+1000 CP

If this Supplement is instead taken as an Isolated Jump you may select a setting of your choice even if it doesn't have a Jump Document and use this document as a ten year long Jump.

Perks:

Note:

To get a **Booster**: Perk you will need to purchase the complimentary Perks as an example:

THERE IS ENOUGH DOOM FOR ALL -??? CP

RICHARDS! Booster: Something Unique

In order to get the Perk **Something Unique**, you need to take both the **THERE IS ENOUGH DOOM FOR ALL** Perk that it follows and the **RICHARDS!** Perk that is commented before the boosted Perk.

General Perks:

DOOM Does As He Likes. - Free

... You were a theater kid, weren't you? You have a talent for dramatics, making sure your cape always flows the right way and your stature always coming off as an imposing son of a bitch. There's only so much theatrics can take you though.

Throne For You - Free

You can't have one of these without this. You know how to sit on a throne like a true king. Whenever you sit in a throne, you give off the perfect amount of awe and fear, capable of burning the image in people's minds for the rest of their lives.

Power Type Origin - Free (Cannot be taken with "Not Drop In")

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as if you were using this Supplement.

Dynamic Entry - Free (Requires 3 "Out of Context Origin Perks" from other Supplements)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

FOOTDIVE -100 CP

A simple, but useful maneuver. By jumping in the air, you can slam down onto your opponents like lightning. This move is easily spammable.

PSYCHIC POWERS -200 CP

Not your strongest tool in your arsenal, you do have a few psychic cards to fall back on. Basic telekinesis, mind reading, and maybe even body hopping are available to you with this, though these skills pale in comparison to what you can have.

RICHARDS! -400 CP

If you were to have one defining character trait, it's pure, unbridled, **SPITE**. If there is someone you truly hate, someone you loathe from the bottom of your heart, you will find ways to surpass and overwhelm them. No matter the mountain they stand on, you will climb your way and throw them from that little space. You're also the undisputed master of being a petty motherfucker.

THERE IS ENOUGH DOOM FOR ALL -600 CP

You're of course, not defined by your wrath. You're defined by your *will*. Something that is harder than diamond. You are someone who is impossible to manipulate through magic, psionics, or technology. God himself could try to force you into a blinking contest and you would watch him blink first. Though this doesn't make you immune to physical harm. If God wanted to break your bones you'd be shit out of luck.

RICHARDS! Booster: Beneath Me

And who would dare think that you could be held back by something as simple as what the lesser men think is "impossible?" Nonsense. No matter how far you may fall, no matter how much is taken from you, you **WILL** gain everything you lost back and more. Strip you of your armor, your strength or even trap you as a brain in a jar, you will drag your way back into your body and hunt down the one who dared think he could get one over on JUMPER!

Sorcerer Perk Tree:

Parlor Tricks -100 CP (Free for Sorcerer)

Some basic parlor tricks you picked up from your mother, father, or a mentor. Bolts of magic, simple shields, and illusions that can trick the common and dull. These aren't anything beyond what can be best described as basic, but they do have one thing that makes them worthy of your attention. They cost no energy to use.

Mystic Fists -200 CP (Discounted for Sorcerer)

All the magic in the world can't help you if you can't even fend off a mugger. Good thing that'll never be a problem for you. You have the talent to mix martial arts with mystic arts, allowing you to make sure all those years of studying don't go to waste in a fight. This also comes prepackaged with tibetan martial arts along with their brand of magic to boot.

Supreme -400 CP (Discounted for Sorcerer)

In a world of magicians of all shapes, sizes and flavors, you stand above them. You are a savant of magic in all its forms. You could travel the world and find miniscule few people who you could call above you in talent...

RICHARDS! Booster: Sorcerer Supreme

And you will come to quickly surpass them. Throughout heaven and earth, you alone are the strongest at the mystic arts. It would take maybe a few months of casual education before all magic in the world becomes yours, and at that point the next step is to upgrade it.

Friends in Low Places -600 CP (Discounted for Sorcerer)

Even with all your knowledge of magic, there are limits to what a man can do. You have to rely on making contracts with those beings of higher stations. Fortunately, you are as masterful at negotiation with these beings as you are at all other talents. You can squeeze boon after boon from them while giving relatively little in return. Be wary though, you can still end up giving up more than you might be willing to handle.

