

Generic Liminal Space Jump
v1.0
by LJGV/Sin-God

Liminal Spaces. Aesthetically, a liminal space, is an internet aesthetic that depicts empty or abandoned places that appear eerie, forlorn, and often surreal. In this understanding of liminal spaces, empty malls, closed diners, schools at night, are all liminal spaces.

A broader understanding is that liminal spaces are spaces between spaces, the boundaries between two points in time, space, or both. They are spaces that embody the journey, rather than the destination. Hallways, airports, highways, all of these are liminal spaces in this sense.

In this jump, liminal spaces are the focus. However, what you actually experience is up to you. What will you do for the next decade?

Take **1000 Liminal Points** to fund your adventures.

Starting Location

Your origin determines your starting location.

Earth

Liminal Space Appreciators start off here. This is Earth. Just a mundane, regular, echo of the world many jumpers come from. In this world, liminal spaces are just beginning to take off. You can select where you start your decade here.

Set of a Liminal Space

Liminal Space Creators start off here. This is a place that is staged in a way to give off liminal vibes. It could be a diner at night, long after everyone else has left. It could be a lonely sign on a two-lane stretch of freeway. This is somewhere on the same mundane Earth as Liminal Space Appreciators.

Liminal Space

Liminal Space Explorers start off here. This is an actual liminal space. It is empty. It is peaceful. It is safe. You can start off located in a conceptual version of any liminal space image you like. There is a way out, it just takes some time to find it. When you leave you'll find yourself on Earth.

Age and Gender

You can freely determine both your age and your gender for the purpose of this jump.

Origins

Liminal Space Appreciator [Free]

You deeply appreciate the vibes and nostalgia of liminal spaces. You can spend hours enjoying liminal spaces, both those you encounter in real-life and those that have been created and shared by others.

Liminal Space Creator [Free]

You are a creator. Maybe you're a writer, or a photographer, or a video-maker, but you create. And you excel at creating liminal spaces.

Liminal Space Explorer [Free]

You are something just a *touch* more... real than others here. You can find and explore actual liminal spaces, and you have a physiology meant for the exploration of such strange places.

Perks

Origins get their 100LP perks for free and the rest are discounted to 50%.

General [Undiscounted]

Definitions [Free]

You understand that definitions are context-sensitive and are akin to living things in that they grow and mutate over time. You know that what a word means in this reality, or even in this decade, may not be what it means in another decade or setting. You can educate people on what words mean in different realities or time periods and they'll accept this and learn from it, and you are great at understanding new definitions of words.

Liminal Space Appreciator

Calming [100 LP]

By engaging in a passive activity you enjoy, such as listening to music or watching a video, you can enter a meditative state wherein you gain all the benefits you would gain from meditating.

Why Though? [200 LP]

You have an intuitive understanding of why you like the things you like and can eloquently explain why something makes you feel a certain type of way. This may not make others feel the same way you do but they'll understand why something makes you feel the way it does.

Community [400 LP]

You are stunningly adept at finding others who share your interests. In almost no time at all you can find communities of people with shared interests and you can even build such communities with striking ease.

Restorative [600 LP]

Things you love, enjoy, and appreciate are actually restorative to you. When you do things you love, or otherwise sit down and appreciate something that truly fulfills you, your rate of healing is improved. This is especially true on a mental level, but even your rate of physical healing is notably improved.

Liminal Space Creator

Staging [100 LP]

You are exceptional at setting a vibe. You know how to stage things to match a picture in your mind's eye with ease.

Creation [200 LP]

You are stunningly good at doing what it takes to *capture* and *create* liminal spaces. This includes photography, video-editing, and even outright creation of digital liminal spaces using computer programs. You could, with just a little bit of effort, make a respectable living as a photographer and video editor.

Marketing [400 LP]

Not every person who creates liminal spaces and shares them has the same success as other liminal space creators. Sometimes it comes down to luck. Well... at least in the cases of other people. You don't need luck, you have marketing on your side. You know how to market your works, and can easily create and manage marketing campaigns,

especially for things you actually like. The more you like something the easier it is for you to market it.

Transporter [600 LP]

That which you create is real, to an extent. You can temporarily send people to liminal spaces you create. They'll be in the space for a few minutes in real-time but they'll experience it for as long as they wish (and they'll experience no pain, no harm, and no discomfort while in said liminal space). You can send people into images you create or videos you make, and while at first this is only true for liminal images and videos, with extensive training and genuine passion you can send people into non-liminal creations of yours. This cannot and will not harm them.

Liminal Space Explorer

One Jumper [100 LP]

Being alone doesn't bother you in the slightest. It also doesn't negatively affect you in any way, such as worsening your social skills or harming your sanity.

Liminal Lure [200 LP]

For the record, this is *you* being lured by liminal spaces. You have a strange ability to come across liminal spaces in real life. You have a natural radar that points you towards such locations, one which is unerring and perpetually updates so you always know where to go to find mundane and/or naturally occurring liminal spaces, as well as portals or other pathways to less mundane ones.

Liminal Physiology [400 LP]

When you're in a liminal space, even a natural and real one, you are immune to things like hunger and thirst, and you don't need sleep. This can make you an exceptional long-distance driver.

The Journey [600 LP]

You can utilize liminal spaces as passages, or steps in a journey. You can teleport yourself into a liminal version of your surroundings, though this is a bit taxing, and when you do you'll be able to continue your journey unobstructed by things like foes. This can be used to do things like drive down a busy stretch of highway, or dart through a crowded mall.

Items

Items may be imported into similar - items, weapons to weapons, clothes to clothes, etc.

Any item alterations and upgrades made will be maintained between jumps and are fiat-backed.

