Like Eggman you can display your power to the public and based on what you have done the amount of people will be to afraid to stand against you. Destroy a building? By collecting enough rings (Gather enough energy), you can give yourself a burst in speed.

**Chaos Control (600 SP, Discount for High Speed):** This ability is strange. With this you gain access to the teleporting ability that is known as Chaos Control. It can also stop time for about 5 seconds. Normally you need a Chaos Emerald to use this ability but seeing you are willing to pay to get, you get a version that doesn't need an emerald.

**There's no way you can do that with a fake emerald! (200 SP):** The way Sonic was able to escape his death while being stuck in the escape pod was interesting. And Shadow is right. There should be NO way that Sonic could use Chaos Control with a fake emerald and yet he did. Hell what if he can do that with other stuff? Like he's able to use Saber's Excalibur Attack with Caliburn or Do some the crazy stuff that Dante can do with regular weapons? Well Maybe not Sonic but you, You can. You can mimic some crazy attack or abilities as long as you have a "Close Enough" Substitute for the items required.

## HERO + SHOOTER

**Transformation Tech Expert (200 SP):** Well Genius Inventor delves into transformation technology. This perk makes you a master at it. You take plane give it a jet mode, walker mode, car mode, or battle armor mode. The only limitation is your creativity...and your resources of course.

**How are you driving that? (200 SP):** The Chao should not be able to drive a robot. Yet, there is the Chao Walker a Mech created by Tails that is being piloted by a Chao. Which hard due to the lack of fingers...and the fact they're basically young children mentally. You also have this strange ability of being able to operate a vehicle despite your limitation.

**Just Like The Original Emerald (200 SP):** The plan that the heroes came up with to stop Dr. Eggman was to use a fake emerald to cause the eclipse cannon to blow up. But the fact Tails was able to create a fake Chaos Emerald is impressive. You too have this ability, to create a near perfect duplicate of an item, no matter what it is.

**Give up the Emerald or Die! I don't love you! (200 SP):** Strange that Knuckles isn't even fazed by Rouge's appearance when she first arrived to take the Master Emerald. Hell, it looks like that any of Rouge attempts to persuade him don't work. This untemptable mindset now applies to you

## DARK + SPEED

**True Power of Chaos Control! (200 SP):** X Sure some can use the teleporting abilities of Chaos Control. But very few use the true power of Chaos. You are one of those few. You have access to Shadow's Chaos Spear. A projectile attack that fires several energy lances at a target.

**Activate Defense Protocol (200 SP):** Good Offense is a Good Defense. I dunno who said that but it definitely applies to you. You can create a black prism barrier to surround you it renders you Untouchable for about 15 seconds before it fades, then you have to actively channel energy to keep it going. It can block attacks and you can use it damage enemies.

**I Promise You Revenge! (200 SP):** Emotions can powerful motivators. They can give a person a small push that they need. This is true of you. Except your motivation is Vengeance. It can be the smallest of offenses and you can gain a boost from it. Someone cut you off in traffic? You gain a small boost. They put someone you love the hospital in a near death state? Your basically Super Saiyan now.

## DARK + SHOOTER

**Space Pilot (200 SP):** Space the final frontier. Without the proper skills it would kill you for daring venturing into its mysteries. But you are not afraid you know how to fly in the depths of space. Almost as if you're in Star Wars, don't worry though its not like you are going to find any space ships that can fire weapons on you. Though space Creatures are a viable possibility.

**How are you driving that?! (200 SP):** The Chao should not be able to drive a robot. Yet, there is the Dark Chao Walker a Mech created by Dr. Eggman that is being piloted by a Dark Chao. Which hard due to the lack of fingers...and the fact they're basically young children mentally. You also have this strange ability of being able to operate a vehicle despite your limitation.

**Robotics Expert (200 SP):** When it comes to robotics you the cream of the crop. You will always be able to create the most sophisticated machinery that anyone has ever seen, regardless of what you have one hand. Hell you can even use animals to power up these very machines. Best part these robots won't be downed by conventional means it would take the likes of Sonic to destroy them. The only limit is your creativity and your intellect.

## DARK + TREASURE HUNTER

**Double Agent (200 SP):** You're working with Eggman right? Well, yes and no. What you really are is a double agent. You need to keep cover of course. So you know how to convince people that you are on their side. Whether this is true or not isn't important, but if you need to relay information to your real employer you won't have a problem finding a time and place to contact them because people will trust you enough to leave you unsupervised alone. Though don't expect this to always work. People who pick up on the smallest of details will see through your façade.

