However sometimes they will try to steal the technique from you or use it to harm your descendants. This perk prevents that by allowing you to put conditions or specific requirements in order to use anything created by you. For example if you had a hated rival and didn't want someone to inherit both of your techniques you could lock it so that they wouldn't be able to understand anything when looking at it.

Another benefit of this is that it prevents the information from being taken from the mind of those who have your permission. For example if a student decided to create thier own faction they would hold the same reverence for you that your own children would. In addition they will always stay true to any teachings or goals you pass on to them.

If you decree that family is above all else they will endeavor to embody that concept. Betraying the family will become unthinkable no matter the circumstances. Among demons one of the most common personality traits is they're desire to dominate and prove their superiority. This perk allows you to essentially beat respect and adoration into your foes or for those who witness you in combat to admire you.

The amount depends on how intense and how many times you do so. For example one intense beating could force an opponent to have immense respect for your power, but still dislike you. However if you fought alongside a group of soldiers numerous displays of might could evolve into death sworn loyalty and adoration. A specific example would be when Qin Wentain kidnapped Chu Qingyi after she attacked his junior brother. While she was held captive she started to admire his strength and eventually not only stopped hating him, but fell in love with him. You may perform similar feats by displaying your power.

### **Tyrannical Body 200cp**

After they grew stronger, they started to hunt high-graded bloodline demonic beasts to eat so as to strengthen themselves, constantly using this method to make up for their innate deficiency, fighting on the boundary of life and death as they were at the risk of dying as well.

Such demons who grew powerful using these methods were all extremely terrifying. It was unknown how many high-graded bloodline demons died in their hands. You possess this ability as well. By hunting those with higher tier bloodlines and power you can absorb their strength by devouring them. The more you devour the more you grow.

### **Human Beast Transformation 400cp**

After reaching a certain point in their cultivation most beast are capable of assuming a human form. This perk allows you to use a similar ability regardless of cultivation. The greatest benefit is that this enhances your cultivation talent. A Demon genius already possesses immense talent considering their limitation, but this boost it to be equal to a human genius. Taking this as a human will still provide an immense boost. Not quite from normal genius to Qin Wentian, but still an incredible boost.

### **Divine Beast 600/800cp**

You have the bloodline of a divine beast. After they have fully grown true divine beast are practically walking cataclysms. Unbound by any force and requiring a dozen that match their stage to combat. You are either the direct child or a descendent who somehow awakened your bloodline. As long as you don't die you will be able to reach the peaks of your ancestors and eventually you may be capable of surpassing them.

There are other benefits as well. As demons hold strength and bloodlines in immense regard those with similar bloodlines will either submit outright or be weakened when fighting you. An example would be as a Phoenix or Roc bird type demons will be either submissive or respectful when meeting you. If there any unique arts specific to the bloodline you choose you will receive those as well.

Lastly if you pay an additional 200cp you may directly purchase a variant bloodline that combines two other royal bloodlines. Some example of the variants would be the

phoeroc (phoneix and roc), the sun gold race (the sun crows and the golden beast),

### **Return to Origin 600cp**

Among demons the purity of your bloodline determines your status. This Perk ensures your bloodline has no equal. Any bloodline you possess becomes to the progenitor and can exist in harmony with others. For references much like the immortal foundations of human beast have a similar scale for bloodlines. This perk ensures any bloodline you possess no matter who distant is enhanced to the point you would equal or surpass the Saint level bloodline holders.

Gathering more bloodlines will grant a multiplicity effect on your strength due to the harmonious existence within you. An example of this is the Phoeroc a variant demon of the Phoenix and Roc bloodlines. It possesses an unmatched speed even when compared to other Rocs and the nirvana flames of the Phoenix.

At the higher levels you may not have enough time to impress them or even be worthy of meeting them if you are only here for 10 years. Keep this in mind when making your purchases.

## **Drawbacks**

There is no drawback limit, but make sure you can handle whatever you take.

