the guild itself, so it works out all around. Anyways, you now have a number of pre-edit and or/rejected photographs from one such photoshoot. Who are the photos of? Well, pretty much anyone. And everyone. Now, none of them are even a little lewd, the closest you'll get to that is the bikini wars collection. But hot damn if they aren't going out of their way to be sexy.

200 cp - Drugs

As convincing as I'm sure you are, maybe you need a little extra push to get the girl fully into things. That's where these come in. Inside this simple pill bottle is an extra fun drug. It doesn't have a name less than thirty two syllables, so I won't bother. Regardless, the drug has an activation time of about ten seconds, and amps up the bodies sensitivity by a few dozen times. Often, the drag of clothing against a woman's body is enough to turn her into a quivering wreck. As a bonus, it acts as a massive aphrodisiac and is non-addictive.

400 cp - Loads Of Money

Oh, so this is how you get away with it! Specifically, you're rich as fuck. Well, maybe. What's more important is that you have a decently sized home, complete with a maid or two. On top of that, you do actually have a small fortune in the form of a small business. Your choice on what kind, though I would recommend a hotel chain of some kind. Never need to pay for a love hotel again! Best of all, the company basically runs itself, and even at its worst it generates enough money for you to buy a few dozen hookers a week.

600 cp - Mission Request

Not just anybody can place a mission request. Well, no, not really. Pretty much anyone can. Some people are banned though. And with the kind of mission you've posted, you really out to be. See, you've mastered the art of the fine print. This form sheet has slots for all the details for whatever job you might want to put it. But the secret is that you can just sort of... add on that they need to have sex with you, and despite everything, the mission goes through. Better yet? They don't have any problems with you taking advantage of their body - after all, by accepting the mission request, they've already agreed to let you do just that.

Fairy

100 cp - The Bar

Deep in the heart of the Fairy Tail guild hall is... a bar. Tended by Mirajane, more often than not. But that's not important. You have a similar bar, located somewhere easily accessible to you. What's more important is that the bartender seems to have a magic power relating to knowing who is lusting after you and wants to fuck you at any given time. Not sure what good that is, but if you ever wanted to get up close and personal with your fans, I'm sure she could help you out.

200 cp - Photoshoot Session

Like this for example. A magazine of some kind, or maybe a clothing brand, now has a standing contract with you for your assistance. Now, you can actually skimp out actually going, or even send someone else and you won't get in trouble. But if you do go, then it's a constant source of money for little effort. Something odd however - there's no name on the contract where the company ought to be written down. It seems that you can present this contract to any such company and have it honored.

400 cp - High Class Apartment

...that you don't have to pay for. Because you own it. Now, wouldn't that have cancelled out most of the plot of the story? Regardless, you now own a decently high end apartment or small house wherever your starting city is. It cozy and comfy, but I wouldn't try and throw any big parties. More importantly, it's impossible to lose somehow. You don't pay rent so you can't get kicked out, if the building were to get demolished you'd instantly get a perfect copy just down the street, even if you went bankrupt and lost everything you'd still have this. You get the idea, right?

600 cp - Celestial Spirit Key

If I had to guess what the prized possession of a Celestial Spirit mage was, it would have to be a Celestial Spirit Key. Which is why you now own one. Now, there are some limits. First, since the golden keys are all taken, you can only have one of them. Second, they have to be female. However, you are also allowed two silver keys in addition to the golden one. Better, since there are theoretically as many silver keys as there are stars in the sky, I'll even allow you to basically make up whatever you want for them. There are 88 constellations, and only about 20 Celestial Spirits are known. I would of course prefer them to be female, but I won't limit you on this one. Additional Silver Keys can be bought for 100 cp extra.

Companions

50 / 300 cp - Jumper Tail

What good is an adventure without friends to share it with? While that theme is much weaker here, it still stands. With that in mind, you can import a companion of yours into the world alongside you. The price is 50 cp per companion, or 300 cp for eight. Each one receives 300 cp, and cannot buy more companions or take any drawbacks.

