

The Apocalypse has come and gone, now the survivors remain inside giant domed mobile cities called Regios. This is necessary because the environment is hazardous and monsters called the 'Filth' or 'Contaminoids' roam the Earth. Layfon Alseif just arrived at the academy city of Zuellni, which teaches the youth how to protect themselves and others in these chaotic times. Besides the fighting between Regios for resources, there are also the mysteries to be uncovered and rumors of additional dangers beyond the Regios and Filth. You have an organ in your body that produces this energy as it spreads throughout your body for you to utilize, and will repair itself if damaged or destroyed. Kei can be used internally and externally to attack, defend, support, heal, etc. You can use it to boost all of your parameters, Kei can be trained and improved over time, and has near infinite uses and potential. You have as much energy as a graduate of an academy.

Citizen

Kei Concealment - 100

Kanaris Earifos Rivin is considered one of the foremost experts in Kei Concealment, a necessity as an assassin and the queen's body double. You are her equal in how to use Kei to conceal your presence and energy from others.

Looker - 100

So many people here are good looking individuals. You now may choose an appearance to have and as long as your species is capable of it you will always look like it. Your appearance never deteriorates regardless of lack of exercise or food, as long as you consume enough calories to prevent malnourishment. Any injuries will fully heal without scarring, as long as you can heal that wound. Your hair and teeth will always be perfect no matter the situation you are in and regrow if lost.

Happy Ending - 200

You easily attract the attention of those you have a crush on and if the feeling is mutual your relationship will continue with minimal fuss. If another wants to join in, well who are you to say no. Those you are in a relationship with will appreciate the positive parts of it and you will work through any negatives that may arise. A happy ending is in the story for you, so no worrying about your loved ones being targeted by unscrupulous individuals. As long as the involved parties want the relationship to work, it will be better than they could ever imagine.

Queen - 200

You are a leader of the people, even when you push your work on others so you can have fun. You are so charismatic that you are beloved by your people, from when you are perving on your subjects to you when you are beating up your Heaven's Blades. If it relates to administrative or logistical work you can do it all in a quick, efficient, and error free way. If you do not wish to do the work you can easily find quality people to do the "boring" work, so you can have fun.

Kei Teacher - 400

You can awaken the Kei Vein in others, by infusing someone with Kei they will start the process to grow the organ that produces Kei. After someone has their Kei Vein awakened you can teach them any perk with Kei in its name that you have taken, except for this perk. In order to help you speed up the process you become an unparalleled teacher whose student will retain everything you pass on to them while learning it in a fraction of the time. If you take this along with the Mutant perk, you may share with your Soulmate/Spouses all of the perks you take in this jumpchain. They may not share

any perks they receive, but may train others in the 'Kei' only perks if taken. Element Affinity unlocks at least one affinity, & with Chosen of Saya everything but the immediate power boost can be taught.

Alchemy Prodigy - 400

You are at the forefront of Alchemy R&D, a true master at repairing and tinkering with technology. You are a genius at making technology modular, miniaturized, efficient, & robust while also being able to reverse engineer anything you come across. This perk applies to all esoteric fields which obviously includes alchemy; but further examples include magitech, magic, runes, psionics, etc. You have all of the knowledge and understanding of Alchemy, DITES, accessories, tools, equipment, & anything related to Alchemy or DITES. This includes the Heaven's Blade and Mutant weapons knowledge.

Zero Domain - 600

You have the highest compatibility with space and time. This is reflected in two ways. One, you can utilize Kei, or any energy you have, to manipulate space and time. You have to work out how to do it yourself, but given your compatibility with space and time you have no risk of killing yourself while creating techniques like personal pocket dimensions. Two, you are protected from hostile attempts to mess with your time, space, or energy. So no enemy can alter your past or try to ruin your future, and trying to mess with space around you will end poorly for your enemies. With lots of time and training even traveling dimensions is possible, how long this could take is unknown.

Doomed World - 600

Somehow you have survived the Apocalypse, the Filth, war games between Regios, and secret wars that continue to almost destroy humanity. This is because you are completely immune to any attacks that could be considered conceptual, instant kill, one-hit, instant death, or critical hits. You have absolute protection that will always prevent your death against these types of attacks.

Mercenary

Survivor - 100

You are a master of harsh environments, and somehow no longer need to breathe. You can survive in inhospitable environments with severe heat and cold, or in a vacuum or high pressure that might be found in the world. While you can survive in these conditions, you still need food and water to survive.

Kei Conservation - 100

You have learned how to make do with less. You require 25% less energy for all techniques, this is increased to 50% for techniques that require constant energy use.