### **Reach the summit or die 0cp**

The road that many follow on the path of cultivation is a long and arduous journey. Even the most talented cultivators can take thousands of years to truly reach the peak. Taking this drawback requires you to reach the level of the Godking in order to be allowed to leave the jump.

### **Extended Stay +100cp**

By default you are only staying in this world for 10 years however, there are many unimaginable opportunities that exists in this world. Each time you take this drawback will extend your stay by another 10 years. You may take this drawbacks as many times as you wish.

### **Old Injury +100cp**

Some time ago you were badly hurt. Most of the damage healed but it left its mark. Maybe you lost an eye or one of your limbs. It's not going to ruin your life especially with all of the medicine designed to heal you in this world, but you'll be stuck with phantom pains and miss what you lost until you find one such opportunity.

### **The Young Master! +100cp**

Oh dear, it seems you've been afflicted with one of the most common issues of the cultivation worlds. You have the arrogance of a young master. As you grow stronger you will become increasingly arrogant. This is guaranteed to cause you problems at some point.

### **Obsessive Stalkers (Requires Heavenly Fairy) +200/300cp**

As mentioned in the perk sometimes being too attractive in a cultivation world can be a disaster. In your case you are guaranteed to be pursued by members of the opposite gender. They will always either have high statuses or immense personal power.

For 200cp they can be reasoned with even though they will likely have caused some trouble or entangled you in their situations. If you have the capabilities maybe you can make this into a bonus.

For 300cp that's not happening, any ability to reason with them has completely failed. They will demand you become involved with them and will be hostile to anyone else pursuing you. Should you refuse then they will try to kill you or imprison to prevent others from having you.

**Dirt Poor +200cp**

Cultivation requires a vast amount of resources, but it seems that you can't keep hold of any for long. No matter how many resources you receive or earn it seems something will always cause you to lose them. Hopefully you don't intend to do anything that requires you to save up first.

**Unintentional Inheritance +400cp**

Congratulations you've acquired an inheritance equal to a purchase of the 500cp Unique technique. Unfortunately you weren't trying to get it and there was a large amount of other cultivators trying to claim it. While you were receiving the inheritance the guardian told everyone that if they killed you they could claim the inheritance for themselves. Unless you demonstrate that technique is not worth offending you for you will be continuously pursued by many different enemies. Good luck

**Personify the Dao +400cp**

Many people are influenced by the techniques and Daos they cultivate or they choose it because of their personalities. Someone who cultivates a Fire Dao would likely be a fiery individual, or someone filled with passion. There are some negatives aspects though. They may also have a raging temper and lash out at minor offenses.

Whatever path you cultivate will influence you in the worst way possible. For example cultivating an ice technique will turn you into a frigid and unfeeling person. It may be possible to try and balance yourself out, but even the slightest misbalance will result in both negative aspects erupting.

**Wrath of the Main Character +600cp**

It seems you done something to piss Qin Wentian off to the point he hates you more than anything else. Maybe you slaughtered some of his allies or humiliated one of his lovers. He will start off at the strength he possesses in the beginning of the story and grow stronger. He will continuously hound you until one of you dies. It is possible to kill him before he reaches the peak, but he is a protagonist and has abilities befitting that title. If you survive until he becomes an Ancient Godly Monarch he will challenge you to a one on one life and death duel. You cannot leave the jump without killing him.

**Pissed off faction +600/800cp**

You've managed to anger an entire faction. This could be one the major sects or one of the great clans. Regardless they will attempt to hunt you down and eliminate you. It will start off with small teams and an occasional real expert, but as time goes on they will devote more and more resources to hunting you. In the last year of your stay they will devote all of their resources towards killing you.

- For an additional 200cp you choose an major organization/clan such as the Qin Clan. This can be taken multiple times for multiple factions.

**Wrath of the Mighty +200/400/600/800/1000**

Somehow you have made a mortal enemy. They will stop at nothing in order to kill you or to harm you in anyway possible. The level this enemy takes will depend on what tier you choose. You may choose the tier multiple times and choose different levels. Keep in mind though if these people learn about each other it's very likely their hatred of you will cause them to team up. This will quickly make them exponentially more dangerous.

