

Bruce **ALMIGHTY**

Jumpchain: Bruce Almighty 0.1

Welcome to the world of *Bruce Almighty*, where an ordinary guy from Buffalo, New York, gets a shot at being God—or at least tasting what it's like! Your Benefactor (perhaps Morgan Freeman in a crisp white suit) grants you 1000 Choice Points (CP) and the chance to spend 10 years in this funny yet surprisingly deep universe. Here, you can work miracles, wrestle with the consequences of your whims, or just try not to mess everything up. Will you be the new Almighty, a skeptic, or a mere bystander? The choice is yours!

General Setting

The story unfolds in Buffalo, New York, in the early 2000s—a typical American city filled with everyday folks, local news, and mundane struggles. But everything shifts when Bruce Nolan, a down-on-his-luck reporter, is handed divine powers by God Himself, tired of Bruce's complaints. The world remains realistic, spiced with supernatural flair:

miracles happen, prayers get answered (sometimes too literally), and chaos ensues if details are overlooked.

This is a place where humor meets morality—Bruce learns that power isn't just fun, it's responsibility. You'll step into this tale, where you can aid Bruce, take his role, or watch it all unfold from the sidelines.

Rules of the Jump

- You'll spend 10 years, starting when Bruce gains his powers (2003).
- Your abilities and items carry over post-jump, unless they conflict with the next world's rules.
- Divine powers here have limits: you can't directly override free will or destroy the universe—God (or your Benefactor) keeps things balanced.
- You can alter the plot (teach Bruce a different lesson, change Grace's fate, or meddle in his career), but some events may be "protected" by a higher power.

Origins

Choose your role in this world. Each origin provides discounts on specific perks and items.

1. Almighty (400 CP)

You're a person gifted with divine powers, like Bruce. You can perform miracles, reshape reality, and hear prayers, but with great power comes chaos and accountability. You start in Buffalo, perhaps after a visit from God in an odd spot (like a warehouse).

***Discount*:** On perks and items tied to divine power and creativity.

2. Beloved

You're a close companion to the Almighty, like Grace Connelly. You live a normal life but are tied to someone wielding divine might, forcing you to deal with its fallout. You start in Buffalo with a job, a home, and faith in better days.

***Discount*:** On perks and items linked to emotional strength and support.

3. Skeptic

You're a cynical observer, akin to Evan Baxter or Bruce's coworkers. You doubt miracles and believe everything has a logical explanation. You start at the TV station or an office, with a career and healthy skepticism.

***Discount*:** On perks and items related to logic and professionalism.

4. Drop-In

You arrive in Buffalo with no past or connections, a random witness to divine events. You've no set role but total freedom to explore. You start on the street or in a café, with a blank slate.

***Discount*:** On perks and items tied to adaptability and independence.