Kei Healer - 200

You have mastered Kei techniques that can heal and cure individuals of what ails them from wounds and bruises all the way to poisons and diseases. You have incredible talent in learning or creating techniques related to healing.

Element Affinity - 200

Some individuals have an affinity with elements that they can bring out with their Kei. Each purchase gets you a single element of any kind to have max affinity with, and an idea of how to start using Kei

with said affinity. Elements like Light, Darkness, Life, Death, Nature, Lightning, Sand, Ice, Solar, etc are all acceptable. Only elements that can not be chosen are Time and Space.

Escort Duty - 400

As a mercenary you will have to protect and escort individuals from time to time, or even protect your loved ones on missions. You never have to worry about them being targets as long as you or your people are present. You and members of your team will always be targets before anyone you are protecting or care about are in danger.

Psyharden Sword Technique - 400

Like Layfon Alseif, Derek Psyharden, Haia Salinva Lyia, and many before them you are a master of all of the Psyharden Sword Techniques. As for what Psyharden techniques actually are, they are a sword school that has an absurd range of techniques from Kei needles to strikes that disrupt the internals of your enemies. A great many of the known techniques are ones that emit Kei from their Katana. You have even taken a step further and can use these techniques with other weapons or even your bare fists. As a wielder of Psyharden techniques your Kei has reached the limit of how dense and pure it can become, and can easily use energy techniques and martial arts with any weapons you wield.

Chosen of Saya - 600

You have been recognized as someone worthy of wielding a Heaven's Blade by Saya herself. This grants you two major benefits: a blanket increase in all aspects of Kei & knowledge of various techniques. For Kei you have a pool of Kei equal to Queen Alsheyra Almonis who has more than the other Heaven's Blade wielders combined, you have perfect control of Kei, you can train all aspects of your Kei as easily as you breathe, & have no limits on how powerful your Kei can get. All your energies are equally boosted to equally as massive, have perfect control of all energies, no matter how powerful you get your body will be able to handle the quality and quantity of your energies, and it becomes easier to train and improve all aspects of energies with no limits on how powerful you can get. As for techniques, you will gain the knowledge of all of Heaven's Blade users martial & Kei techniques. The Heaven's Blade members all not only use different weapon types, but have mastery with a multitude of Kei uses. One Heaven's Blade user uses gauntlets, another guns, a Halberd, and even a few different types of blades. As for Kei the Queen herself is considered a Kei mage given her bottomless knowledge of it. From her using Kei to physically keep herself young to being able to match the rest of the combined blades in combat at once using her Kei abilities.

Hunter - 600

You are an expert in the art of tracking, finding & exploiting weaknesses, and ensuring monsters like the Filth stay dead. To start off with you start with the knowledge of how to use Kei, or any energy you possess, with your senses so you can more easily track & find weaknesses. The most common use of this is with your vision, where enhancing it with Kei will allow you to spot spilt blood or drag marks in the ground, and when you find your prey you will be able to identify all of its weak spots. Your Kei enhanced senses are able to confirm if an enemy is actually dead during a fight, since many Filth have found ways to fool expert mercenaries. While using these enhanced senses you can easily & quickly spot vulnerabilities or weaknesses in your foes to easily bypass their defenses, and then once your attacks land on the enemy they can not heal or regenerate from the damage you have dealt. As an

expert Filth Hunter you have complete control over your ability to bypass defenses and negate healing, so you can never accidentally kill or be made to kill someone against your will.

Military Artist

Training - 100

You have received training in all weapons, martial arts, tracking, acrobatics, parkour, & Kei. This puts you on equal footing with an experienced user in their chosen fields, but are far from an expert. Your training also gave you the ability to know how much damage you can do before it becomes fatal.

Nen'i Kei - 100

Nen'i or Psychokinetic users are able to use both telekinesis and telepathy. Your range starts out rather small at a few meters without a focus, but with time and training they can be improved without limits both with and without a focus. Normally you can not use Kei with Nen'i, but you are special and have merged Nen'i and Kei together to create something greater than either was before with no downsides. You can merge other types of energies with your Nen'i Kei, but results may vary.

Kei Recovery - 200

You get back into the fight quicker than others. While others can spend up to an hour recovering their Kei, you recover all of your Kei in 20 minutes or less. All other energy types will recover 3 times faster.

Stamina Monster - 200

You are one of the lucky ones you can fight for days at a time with little to no sleep. Your stamina is the stuff of legends and you fight constantly for up to a week before your stamina runs out, and speaking of sleep you only need 5 hours of sleep to completely recover from fatigue and energy loss.