For 200cp you have a Immortal after you. For 400cp you have an Immortal King after you. For 600cp you have an Immortal Emperor after you. For 800cp you have made an enemy of a Emypyrean stage opponent. For 1000 you have made an enemy of one of the Overlord or a new enemy has appeared on this level for the sole purpose of killing you. To ensure you have a chance you will have at least five years before any of them come after you. This is assuming you are only here for 10 years.

If you Take Reach the Summit or Die they will wait until you reach the appropriate cultivation. Meaning if you reach Immortal King all of your Immortal King enemies will pursue you rather than allowing you to get stronger. While they may not personally act until then they will still try to make things difficult for you. For example by sending their subordinates to harass you.

## **Scenarios**

You may take any number scenarios if you pass the requirements. In addition you are unable to proceed to the next jump until you accomplish this goal. All scenarios take place after the main jump so there is no need to worry about conflicting goals or lack of time.

### **Major Scenario - Steps to Claim the Heavens**

For this scenario, you replace Jin Wentien. Your starting time and location will be set too right after Qin Wentian helped Autumn Snow condense her Astral Soul. The jump will last until the story ended canonically or you die. You will face all of the challenges that Qin Wentian did without his plot armor and abilities unless you purchased the relevant perks. You will receive all of the same opportunities to succeed as he did however should you follow his path.

Rewards: For completing this scenario you will receive a variety of rewards. First any technique or item you learned/gathered through your journey will gain Fiat backing. Second all restrictions on any ability you gained whether through an action in the jump or by purchasing it will have its limits removed. Lastly you will get to take ALL of your friends, family, and forces with you. This will include any territory, empires, and whatever areas you control. You may choose whether they all share a single companion slot or if they are divided up based on their affiliations.

### **Major Scenario - The Demon God (Must have Divine Beast)**

Humanity has always reigned supreme despite the power of demons and beast. Your goal is to overturn this for this scenario. There are a two main methods to go about this. By default the scenario is restricted to one of the 33 Heavens, but optionally you may increase the goal to expand into another Heaven as well up to all 33 if you are confident. The rewards will be multiplied by each Heaven you succeed in taking should you do this. For example if the perk boost is x2 by default taking all of them will increase it up to x66 or for the simpler reward your army and territory will become exponentially bigger.

The first would try gathering an army. First you must prove yourself and unite the demons under you. This will be easier the stronger you are and the higher quality your bloodline is. Using this method you can assemble an army of demons and wage war against humanity. Once you have taken complete control of the entire Heaven you will have succeeded.

Second is a more difficult option path. This path is to rely on your own strength alone. Doing this will be far difficult as everything will be done yourself. You must either must have unmatched combat prowess or use guerrilla warfare do to the vastly

numbers against you. You will succeed once you are the undisputed leader of the Heaven.

Rewards: Your reward will depend on which method you used.

- For the first method you will receive multiple rewards. Obviously you are going to want to bring the army you assembled with you as well as your territory. Second by uniting all the demons you will be able to take up the mantle of the demon god. This will grant you immense respect from any demonic or bestial being you encounter. Although this is more focused on say a divine dragon rather than a literal demon such as Lucifer. Lastly your bloodlines will be refined and you will be able to establish yourself as a peer or even a superior of the greater demon gods.
- For the second method by utilizing your own strength you dominate all you gain the ability to do so in the future. First you will officially be a one monster army. As long as you are stronger than the opposition numbers will become irrelevant as you demolish all until you meet a worthy foe. Second you will be able to overturn concepts through strength. For example in a fantasy world where Orcs might be dumb brutes incapable of anything else struggling to survive. Your presences will inspire them to greater heights allowing them to shatter previously held notions. Perhaps they will even reach the peak with you at the head eventually. Lastly having displayed your might and abilities and affects related to intimidation and domination are vastly boost. Examples of this would be inspiring fear in your enemies, causing people to obey you, or simply the sheer ability to dominate and seize control of other beings or places.