100 cp / 300 cp - Guild Member

Or maybe instead of bringing someone, you'd rather leave arm in arm with someone? Well, we can do that. Now, normally I'd limit you to only those featured in the source material, but that reduces things down to two individuals. Three if you count a single picture of Erza showing off her tits. With that in mind, I've decided to take a somewhat lax stance. Instead of just Lucy and Wendy, you can pick any celestial spirit mage, or any dragon slayer. However, their power level is greatly reduced down until they are equal to the very first chapter/episode of Fairy Tail. Still quite strong, as natsu's collateral damage shows, but not anywhere near the bullshit they pull off later. To counter that, if you pay 300 cp per head instead of 100 cp, you can have their full power.

Drawbacks

+100 cp - Oldman Vocabulary

Um. Are you sure that you meant to say that? Because while I understood the words, it didn't make a whole lot of sense. ...Just checking. Anyways, you are now an accidental master of pillow talk. It's not bad per say, but it's not exactly sexy and is liable to be embarrassing if you stop to think about it. Now, impregnate my ass with your finger cocks!

+100 cp - Welcome to the Rape Club!

This all started when Lucy was kidnapped and raped. Keep in mind, Fairy Tail being it's upbeat self, it went quite nicely and nothing bad happened. Well, bad... No drugs or mind control or mutilation. Regardless, you are now going to get kidnapped and dragged to a similar club on a fairly regular basis. Once a month, minimum, at which point you're going to get passed around like a party favor. Yes, this also works if you're a guy - the women can be damn forceful, you know?

+200 cp - Dark Guild Member

So, Charm magic is actually really really illegal. You knew that, right? Anyways, it would appear that someone has fingered you to having it, regardless of whether you do or not. As a result, pretty much anybody who can be considered law abiding is now your enemy. And while I realize most mages guilds straddle that line, they count due to generally being nice people. If you don't want to get caught, I'd stay away from any named characters. If you do get caught, don't drop the soap.

+200 cp - Come Sail Away

Look, there's no way around it. You're addicted to a specific kind of sex. Maybe it's a drug, maybe it's a person, maybe it's just an overwhelming fetish. The thing is, you can apparently only get access to it through this one asshole. And he knows it, and will abuse it. Unfortunately, that addiction? You all but literally can't say no, and not for more than a day or two. Enjoy this asshole having a collar around your neck.

+300 cp - Magic Locked

In the world of Earthland, only about one in ten people can use magic, and even then not everyone can use it effectively. Magic requires a certain strength of will than some lack, even with the capacity to use magic. As I mentioned before, the Rapist origin lacks that capacity by default, though it can buy it. This is no longer true. In fact, you can no longer use any form of magic, from casting spells to wielding enchanted arms and armor. In fact, anything not directly technological somehow is currently offline.

+300 cp - Emerge

Fairy Tail may have it's downer moments, but as a general rule nobody dies and everybody lives happily ever after. Unfortunately, this is not canon, and is no longer bound to that rule. As a result the state of the world can generally be described as 'things get worse'. Now, that's not to say that the heroes always lose and the villains always win. After all, both sides are now in danger of getting raped into mindbroken sex slaves. If you need more details, the name of this drawback is a big hint.

Ending

The Journey Is The Goal - Move On

Take This Ticket - Stay Here

Happily Ever After - Go Home

Notes

The female Celestial Spirit mages are Lucy Heartfilia herself, Anna Hearfillia (Lucy's great grandmother), Hisui E Fiore (princess of Fiore), Katja (filler only character), Yukino Agria, and Sorano Agria/Angel.

The female Dragonslayers are Wendy, Kyria (post-canon), and maybe Irene Belserion (Erza's mother).

"So if fairies can use magic by default, what kind do we get?"

As with Bloom Pirate Hooker, I am not trying to replace the jump. The only thing you'd really get for free is Celestial Spirit Magic, and that's not actually the same thing as having any keys.