**Master of Water (200 SP):** Water it exist in all living things. People need to live and survive but you use it to fight. You use water to lengthen your limbs to strike and use the moisture in the air to create dangerous water based attacks.

These Chao will be counted as companions after this jump so do take good care of them. Now I know what you're thinking: What's so special about this place and these Chao? Simply put the Chao are adorable little creatures that are basically like babies. You can feed the fruit to help them grow and pet them to make them good. But one important that they can do is that they can absorb the traits from the Small Animals which will in turn improve their stats, which are: Swimming, Flying, Running, Power and Stamina. Stamina is

only improved by feeding them fruit. However, in your case you can give them any animal or object of power and they'll improve from it. They also can evolve into different forms once they reach a threshold. For more information go [here](#)

**Chaos Emeralds (400 SP):** Well, these aren't THE Chaos Emeralds per say but they are a perfect replica made by our benefactor. Anyways they have all the advantages that the normal chaos emeralds have. Use them wisely Jumper

This means that the original gun that your mech came with gets an upgrade that will do more damage over all.

**Laser Blaster (400 SP, Discount for Shooter):** The Missile Launcher that mech is equipped is a good weapon. But it can be better right? Meet the Laser Blaster. ## **TREASURE HUNTER**

**Digging Gear (100 SP, Free for Treasure Hunter):** This item is actually an attachment to your gloves or shoes. But the idea is the same. It allows you to dig through surfaces easier. Dragon Ball Style Scouter, Sunglasses, etc. That's on you.

## **HERO ITEMS**

**Air Necklace (100 SP, Free for Hero):** Now seeing swimming is more prevalent in this setting when compared to Sonic Adventure one, there are gonna be times where you are going to be underwater for extended periods of time. Which means you might start hearing the drowning song. Not with this in your possession. What this is, is a rebreather that always works and never runs out. Meaning you can stay underwater as long as you want.

**Bounce Bracelet (200 SP, Discount for Hero):** This one is an easy one. This high tech watch-looking bracelet allows you to preform the bounce attack. Basically you form into a ball and slam into the ground and bounce up unharmed. Good for enemies directly below you or bouncing up to get to a higher place.

**Magic Glove (400 SP, Discount for Hero):** What a strange looking wrist attachment. But what it does is stranger. Basically when you are standing near a robot enemy you can activate to use the Magic Hand which entrabs the enemy in a small ball that you can throw. Also if the enemy had a Small Animal or Chaos Drive inside; those get left behind for you to collect. However it only been used against robots but you could theoretically use it against other things.

## Dark Items

**A Laser gun (100 SP, Free for Dark):** Now this isn't the laser blaster item. But a hand-held pistol that shoots lasers.

MWAHAHAHAHAHAHAHAHAHA!!!" You have chosen to take Dr. Eggman with you

## SCENARIO

Now for the scenarios. Instead of having to take both Hero and Dark Story to access the Final Story, you only need to do one of them. There is a special reward if you do both.

**Hero Story:** What is going on here?! The moment you come here Sonic has been arrested for a crime he did not commit. There's something fishy going on. Work with Sonic, Tails, and Knuckles to uncover a secret that has been long buried to help clear Sonic's name and stop Eggman's recent plan. But in addition Amy, a Chao piloting a mech called Chao Walker and Tikal will also be joining with their own missions. Amy has heard that has been sighted again Metal Sonic. She intends on defeating this mechanical duplicate of Sonic herself. The Chao of the Chao Walker is actually a rival to a Dark Chao who is piloting their own Mech, said Dark Chao is working with Eggman, as a result this chao is Helping in order to defeat his rival. Finally, Because of Eggman and Rogue Knuckles had to break the Master Emerald. In doing so Knuckles released Tikal and Chaos O. Tikal simply want to return into the Emerald and thus is helping Knuckles collect the Master Emerald shard

**Reward - Super Sonic Warrior:** Well as a reward for helping out your body has adapted to survive in a vacuum. In addition you're strength, speed, agility, durability and Stamina has increased dramatically. You now have control over wind, sound and lightning. But the big draw is the other affect of this new perk: You are in complete control of your speed no matter how fast you are going. You will never slip or lose control over yourself. This ability also goes by Kinetic Energy Manipulation with all that entails. Now go Super Sonic Warrior! Oh and also you can take Sonic, Tails, Knuckles, Amy, Chao Walker Pilot and Tikal with you as your companions if you wish or you can take only a few of them its your call.