### **Minor Scenario - Save the Grand Xia**

Long ago the Grand Xia was uniting by a heavenly genius so amazing that practically every modern genius isn't worth being mentioned in the same sentence. Unfortunately when the mighty emperor left his empire became infested with power hungry traitors and spies. You must take up the role of the guardian and then succeed where those in history failed. You must stop the empire from being divided and falling to the traitors. You will receive the assistance of the loyalist such as the royal family and their allies, but you will start outnumbered and possibly outmatched. You will arrive three years before the rebellion starts. Perhaps you can use this time to shine brightly and alter fate.

Rewards: For completing this task you will receive three rewards. First you will become the new emperor of the Grand Xia and may take everything you have saved with you. All of the lands you control, all of the organizations still standing, and anything else under your banner will follow you. Second you will receive the heavenly beauty Princess Tianyu. In the original timeline the princess suffered a horrible fate, but having averted it you will gain the Princesses hand. She was often called the most talented and beautiful woman of the era. Lastly as they have not been stripped away by the traitors you may take the Heavenly Steele. It contains insight into all nine ultimate arts and can be used to temper either yourself or set up as legendary

training area for your subjects.

### **Hero of Azure Mystic - Major Scenario**

Long ago Azure Mystic was a powerful heaven more than capable of fighting the other heavens. Unfortunately this fortune drew the jealousy of others. Dozens of hegemonic powers allied together to attack Azure Mystic and steal their fortune. The main reason however they dared to do this was that Azure Mystic didn't yet have a true supreme power that united them. The goal of this scenario is to form one such power and to prevent Azure Mystic from falling. You will not be alone if you seek help. The Imperishable Heaven Lord and the Grim Reaper are nigh unmatched cultivators who will gladly fight side by side with you.

In addition there is an optional objective as well. Despite the many powers uniting against it the main reason Azure Mystic fell was due to the Buddhist in the Western World. They are led by a surviving GodKing and are a terrifying foe. Take vengeance for those who died and either seize control of the western world and slaughter those responsible for this. Go forth and change fate.

Rewards: The rewards for this scenario are simple, but bountiful. First by preventing its fall you will become the leader of Azure Mystic and all of the forces under it. Taking it with you as a territory. Second you will receive the Imperishable Heaven Lord and the Grim Reaper as companions. The Imperishable Heaven Lord is considered the strongest and most beautiful female cultivator in this universe. She is a master of soul attacks and was only killed originally when the God king of the western world and numerous deities united to kill her. The Grim Reaper is a master of death befitting his title. In the original timeline after the Imperishable Heaven Lord died he slaughtered numerous powers and sealed off Azure Mystic from those coveting it. He alone kept the other heavens away due to their fear of his retaliation.

Lastly should you have completed the optional objective there will be some rewards for your efforts. If you desire you may take the entire Western World with you for your efforts as an additional territory. Next will be the massive reservoir of knowledge on Buddhist techniques. This will contain methods involving Samsara, Fate, Reincarnation, purifying methods, and many more. Lastly as an effect of this you will gain a massively boost in talent for anything related to the Buddhist techniques granting you the ability to master the 3000 daos of buddism.

## **Ending**

Go Home: Maybe your time in this world made you realize life wasn't that bad. Go home with the abilities you've gathered and enjoy your life.

Stay Here: Maybe you've gotten attached and are determined to make this your home. If you really want to stay here take +1000 CP for additional purchases and get ready for the long-haul here.

Keep Going: Perhaps this is just one more stop on the road for you. Maybe you did nothing or maybe you changed everything. Regardless you're determined to continue your journey. Maybe the next world will be a bit nicer than here.

### 4th Heavenly Dipper Realm (Heavenly Dipper Sovereign)

Heavenly Dipper Realm requires the comprehension of Second level Mandate.

“Heavenly Dipper Realm, is to condense stars of the Heavenly Dipper, also known as Astral Nova. At that time your Astral Soul, would be then, your most direct method of combat.