THERE IS ENOUGH DOOM FOR ALL Booster: Best There's Ever Been

Forgive me, I should've known better than to doubt your superiority. Even these supposedly superior beings will be forced to kneel by your hand. Any being that finds itself willing to deal with you will find that any contract will immediately drain them of all their power and suck it right into you. Even if they have the mind to avoid you, you can make rituals and equipment to do the job for you just as well.

Mystic Fist Booster: Familiar Carnage

Did those daft demons think their punishment would stop at just being absorbed? No no no. They will SERVE JUMPER AT ANY CHANCE. With ease, you can project any being you absorb into the physical world as a familiar to fight on your behalf. Even if they were to fall during this time, they would harmlessly return to you with no chance of escape.

Scientist Perk Tree:

Degrees in Evil -100 CP (Free for Scientist)

Who could dare define intellect by how many slips of paper you have on your wall? It's absurd. Luckily, it's a situation you'll never be in. In any world you find yourself in, you'll find whatever qualifications you'd need to flex your intellect. Of course, if you lack the skill you'll probably not be seen in a good light.

Polymath -200 CP (Discounted for Scientist)

You have a very special talent for melding different branches of science into new, powerful forms. Examples include mixing mechanics and psychology into a hypnotic machine, mixing biology and engineering to make plants with mechanical traits. Skies the limit.

Mad Scientist -400 CP (Discounted for Scientist)

In the world of comics, there's countless scientists dumb or arrogant enough to play fast and risky with science. Unlike them, you know what you're doing I hope. You're a master of using science to grant you and others power beyond the mundane.

RICHARDS! Booster: Hubris of The Powerful

You're now not only a master of granting powers, but also countering and nullifying them in others. Those "Superheros" who think they have a chance against you thanks to their little defects will find their bodies broken and their powers leaving them.

Greatest Mind -600 CP (Discounted for Scientist)

What kind of scientist would you be if not for a vorpal sharp mind? You can accomplish things those in your original world would consider impossible and bend the rules of the universe to serve JUMPER. Spaceships that can be anywhere in an instant. Weapons that could shatter the world with just their start up. The power is terrifying.

THERE IS ENOUGH DOOM FOR ALL Booster: Beyond Brilliance

Before, the only person who could be humored as your superior was Reed Richards. Now? You scale far above him. You are to him as he is to a baby who just left the womb. Things thought impossible to him are simply a matter of time to you. You could reverse engineer marvels of the universe in the span of an hour.

Polymath Booster: Alternate Science

Your mind isn't just confined to the folly of traditional science. Oh no, that would be too... constraining for you. If you were to include magic into your library of knowledge, your capabilities would evolve into magitech that completely surpasses either study by a dozen orders of magnitude.

Dictator Perk Tree:

THE VOICE OF DOOM -100 CP (Free for Dictator)

What kind of leader could ever lack a voice that stays in the mind? Not you. You have a naturally powerful voice. You could talk for hours to the common folk about types of ramen and keep them hanging on your every word.

Teacher of The People-200 CP (Discounted for Dictator)

The lessons you could impart into a society would be able to change people from the butt of jokes into a culture that would make world leaders fear them. It would take some serious work, but you could turn a third world country into a contender for the most envious place to live.

Leading Man of Industry -400 CP (Discounted for Dictator)

Now, to get some income for your country. You're a marvel of industry, capable of building infrastructure capable of pumping vital lifeblood into a country. On top of that, you can get much more out of your workers and still treat them well enough for them to be devoted to you.

RICHARDS! Booster: Art of War

Now, your skills transfer to training people into war minded individuals. Even with a civilization that's never known modern war can be evolved into a war machine capable of contending with those older and bigger than them and force them to kneel. Only the best for JUMPER

Two Steps Ahead -600 CP (Discounted for Dictator)

If there is one thing you can do that makes you a threat to heroes, it's your mind for schemes and manipulation and maneuvering that make you king. You could be locked in a room with a group of heroes and talk your way into making them see your point of view and turn your would be assassins into loyal guards. If they had a grudge though and had nothing to lose, you might have some trouble

THERE IS ENOUGH DOOM FOR ALL Booster: JUMPER DOES NOT FAIL

You are the undisputed master of the Xanatos Gambit. Even in a situation where a lesser leader would have a low chance of succeeding, you would be prepared for any possibility and be able to come out of it a victor in one way or another.