**Dark Story:** Well this is a first for a Sonic game. Instead of fighting against Eggman you fight alongside him. This is true of this scenario. You must Help Eggman collect the seven Chaos Emerald and bring them to the Ark. However this will be harder than it was in the games because you will be helping not only Shadow, Rouge, and Eggman but also the Metal Sonic, the Dark Chao piloting the Chao Walker, and Chaos 0 in their missions. Metal Sonic wants to destroy Sonic, the Dark Chao wants defeat the Chao Walker, and Chaos 0 just wants to return to the Master Emerald.

**Reward - Master of Chaos:** Well as a reward for helping out your body has adapted to survive in a vacuum. In addition you're strength, speed, agility, durability and Stamina has increased dramatically. You now can control water and dark energy. But the big draw here is the other affect of this perk: When it comes to Chaos Energy you can manipulate as easily as child plays with a toy. Show them the true power of Chaos, show them the true power of CHAOS CONTROL! Oh and also you can take Shadow, Eggman, Rogue, Metal Sonic, Dark Chao Walker Pilot, and Chaos 0 with you as your companions if you wish or you can take only a few of them its your call.

**Final Story:** Whether you completed one of the above scenarios or both doesn't matter right now. As Eggman reveals that the Ark is on a collision course with earth and the only way to stop it is to use the Master Emerald itself to stop the Ark...well then there's the prototype ultimate life form Biolizard who will try and stop you. Then it will attached itself to the Ark to continue its collision course but for some reason it has become much stronger than canon. Which means Anyone that is able to go Super is going to go Super to attempt to defeat Biolizard or as it's called now Final Hazard (Sonic, Shadow, Amy, Metal). Those who can't go Super will find that there are remaining bot on the Ark that are trying to help jump start the generator in order to speed up the process (Everyone Else).

**Reward - The Real Ultimate Life Form:** This perk works two ways. First whatever Shadow and Biolizard had that made them powerful you have. You have slight gravity manipulation being able to mess with the gravity within 40 square feet of you. You can fire dark energy balls. And summon and fire small spheres of energy. In addition you are immune to all diseases. Also you grant any of the companions you have earned in this section their own super form to have if you so wish, though I wonder what a Super Eggman would look like.

## DRAWBACKS

**Strange Dialogue (+100 SP):** People here talk weird. Making it hard to make conversation with them or to get information about the place.

**Clumsy (+100 SP):** You can't seem to go two feet without tripping. Which may cause problem when you are zooming around.

**Easily Fooled (+200 SP):** You are naive and gullible. People can easily trick you into believing something that might be blatantly false but you wouldn't know that until someone else tells you or until its too late.

**Too Slow (+200 SP):** Everyone else is moving at crazy speeds while you're are only moving at normal human speeds. Don't get me wrong you can go up to Usain Bolt's speed (Available in the body mod) But no faster than that.

**Bring em on! (+300 SP):** Eggman has been busy with his robots. Enemies will be coming in the droves now. Where there were once 12 enemies in a stage there will be 48. That's right 4 times the enemies! You going to have to deal with here. Silver lining: You will have plenty of small animals for your Chao.

**Tricky Layouts (+300 SP):** Now the some areas are like a maze! Expect to get lost plenty of times before finally getting to your destination.

**More Resilient Foes (+400 SP):** X Normally all it would take to defeat Eggman's robots would be one homing attack or one shot from E-102's gun, now they can take a beating

**Smarter Baddies (+400 SP):** There's no way around it. Eggman's Robots aren't as advance in the intelligence department as Gamma or Metal Sonic. Now that's not the case. They can now plan and anticipate attacks. This also means they can work in tangent with Eggman's schemes and can even create ambushes Be careful

**No Outside Perks (+500 SP):** This is your run of the mill no perks not purchased here allowed drawbacks

**No Outside Info (+500 SP):** If you have any memories of this world from the games or from Sonic X, those will be removed from you and your companions. You will be flying blind when you enter this jump.

**Enemy of GUN (+600 SP):** GUN is a military group that is supposed to be making sure that humanity is safe from any threats. For some reason they see you as a threat at large. Basically like Sonic you are going to be on the run from these guys from start of your jump until the end (which is basically the end of this jump any ways)

**All of you ungrateful human shall be destroyed (+600 SP):** Dr. Gerald has somehow able to upload his consciousness into the computers aboard the Ark. As a result once Shadow is released, Gerald will be sending out robots of his own. About when Eggman uses the eclipse cannon these robots will be on earth ready to attack. Their first target: YOU! These robots have designed to imitate chaos and some have the ability to absorb GUN robots to make themselves stronger. The only way to get rid of them for good is to stop Gerald. Basically go through the entire events of the game and defeat a Biolizard with Gerald Consciousness

## **ENDING:**

Go Home: Time head back home you had enough jumping adventure.

Hold on to What if: Stay Here
