Perks

Discount on 1 Perk per Price Tier, 100CP Perk is Free

Mana Burst Brave D 100

Cause small magical explosions inside your body by detonating your own energy. Mildly painful to use and somehow gives a decent boost to your durability.

Charisma C 100

Makes people like you more, also like Elizabeth causes them to forget or ignore the various crimes against humanity you commit as long as you say you won't do it again.

Mana Burst Pumpkin A 200

A special technique invented by Elizabeth for the 2015 Halloween, it lets you form pumpkins out of pure magic, and lets you use more magic to turn any pumpkins (real or magic copies) into powerful bombs even able to injure Servants easily.

Legend Of The Crimson Heroine EX 200

1/Year Deus Ex Machina type effect ranges from short term Invincibility, massive power boost, and raising the recently dead (yourself included if necessary) and other similarly bullshit abilities. Recharges every year on Halloween.

Magic Resistance A 400

Functional immunity to magic, only a powerful Servant (or equivalent) can hurt you with magic.

Innocent Kaiju EX 400

Godzillaaaaa!!! For the lovers of giant monster movies, this lets you turn yourself into a massive giant. How big you may ask, well A Medieval Castle, Egyptian Pyramid, and Japanese Manor could all be stacked on top of each other and only reach your shoulder height so pretty damn big.

Items

Discount on 1 Item per Price Tier 100CP Item is Free

Legend Of The Crimson Heroine The Movie EX

Adventures this Jump are recorded and turned into a Movie Series at the end, guaranteed to be a massive hit if released in future Jumps... probably.

Item Construction A 100

Unlimited Party Favors

Heroine's Great Principals EX 100

Small booklet detailing (Brave) Elizabeth's views on what exactly it means to be a Hero. Oddly following the rules inside can cause you (and others) to slowly develop powers appropriate for a Hero in the current world (nothing you get to keep when you leave but you get them back if you ever visit another form of said world).

Night In Csjete B 200

a copy of Csjete Castle, Pyramid and Japanese Manor on top optional, as are massive speakers built into the front. For what it's worth Elizabeth would rather remove the manor and pyramid and add more speakers.

Final Eli-Chan C 200

Giant Mecha Eli-Chan VI and a few hundred mass production Mecha Eli-Chan V2, none of them are on par with even a low Class Servant much less the original but there is an army of them.

Drawbacks

Performance Continuation A

History from prior Jumps is maintained.

Breath Of The Dragon E +100

You have a really bad singing voice, and yet you are obsessed with singing as loudly as possible as often as possible and making damn sure everything and everyone can hear you.

Halloween Encour A +100

Hope you enjoy the yearly Halloween Madness Jumper because you're going to repeat each of them every year after they happen.

Sadistic Charisma A +100

All dialogue Options you get are best summed up as "I Am An Asshole".

Overload Revised C+ +100

Use of any Magic or Perks is extremely Painful and slowly cooks you from the inside while they're being used.

Territory Creation B +200 Drop a House on Your House and a House on that for good measure, matter of fact every year we're going to drop another even bigger house on top of yours and none of them are ever going to be removed.

Torture Technique A +200

Elizabeth loves to sing more than just about anything else, unfortunately she's really really bad at it. As in her Noble Phantasm is just her using Amplifiers to make it louder than normal and that's capable of killing Servants. Guess who's going to listen to her any and every time she wants to sing for the next decade. (Does not include use of her Noble Phantasm because that might actually kill you instead of just making you wish it had).

Independent Action A +300

Your servants never listen to a damned word you say and just do whatever the hell they want unless you use a command seal

Mental Disorder A +300

You be a crazy fucker, as in unable to comprehend the fact that other people have emotions/can feel pain/are sentient, other disorders from various Elizabeth Bathory servants here.

End

Stay in the Insanity

Onwards to Fame Fortune Power and Ever Increasing Bullshit

Ok I'm done we can go Home now

Notes