Teacher of The People: Master of War Games

While the above perk makes you a good manipulator, this upgrade puts you at a point where when it comes to tactics and strategy you'd be unstoppable. Any war you'd throw your hat in will find even the slimmest chance of victory becoming a reality. No matter what plan or form of advantage they have, they will fall to JUMPER's will.

Items:

Any lost or stolen items will return to you after a week in the same condition as when you had it.

Titanium Armor - Free

This could be considered an antique. This heavy suit of armor is made out of a titanium alloy and comes pre-packaged with air conditioning and braces to help with mobility. What it does have that makes it worth JUMPER's time is its potential. Here are a few upgrades to make this armor a true magnum opus. You can import a preexisting armor into this if you wish.

Life Support - 100

Armor's main purpose is to prolong and ensure your survival. You have plenty of systems built into your armor for that. Food, water, and air reserves along with being to resist space and the bottom of the ocean. As long as your suit has power, you'll be able to survive any climate.

Adamantium - 200/400 (Discounted for Scientist)

One metal that is well regarded as the most durable, this addition comes in two prices. First one gives you the "True" variant, the one most used which is what you think of. Wolverine stuff. For 400, you get a purer form known as "Proto". This is the type that Captain America's shield is made of. There is few, few things that could damage your armor now

Uru - 200 (Discounted to Sorcerer)

Another super metal. This one is a tad more occult. The metal of gods. Uru isn't as insanely durable as the above, but it's well suited for magic, empowering and being empowered by magic. Same stuff Mjolnir is made of.

Endosym - 400

Ah, another monstrous upgrade. This purchase makes your suit less of an armor, and more of a second skin. Liquid metal mixed with the properties of a symbiote. With a telepathic call, you could summon it to wrap around you and shift into any form you require. Any damage done to it will quickly self repair as well. The only serious drawbacks is that it suffers from the typical weakness to heat and sound though that should be child's play for you to fix up. If you wish, you can become one with your armor, turning into an odd metal man.

Jumperreactor 200

This is a simple, but incredibly useful energy reactor that converts any magical or scientific source of energy into an explosive burst of power. Any normal form of power will have it's output multiplied tenfold.

Augmented Strength 200

A simple addition. Any natural physical ability you have will be increased by the amount of energy you have in the suit.

Damaged Bot Factory - Free

All this needs is power. This desolate factory has the means and blueprints to make a small army of Jumperbots, robotic copies that can emulate your power enough to pass off as you. It will take some time, but this factory will boom again.

Damaged Time Platform - Free

Another classic. While this rectangle of what appears to be cracked glass doesn't look too impressive, its function could change the world. When properly fixed up, it can take you any place within space and time almost like a TARDIS but without the pocket dimension. It would not be too crazy to upgrade it to that level though...

Jumpveria - 400 (Discounted for Dictator)

Ah, what would you be without your people? This relatively small country makes up for its size with raw resources and devotion. The lands are filled with riches the rest of the world would rarely see themselves. The people are completely devoted to you, seeing you as a God King. Lastly, this comes with a castle as the core of your country, perfectly opulent for you.

Companions:

Valeria DOOM - 200

This might be cause for concern. Through means similar to you, another mysterious stranger has arrived. This woman of tastes is quite the prodigy. Apparently, she was born from a matrimony of Doom and Scarlet Witch. While she might be egotistical and a tad "unorthodox" (Read unstable), she is loyal to you and willing to assist you in your goals as long as you prove to be a loyal ally.

METAL FACE - Free

The fuck? This is an unseen ally. Another Doom like. This one fashions himself the supervillain of music. An interesting fellow who is as unmatched in lyricism as he is with presentation. He is also a master of a niche form of magic The Words which is empowered by his rapping skill. Say his name in all caps, by the way.

The Good People +200 CP

It seems that everybody wants something from you, they want you to get their cats out of trees or fetch them milk for their tea, regardless if you refuse to do a task for someone you're the asshole. On the bright side, if someone has already given you a task which you are currently working on, people are less likely to give you new tasks.