All origins get their 100LP perks for free with subsequent purchases being 50% off, and all other purchases for that origin discounted by 50%.

Building complexes, unless stated to have an in-world location, will be placed near your starting location in-jump for your stay and will be attached to your warehouse after the jump is complete, they can then be imported into future jumps as desired.

Liminal Space Appreciator

Liminal Albums [100 LP]

This is a weekly delivery that drops off albums filled with photos of liminal spaces. Every week you get a new one dropped off in your warehouse.

Club [200 LP]

This is a club of liminal space enjoyers and you are recognized as a full member. At the start of every jump, this club expands a bit, and it is filled with generic people who just like liminality, and like you. Every week this club will have a small get-together wherein members share liminal space art, photography, and videos (as applicable to any given setting) and where the club itself purchases a fun meal such as pizza or burgers.

Favorite Liminal Space [400 LP]

This is a single liminal space now located in your warehouse. It is your favorite liminal space, or if you are new to this as an aesthetic, hobby, and interest, a liminal space perfectly attuned to you that takes into account what you like. For some this could be that underground [Las Vegas bunker](#), while others might get an empty [Chao Garden](#). Regardless of what sort of liminal space you get, it will be empty of all other life though it doesn't have to stay that way and it retains changes across jumps. While in this place all powers that passively heal you or restore you are enhanced and your physiological needs are met.

Liminal Space Creator

Capture And Creation [100 LP]

This is the full suite of technology you need to capture and create liminal spaces. This includes a laptop that is outfitted with both standard fiat-backing for such things (as well as the expected buffs, like unlimited battery life and supernatural wifi) and a suite of programs for image and video editing and creation. This also includes photography equipment.

Archive [200 LP]

This archive contains every single liminal space media you've created and will always backup and contain perfect copies of everything liminal-related you create. You will never have to worry about losing something you've created. You can also sell infinite copies of what this archive stores, as its contents will always immediately replenish.

Liminal Space Finder [400 LP]

This device lets you find liminal spaces. It is a radar that can be set to look for places that fulfill certain criteria and when keyed to places you actually reach lets you instantly travel back and forth between them and properties you own. This way you can more easily and organically capture images

Liminal Space Explorer

Explorer's Clothes [100 LP]

This is an outfit you can don at any time that is well-suited for exploring. It is well-suited for travel, will never rip or tear, and will always smell clean and even a bit good. It also keeps you comfortable temperature-wise.

Peaceful Liminal Dreams [200 LP]

You gain the benefits of a single Liminal Dream as per the [Peaceful Liminal Dreams CYOA](#). You can also share this with others, letting them get their own peaceful liminal dreamscape to explore as they wish.

Liminal Teleporter [400 LP]

This is a device that is useable once a month and when used sends someone to a liminal space that is a dark reflection of the place they were in when it was used. This is more substantial than the **Liminal Space Creator** perk that does something similar, as it sends someone to a real liminal space from which a normal person cannot escape. A regular person will invariably die in this space if not rescued by someone with the ability to move between dimensions.

Companions

Companions can purchase more companions.

Companion Import [50-200]

So you want to create your own crime fighting sidekick or family? Do you want to rule St. Canard at the head of your own Dreadful Duo, Threatening Three, Frightful Four, Fearsome Five, Sexy Six, Scary Seven, Eviscerating Eight, or even the Nightmarish Nine? Well, import a single companion into any origin 50LP each or eight for 200LP. Such individuals get 600 LP to spend on their builds and cannot take drawbacks.

Canon Companion [50]

So you want to take any other existing character from this world. Well, then this option is for you. Anyone you meet here, if you spend the necessary points, can follow you along your jump.

Drawbacks

Plot is King [+0 LP]

You may leave any time after the main plot is complete, unless any drawback or scenarios are still in effect and incomplete.

Extended Stay [+100 LP]

For each purchase of this your time here is extended 10 years.

Judgmental [+100]

Plenty of folks here are a bit judgmental about people's hobbies and interests. Expect a lot of annoying remarks.

Loss of Meaning [+200]

The meaning of Liminal will get lost as it gets popular. Expect lots of folks to flat-out not understand what it means. A healthy amount of liminal media will get touched by this. This can have a lot of bad effects if mixed with something like Liminal Reality, and can affect people who wander between the real world and liminal spaces in the spooky sense.

Least Favorite Type [+200]

Whatever type of liminality you like the least experiences a gigantic uptick in popularity when liminal spaces hit their apex, which will happen a few years into your stay in this jump.

Almost Endless [+400]

Liminal spaces are a lot, and I mean a LOT bigger. They also exist naturally now, meaning even mundane people can stumble across them. They are not quite endless, and time passes differently (time on the inside of these spaces passes much faster) inside of them, so if you find one and get stuck in it you can probably find the exit before you need to be somewhere else.

Endless Debates [+400]

Oh no, people are really annoying about this now. The entire time you're here *discourse* about liminality will be happening. Expect endless debates about what it means to be liminal whenever you just want to enjoy a dope visual or a spooky video.

Liminal Reality [+600]

Ah, so some places in the world will become touched by liminality in a spookier sense than they should. These spaces will become rifts in reality where space becomes more eerie and uncanny. If this gets mixed with Loss of Meaning then liminal spaces can begin to house... things. Be careful.

Lockdown [+600]

You have no **Out Of Context** items, powers, or warehouse.

Decisions

You have three choices ...

Go to next Jump

Continue onto the NEXT GREAT ADVENTURE!!!!!!

Stay

Stay and enjoy your current life.

Go back

Tired of your travels and want to rest back home, well then this is for you, grab this ticket back to your starting point and go see old friends.