For some cases, Astral Novas were even more powerful when compared to using Divine Weapons.” “Sooner or later, the Astral Soul itself would transform into an attack-type innate technique. However, to condense Astral Novas, a cultivator would require a truly astronomical amount of cultivation resources to step past the gulf that separates Yuanfu and the Heavenly Dipper Realm.

### 5th Celestial Phenomenon Realm (Celestial Phenomenon Ascendant)

The Celestial Phenomenon Realm requires the comprehension of one's Mandate to reach a brand new level that surpassed the Perfection Boundary of the second level insights. And this level, is also referred to as the true intent of Mandates.

### 6th Immortal Foundation Realm (Immortal)

To become an Immortal one must form an Immortal Foundation. There are different grades for the Immortal Foundations. Immortal foundations have six tiers that can be broken down into three grades. The first three tiers are known as the mortal grade, the fourth tier is known as the immortal king grade, the fifth tier is known as the immortal emperor grade, and lastly, the sixth tier is known as the saint grade.

- 1st Tier - Mortal Grade; Weakest
- 2nd Tier - Mortal Grade; Next Best
- 3rd Tier - Mortal Grade; Slightly Good, they are considered ordinary but better than average and still have enough potential to obtain some achievements during the immortal-foundation realm. The vast majority of people in the immortal realms have all established a 3rd-tier foundation.
- 4th Tier - Immortal King Grade; has enormous opportunity to become Immortal King or even an Immortal Emperor. Currently, among the many immortal kings in the immortal realms, the majority of them have established a 4th-tier immortal foundation.
- 5th Tier - Immortal Emperor Grade; Only the supreme immortal emperors who've stood at the very peak have managed to establish an emperor-grade immortal foundation.
- 6th Tier - Saint Grade; Makes an inborn phenomenon when breaking through this grade. In order to establish a Saint-grade Immortal Foundation, one first has to

establish a supreme indestructible body.

#### 7th King Realm

After establishing their foundations and reaching 9th stage immortal foundation the cultivation must form a body of laws and craft their domain. Once they reach this point they are officially Immortal Kings. Immortal King and the Emperor realm divide differently, Immortal King and Immortal Emperor, both are King Realm, to separate out, Azure Mystic Immortal Realm has a detailed division to Immortal King and Immortal Emperor.

#### 9th Emphyrean

In the Emphyrean Realm, there are no level distinctions. Whether a person is weak or strong depends on their own comprehension of natural laws. At this level, cultivators are trying to comprehend the source origin of their laws and then later on trying to fuse them together. This will lead them to forming Heavenly Heart Consciousness and eventually the World Overlord level. On the other hand there are some extraordinary beings who would first comprehend their World Heart and then later comprehend their Heavenheart Mandates

#### 10th World Overlord

This is the level where one can truly say my will is heaven's will. Must comprehend World Heart, controls Heavenly Heart Consciousness. Everyone can only have one World Heart, and can have multiple Heavenly Heart Mandates. The World Heart is the fusion of principles. World Hearts and Heavenly Heart Mandates are complementary to each other.

If the person is the tree, the Boundary Heart is the root, and the Heavenly Heart Mandates are the branches and leaves. The World Heart is the domain of heart, but Heavenly Heart Consciousness, then can manifest in the attack directly. Gain access to the 8th Astral Soul. World Overlords, their world hearts can project a heart domain. Inside that heart domain, they have immense control over everything. (ch.1819)

#### 11th Heavenly Deity

For Heavenly Deities, the laws they are proficient in, would undergo a transformation allowing them to gain control of a heavenly dao. By just standing there, a heavenly deity himself would be the embodiment of the heavens and earth. Everything will revolve around his will and desires. He represents the heavenly dao. (ch.1819)

If you enter the Heavenly Deity Realm, there could even be lives living in the world you created, These life forms would assume that your world is the real world. Reality is as such, an example are the countless particle worlds in our universe. (ch.1819)
