Sundrop and Moonstone

It is unknown what will happen if both the Sundrops and Moonstones powers are brought back together under the control of one person. Though it is known that the conflict between these energies can rip open portals between dimensions, which suggests that the controlled utilization of the merged powers may allow for portal generation and control as one of its abilities.

Sundrop Flower (300 CP): You gain a copy of the legendary Sundrop Flower. The Sundrop has two incantations, the Healing incantation and the Hope incantation.

There may be other uses for the Sundrops power to be discovered.

The Hope Incantation is a second spell of pure light and hope of the Sundrop Flower. It allows for the wielding of the burning energy of the sun, this provides levitation and flight, offensive blasts, and its full capabilities remain unknown. Causes the wielders eye to glow with the energy of the sun while wielding its light.

The Sundrops main abilities include Decelerated Aging, Longevity, Resurrection, and healing minor or even fatal wounds.

The Sundrops' power is the embodiment of Light and Life itself.

Moonstone Opal (300 CP): You gain a copy of the legendary Moonstone Opal. The moonstone has two incantations, the Decay incantation and the Black-Rocks incantation.

There may be other uses for the Moonstones power to be discovered.

The Decay incantation drains life and magic energy into the wielder and if uncontrolled will kill all living things in proximity from plant life to living beings.

This will also change the wielder's hair black and eyes black with green pupils.

The Black-Rocks incantation allows the wielder to gain complete control over the electrified dark earth of the moon. This allowed for complete control over the generation and manipulation of the black rocks rather than the previous ability to simply generate basic spikes of black rocks at-wil.

The Moonstones abilities lean towards a more destructive bent than the Sundrop as its powers relate to death, ruin, decay, disintegration, nothingness and destruction. It has enough power to render an entire kingdom uninhabitable and devastated.

The Moonstones power is the embodiment of death-force itself.

Scenarios

Scenario 1: Sun and Moon

Goals:

You must somehow during your stay gain control of both the powers of the Sundrop and the Moonstone, how this is done is up to you but the copies bought with CP do not count towards this goal.

There are many ways you can try to accomplish this as you could steal the Moonstone for yourself and attempt to drain the Sundrops power from Rapunzel, you could allow the battle against Zhan Tiri to happen and try to absorb the released powers after the fight is won, or you could simply find another way to transfer the powers from Cassandra and Rapunzel to yourself. How you accomplish this is up to you, the only thing that matters is that you do this before the end of the jump.

Reward:

Perk: Powers of Sun and Moon

You gain a copy of the power of the Sundrop and Moonstone merge within you as Rapunzel originally had the Sundrop powers as her own with her being the earthly avatar of the Sundrop, rather than Cassandra's simple merging and utilization of the external and vulnerable Moonstone. **This means you will have access and control of the abilities of both items as well as whatever the merged ultimate power is.** How this manifests in your own hair and eyes is up to you, whether you have the golden light of the Sundrop, the electric blue of the Moonstone, a combination of both, or something completely different is up to you.

Companions: Rapunzel and Cassandra

You also gain the ability to grant both Rapunzel and Cassandra their own respective powers back and in Cassandra's case having it be internalized as part of her like how Rapunzel is the living embodiment of the Sundrop.

Scenario 2: Cassandra's Tangled Adventure

Information:

You can include the Fanon comics by Ameila H. as cannon to explain Cassandra's disappearance from the wedding and to provide a further framework for adventures.

Please note that in this addition that Cassandra is at least Bi or possibly fully Gay and left due to not being able to handle watching Rapunzel be married.

Do what you will with this and incorporate it as you will.

Twitter link to the comics: <https://twitter.com/amegosh/status/1357897624611864576>

Goals:

Go on further adventures with Cassandra, with or without Rapunzel. You should meet new people and travel across the entirety of the Seven Kingdoms and uncover further perils and threats to Corona that need to be dealt with.

This is a free form way of adding more adventures to your ten year stay here and you should at minimum run into one more threat to Corona and the Seven Kingdoms on par with Zhan Tiri.

Have Fun! And remember the adventure and threat should focus on Casandra and not Rapunzel as this is her adventure, maybe tied into her being Mother Gothals legitimate child for example.

Reward:

You are guaranteed to gain Cassandra as a companion for free.

Scenario 3: Varian and the Seven Kingdoms

Information:

This adds the Fanon and unproduced idea for a Varian spinoff and world expansion into your world.

Upon finding an almanac that belonged to his fearless and adventurous mother who had gone missing during one of her trip, It also showed Varian that his late mother had a similar interest and drive toward alchemy that he did and it as on one of her adventures to further her knowledge and ability that she went missing.

Varian then decides to travel the seven kingdoms to learn all seven Alchemical Laws and obtain forbidden knowledge. By completing his mother's work he hopes to discover who he is as well as discover his mothers fate and if possible be reunited with her.

To this end he would travel to each of the seven kingdoms and learn one of the seven stages of alchemical transformation and would receive a totem. Upon collecting all seven totems and their accompanying knowledge he would be able to use them to reunite with his long lost mother who had been betrayed by her former partner Denella a long time ago. Unfortunately it is revealed upon freeing her that she had been sealed away by her former partner after she had been corrupted and taken a villainous turn that she can hopefully be brought back from.