Aurora Kei - 400

Your Kei Vein is evolved due to exposure to an Aurora Field and is now always generating Kei. Your Kei can be produced and used no matter the environment you are in, even in ones that normally prevent its usage. This also permanently prevents the loss, theft, suppression, or removal of any of your skills, perks, powers, etc that you have.

Kei Talent - 400

Until you Lintence said only Layfon was this talented. Like Layfon you can grasp techniques just from observing them, and utilize them with Kei or other energies you possess. You do not only copy these techniques, you also understand them and can even find ways to improve upon them. You can copy and understand any martial art, technique, ability, spell, power, etc that you have the capability to use. Like Layfon you do not lose capability and understanding of how to use these techniques no matter how long it's been since you last used them. This talent also grants you unlimited potential in all things you do. This understanding of copying techniques applies to all aspects of combat: martial arts, spells, strategy, & tactics being just some of the examples.

Trauma - 600

The life of a Military Artist is filled with scars that can eventually lead to mistakes and even death. You have the rare ability to help people heal from all of their trauma to their mind and soul. You will start

out with a Kei technique that identifies mental & soul trauma. Then gain a Kei technique that soothes and heals the mind, and a Kei technique that will soothe and heal the soul. This perk synergizes with all perks, powers, abilities, skills, and knowledge you possess that relate to healing.

Mutant - 600

Like Airen, Dixerio, & Nirphiria you have become an immortal Mutant who will continue to evolve as time goes on, but you have limited control over it. You regenerate as long as an atom of you remains in less than a minute and with no scarring afterwards. This regeneration affects your body, mind, and soul ensuring that any damage you take heals. As a Mutant you are immune to disease and poison. You have control over your regeneration; so if you want to permanently edit your genetics or stop something from regenerating you can. You stop aging once the prime of your life is reached, or revert back to your prime. Your appearance never deteriorates regardless of lack of exercise or food. Since you no longer need to eat, drink, or breathe for living anymore, but may still do so for enjoyment. Your hair and teeth will always be perfect no matter the situation you are in and regrow if lost. Your mind is equally made immortal granting you a perfect memory, with instant recall, unlimited storage, perfect indexing, perfect comprehension, and you can not lose your memories if your head is destroyed or time altered. Your immortality includes being immune to corruption, changing or copying your memories, mental attacks, hacking, mind control, brain damage, & possession. You may share this immortality with those you are married to and/or are soulmates of, but they may not do the same.

Trapped - 200

During your stay you will somehow end up in a pocket dimension of the Zero Dimension. If you have the perks or powers to escape, it will take more time and energy than expected while drawing the attention of certain Mutants. If you do not have ways to break or escape from a pocket dimension, do not worry there is a path out, it is just guarded by some powerful Filth.

Larva Horde - 300

Either you or the Regios you are on will be beset by a massive horde of nearly a million Larva. No queen in sight, so you probably want to get looking for the queen or queens before they spawn more.

Psyharden Weirdo - 400

Some nutcase who uses a Katana and Kei will keep challenging you at random times to fight for the next 5 years, if he should perish then someone else will and so on for the duration. This will happen at least 10 times during the 5 year period, usually at inopportune moments.

This overrides your starting location, and you can not leave the vicinity of Zuellni if it is in danger. If Karian or someone in authority of Zuellni authorizes you may leave the city to perform missions or protect Zuellni. This lasts for 5 years.

Final Choices

After ten years in the setting you are required to choose one of these options:

1. End your Jumpchain game and return home
2. End your Jumpchain game and remain within the setting
3. Continue your Jumpchain game and move on to the next Jump

Notes:

- By Soulreaper31337, because Chrome Shelled Regios is amazing and needed a jump.
- For those that want a better idea of what Kei is: think Ki from Dragonball, Ranma ½, Negima, & Yu Yu Hakusho. There are known Kei “Mages” so no techniques or spells are off the table. All Kei users are superhuman level minimum, but the limit is never really seen in the Novel, Manga, or Anime. The mutants in this world reach moon busting levels of power at the minimum, and the strongest human Queen Alsherya Almonise could probably crack a planet while having movement speed at or faster than light levels.
- 11/8/25 Added Doomed World, Hunter, & Trauma perks since I finally thought of Trauma for Military Artists. I had already had Doomed World and Hunter when I first made the jump, but Trauma I thought of as I was recently rereading the light novel. When I am feeling it I will add an item or two to each origin, a couple companion options, and a few drawbacks.
- Looker lets you choose your gender and appearance as you enter a jump, setting, etc.
- Alchemy prodigy is my nod to both Saya and Harley being insanely talented engineers & alchemists.
- Kei Teacher eventually grants the perks, if you have them: Kei Vein, Kei Concealment, Kei Conservation, Kei Healer, Nen'i Kei, Kei Recovery, Aurora Kei, & Kei Talent to everyone you awaken Kei in. The time it takes will vary drastically given the talent and work that each gives to learning it. Kei Talent is the last perk you can awaken/train/give to someone. Added, if you take this along with the Mutant perk then you can train your Soulmate/spouses in all the perks you have in addition to mutant. Basically they get all of the perks but can not share them with others. Since I was asked, yes children of those you teach will inherit Kei along with infinite potential but will not have the perks.
- Kei Healer will start out with the Kei equivalent of high level healing Kei spells & medical Knowledge, and the ability to advance without limit in Kei healing. So it is easy enough to master it with time and practice.
- Zero Domain is the only nod I am giving to the dimensional madness of this setting. It grants you protection from others utilizing time and/or space against you, but you can still manipulate them with no problems. So no time traveler wiping you out and no space manipulator dumping you in the sun. It does give you top Element Affinity for Time & Space as the perk states.
- Doomed World is meant to be a nod to the fact that it is a post-apocalyptic world that is still under attack by monsters.
- Survivor does have its limits when it comes to heat and cold, without additional perks the sun would kill you. Absolute zero would freeze you, barring additional perks.
- Quite a few individuals showed elemental attacks with Kei, so people having affinities makes sense.
- Psyharden Sword Technique seems to be usable with different weapons besides the Katana, hence why I state it can be used with any weapon. The dense and pure Kei is due to the fights between Psyharden users and how their Kei seemed more solid than others.
- Without spoilers Chosen of Saya, represents the best possible Heavenly Blade wielder. As for the knowledge you will gain knowledge of the martial arts of each of the heaven's blade wielders, along with all of the kei techniques and spells used by the Queen and the heaven's blade users.
- Hunter is pretty obvious and is the one 600 i had done a while back, but it took a while to think up trauma. Hunter is meant as a kei boost to your ability to use your senses along with bypassing opponents defenses and regeneration.
- The Training Perk puts you somewhere between an advanced and expert user for those skills.
- Nen'i is weird in this setting, it's a mix of internal and external kei that grants Psychokinetic abilities but can not use external kei. Since you are paying for it you get the telepathy and telekinesis without losing Kei capabilities. You can improve your telepathic and telekinetic abilities, and even learn new ones.
- Kei Recovery was never actually stated but most seem to be able to fight with Kei after using it up after an hour or less. This basically gives you 5% recovery of your kei every minute and 3 times quicker recovery with all other energy types.
- Aurora Kei is a simplified form of the aura particles and Zero Domain that grant the powers in CSR.

- Trauma took me longer than I would like to admit to think up so I could add the other 2 late 600 perks. This perk reflects the PTSD, addiction and mental trauma many Kei users show. Along with being able to heal the soul from the damage insinuated by certain incidents like possession.
- Honestly the Mutant perk might be weaker than the actual immortality and regeneration they have in the setting.
- For the Outfit it will somehow still work even if it has a skirt. You can boost all of its properties from the self repairing to the resistances, but as long as you have the Kei/alt energy and you can boost these properties to higher levels at a higher cost. Updated Outfit to include knowledge of how to make more, along with getting two outfits with each additional purchase. Yes, each outfit includes underwear, accessories, etc.
- For the Regios you can import any vessel, ship, or space station to upgrade its capabilities. If you are actually designing a Regios it can take any form but it has to use the technology of the Regios reality. Though you can use the Alchemy Prodigy perk to further enhance your designed Regios. If you choose to import one or more purchased Kei Cannon's into your Regios they are integrated into its power network, and your Kei Cannon's can be networked into any applicable systems for the Regios. Energy put into the Cannon's will now be used to half the fire time as long as the internal batteries have energy remaining.
- For the Saya DITE, if you pick a pair of weapons you can use them how you wish. You are not stuck only using them together, it just gives you a pair of DITE's that can be used to your desire, separately or together. Had someone ask so I thought I would add it here in case anyone else had the same question. If the weapon could be handed one handed by a normal person (a pistol, dagger, smg / pdw, shield, etc) then two come with a single purchase if desired, if it requires two hands (Montante sword, lmg, rocket launcher, shotgun, etc) then only one per purchase, but for some that fall in a middle ground I would let the person choose (Spear, Staff, & Bastard Sword) if they get 2 items or 1 per purchase.
- Renamed companion Gang to Platoon, I don't know why I ever had it named Gang.
- Also renamed Lintence Acknowledgement to Kei Talent. Kei Talent applies to alt energy type spells and techniques like magic, chakra, the force, psionics, etc.
